NOTE.—Goods removed from "A" or "B" automatically come under List C

* Orders of Council and notices issued subsequently to the date of this list are published in the "*Board of Trade Journal*", which may be obtained either directly or through any bookseller from the undermentioned branches of H. M. Stationery Office:—

London: Imperial House, Kingsway, W. G. 2a;
Cardiff: 1, St. Andrew's Crescent;
Manchester: 37, Peter Street;
Edinburgh: 23, Forth Street;
or from Messrs. R. Pensonby, Ltd., 115, Grafton Street, Dublin. *

The attention of exporters is drawn to the fact that various articles marked B may, in view of the percentage of copper contained in them, be subject to the Copper Prohibition (List A). (See "Copper.")

Application must therefore be made to the War Trade Department for licences to export goods which fall within the aforementioned copper prohibition on account of the quantity of copper contained therein. Such applications should always indicate clearly the actual quantity of copper and/or copper alloys the goods contain.

This list cancels all similar lists issued by the War Trade Department prior to 2nd December 1918.

No. 247M.—The 24th January 1919.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council makes the following rules subject to which the Commissioners of the Uttarpara Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises within the Municipality for domestic purposes only :—

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate, imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 50, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions :—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee of Rs. 100 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below, each holding must have a separate connection to the municipal main supply-pipe, and extensions from the communication-pipe of one holding to another holding shall not be permitted :

Provided that, with the consent of the Commissioners in meeting, connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in a street or common passage and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding;

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (1), except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings :—

8. (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fittings so presented may, if considered satisfactory by the Chairman, be stamped and passed.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 60 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (a) and (b) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Annual value of holding.		Size of ferrule.	Diameter of communication-pipe.	Number of taps.

Note.—In exceptional circumstances as in the case of boarding houses, hospitals, etc., the Commissioners in a meeting may sanction a bigger size of ferrule and connection-pipe and a larger number of taps.

11. (1) On every communication-pipe a brass or gun-metal stop-cock having the same water-way as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface-box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

15. (1) Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to a supply of—

(d) For any excess quantity of water exceeding twice the amount of the allowance prescribed in sub-rule (1) ...	Re. 1.

- (a) if the holding is unoccupied ;
- (b) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorized under this Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection ;
- (c) if the owner or occupier of the holding touches or interferes with his meter in any way except with the permission of the Chairman, or wilfully or negligently injures or damages it ;
- (d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood ;

In the circumstances contemplated in clause (d) an officer authorized by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

17. Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down". Every tap shall be at least 3 feet above the surface of the ground beneath.

18. CHAPTER IX.

Account Rules—(Judicial).

NOTE 1.—These Rules (framed under the Chapter Act) are for observance by Judicial, Magisterial, and all Civil officers, not in direct account with the Accountant-General, in the receipt and payment of money.

NOTE 2.—The Rules were originally issued with C. O. No. 4 of 5th March, 1881. Amending Rules are noted in the margin.

NOTE 3.—The Account forms referred to in the Rules will be found in Volume II, Appendix A-1, Nos. 1 to 37.

NOTE 4.—The appendices at the end of the Chapter are intended for the guidance of officers in carrying out the Rules.

Section I.—General.

Application of the rules.

1. The following rules prescribe the procedure for the receipt and payment of money, and for keeping accounts, to be observed by officers exercising judicial powers and dealing with money in that capacity. These rules do not apply to the High Court, or to the Presidency Small Cause Court; nor do they apply to the subordinates of the Magistrate of the District, because such of them as are stationed in the interior of the district exercise also Collectorate powers and keep their accounts under Treasury rules, and the transactions of those at head-quarters are included in those of the Magistrate. They apply to all Judges, Additional Judges, Subordinate Judges, Munsifs, Small Cause Court Judges, and Magistrates of Districts, and these are all included under the general term "Judge."

NOTE 1.—The Rules apply to Judges of Small Cause Courts (other than the Sealdah Court) as if they were District Judges (*vide* Rule 3), and not as if subordinate to District Judges.—(*Accountant-General's No. 279, dated 14th June 1881.*)

NOTE 2.—The Judge of the Small Cause Court at Sealdah has been exempted from these rules as there is no Treasury at Sealdah, and the Judge keeps a small cash chest, rendering accounts to the Accountant-General direct.—(*Deputy Accountant-General's No. 183, dated 30th April 1881.*)

2. While the rules generally are applicable to all the officers just mentioned, a special procedure is laid down, where necessary, for Courts not situated at or near a Treasury or Sub-Treasury. Such Courts are in the Rules designated "Out-stations," which term must be held to include Courts at or near Sub-Treasuries during such time as the Sub-Treasuries may be temporarily closed owing to the absence of the Subdivisional Officer from his head-quarters.

The "District Judge."

3. (a) In these Rules the term "District Judge" signifies the officer whose accounts are rendered to the Accountant-General, either for his own Court only, or for his own and subordinate Courts. Any officer may be

vested with the powers of a District Judge for the purposes of these Rules; and in any district in which a District Judge is not for the time being resident, they shall be exercised by the principal Civil Judicial Officer at head-quarters.

NOTE.—Only one set of returns should be sent to the District Judge for the Courts whose accounts are kept together, and not a separate set for each Court.—(Accountant-General's No. 141-A., dated 23rd April 1881a)

(b) In Districts such as Malda, Bogra, etc., where there is no District Judge, the principal Civil Judicial Officers at the head-quarters are the officers invested with the powers of a District Judge for the purposes of accounts; and they will keep and render the accounts of all the Civil Courts in their respective districts. A District Judge cannot delegate his powers as regards accounts to any of his subordinates. What he can do, when absolutely necessary, is to place any of the officers subordinate to him in charge of accounts, without in any way relieving himself of responsibility for the due accounting for all receipts and payments. When this is done, the Judge's establishment will do all the work in connection with the accounts, the subordinate officer will sign the papers as if he were placed in charge of the current duties of the Judge's Court, and to the Chief Ministerial officer of the District Judge's Court (but of no other Court at head-quarters stations) may be delegated the duty of passing chalang.

The "Judge in charge."

1. The term "Judge in charge" is used to designate the officer who, when there are two or more Courts at one station, supervises the single set of accounts maintained for all such Courts. When there is but one Court at a station, the Judge thereof is the "Judge in charge" of his own accounts.

NOTE.—At head-quarters stations the accounts for all Courts shall be kept in the District Judge's Court. At subdivisions and out-stations, the accounts of all Courts shall be kept in the office of the Munsif placed by the District Judge in charge of the accounts of that station, and to his office shall be attached the staff of the Accounts Department.

Accountant-General's letter Nos. 101-A and 111-A., dated 26th April 1881. Redrafted 1917

Heads of Account.

5. The following are the heads of account in the public accounts under which the money received and paid by Judicial Officers, or under their orders, is classified:—

(a) Civil or criminal deposits, including rent deposits and compensation for land taken up for public purposes.

NOTE 1.—Any sum deposited in Court under section 14 (1) of the Succession Certificate Act, 1889, with an application for a certificate or for the extension of a certificate, must be classed under Civil deposits.

NOTE 2.—See Note 3 to Rule 19.

(b) Fines (judicial); refunds of the same.

NOTE.—For refunds of fines, see Rule 46 and Note 1 thereto.

(c) Stamp duty and penalties realized in Court. Refunds of the value of court-fee stamps.

NOTE.—For refunds, see Notes to Rule 33, and Rules 46 and 47 and Notes thereto.

(d) Value of the unclaimed property of intestates and others credited to Government.

NOTE.—District Judges' Courts alone deal with the unclaimed property of intestates. The value thereof cannot be credited to Government until the time limited by law has expired (*vide* Rule 102). For refunds under heads (d) to (g), see Rule 46 and Note 2 thereto.

(e) Other general fees, fines, and forfeitures, *i.e.*, general forfeitures and forfeitures of earnest money by defaulting bidders.

(f) Record-room receipts, *i.e.*, searching fees, copying fees, and comparing fees.

NOTE.—When receipts under this head are realized in stamps, they need not be entered in the accounts as cash receipts.

(g) Miscellaneous receipts, *i.e.*, sale-proceeds of forms and other items.

NOTE 1.—Details of amounts credited as "other" should invariably be furnished to the Treasury Office.

NOTE 2.—Service-books are sold direct from the Treasury to parties requiring them; there can, therefore, be no cash receipts on this account.

Rule No. 1 of 21st February 1896

Rule No. 11 of 23rd September 1890

Rule No. 4 of 9th August 1894. (Clauses (e) to (g).]

NOTE 3.—Under this head should be credited money received as expenses of Government servants summoned as witnesses in their official capacity, in cases to which Government is a party, when their pay exceeds Rs. 10 per mensem or when their head-quarters are situate more than 5 miles from the Court—*vide* Note 3, under clause (i), below. Rule No 13 of 1918.

(h) Sale-proceeds of old stores and materials.

NOTE 1.—Receipts under this head are credited to the head "XXV—Miscellaneous" in the Treasury accounts.

NOTE 2.—The Treasury Officer should invariably be informed of the nature of the items, *e.g.*, whether furniture or stores.

(i) Peremptory receipts, *i.e.*, witnesses' expenses, prisoners' diet-money, boat-hire, costs of adjournments, Amins' travelling allowance, fees payable to Commissioners for taking evidence, postage, and other peremptory receipts.

NOTE 1.—Money orders or postal notes for the payment of witnesses' expenses, or of any other of the peremptory items falling under clause (i) shall be made payable to the cashier of the Court to which the money is remitted. The Cashier will receive the money as provided in Rule 26, and will deal with it as directed in Rule 32. G. O. No. 3 of 23rd January 1885.

In the case of money orders, the number of the suit and other necessary particulars shall be entered in the coupon which is now attached to all money orders.

NOTE 2.—The Civil Court shall not receive postage stamps in payment of travelling and other expenses of witnesses. G. O. No. 9 of 18th September 1883

NOTE 3.—When Government Officers are summoned to appear as witnesses in Civil Courts in their official capacity in cases to which Government is a party, all sums recovered under Order XVI of the Code of Civil Procedure on account of their travelling and other expenses, should be paid into the Treasury, a certificate of attendance only being given to them. When, however, the pay of the Government servants does not exceed Rs. 10 per mensem or when their head-quarters are situate within 5 miles of the Court all amounts recovered on account of their travelling and other expenses should be paid in full to them, a certificate of payment being at the same time granted. G. L. No 23 of 3rd December 1891
Amended by Rule No. 13 of 1918

NOTE 4.—As regards money received for payment of postage and postage stamps received, *see* notes to Rules 32 and 35.

NOTE 5.—Landlords' fees and costs of transmission levied under section 13 (7) of the Bengal Tenancy Act, 1885, as amended by Bengal Act I of 1907, shall be received in cash and dealt with as peremptory receipts. Every sum so received shall, on receipt by the Cashier, be forthwith paid in separately by him into the Treasury as a Revenue Deposit to the credit of the Collector. Our copy of the chalan shall be made over by the Cashier to the Court into which the amount was paid, to be filed with the record of the case to which it relates, and a duplicate copy of the chalan shall be sent to the Collector with the notices to be served by him. G. L. No. 1 of 9th March 1908

The process-fees for the service of notices required under the said section shall also be levied in cash, and shall be paid into the Treasury to the credit of Government with chalauns separate from those used for the landlords' fees, duplicate copies of the chalauns being sent to the Collector with the notices, and third copies being filed with the record. G. O. No. 11 of 1911.

NOTE 6.—The cost of photographic enlargements of finger prints made by the Finger Print Bureau of the Criminal Investigation Department as well as the pay and fees of the Finger Print Expert, when summoned to give evidence at the instance of a private party, shall be received in cash and dealt with as peremptory receipts. All sums so received shall, on receipt by the Cashier, be forthwith paid in separately by him into the Treasury as a receipt of the Police Department. A chalan in triplicate shall be prepared, of which one copy shall be kept in the Court, another forwarded with the cash to the Treasury, and the third sent to the office of the Inspector-General of Police with a duplicate of the Court's certificate in Form No. (M) 161, at page 224, Volume N. Rule No. 8 of 1915.

NOTE 7.—For payments of sums received under head (i), *see* Rule 12.

6. From the list of headings in Rule 5 it will appear that the rules apply only to money received by an officer in his judicial capacity. They do not apply to Local Fund receipts and payments, nor to money received by way of permanent advance, or upon establishment or contingent bills (*see* Rule 35). As regards Local Funds there is a separate system of rules; and as regards other items, a Judicial Officer should deal with them under the rules applicable to other officers.

General principles.

7. The receipts and payments under head (a) must appear in the Court's account in detail, but in the Treasury account in which a personal ledger account only is maintained for this head, the daily totals of receipts and payments made at the Court and the individual items of receipts and payments at the Treasury will appear. All receipts and payments under heads (b) and (c) and (h) above must appear in the Court's accounts and in the Treasury accounts in detail. An account in detail of all receipts under heads (e) to (g) must be kept in the Court, but only the daily totals of each kind of receipts will appear in the Treasury books. All receipts and payments under head (i) will be made on the responsibility of the Cashier, whose security must be sufficient to cover any amount in his hands. They will not appear at all Amended by Rule No. 4 of 9th August 1891.
Further amended in 1903 and 1917.

in the Treasury accounts, but the balance in the hands of the Cashier must be noted daily in the cash-book, as well as the balances of any other moneys with which he may be entrusted (*e.g.*, permanent advance, or pay of establishment).

NOTE.—Fractions of a pie are not to be entered in the Court's accounts, and they should neither be received nor paid—(*H. C. Pros.*, August 1898, No. 35.)

8. An exception to rule 7 is allowed in cases where money has to be paid by one person to another, and both are present in Court. In such cases the money may be passed direct from the one to the other under the sanction of the Court, the fact being noted in the record of the case. Such transactions are not to appear in the accounts at all. Care must, however, be taken to see that no officer of the Court receives or becomes in any way responsible for the money, and that no receipt for it is given by the Court or any officer of Government. This procedure may conveniently be followed in cases where judgment-debtors are prepared to satisfy the claims of judgment-creditors, where costs of the day are allowed by the Court, or where sums in excess of those paid into Court are to be paid to witnesses.

9. Judges will, as far as possible, in their transactions with the public, avoid the direct receipt and payment of money under head (a) of rule 5. Cash must, however, be received—

- (a) when the Court is bound by law to accept payment either absolutely or up to a given time (*vide* section 55, and order XXI, rules 81 and 85, of the Code of Civil Procedure), and in every such case the money shall be received even although tendered after the hour prescribed by rule 15;
- (b) when the proceeds of movable property sold in execution (Order XXI, rule 77, of the Code of Civil Procedure) are realized after the hour prescribed in rule 15;
- (c) at out-stations in the case of rent deposits under section 46, Landlord and Tenant Procedure Act, 1869, and sections 61 and 62, Bengal Tenancy Act, 1885; and
- (d) any sum deposited under section 14 (1) of the Succession Certificate Act, 1889, must be received in cash, even though tendered after the hour prescribed by rule 15.

Rule No. 14 of
23rd September
1890.

Amended by Rule
No. 2 of 28th May
1896.

10. At out-stations cash transactions under head (a) of Rule 5 are allowed. Money should, however, be received in cash only when, having regard to the balance in hand (which should not ordinarily exceed Rs. 500), this can conveniently be done. Payments of small sums should ordinarily be made out of cash in hand, but large payments should be made in cash, only if this can be done conveniently, and if it is better thus to disburse the balance of cash in hand than to remit it to the Treasury.

11. Judges of Small Cause Courts, and Munsifs exercising Small Cause Court powers, though their Courts are situated within daily reach of a Treasury, may, by special order of the High Court, be empowered to receive and pay in cash small sums coming under head (a) of rule 5. The sums so paid shall not in any case exceed Rs. 100 in amount.

Amended in 1903,
and further amended
1917.

12. Money under heads (b) to (i) of rule 5 may ordinarily be received in cash in all Courts. As explained in the notes to rule 46, repayments under heads (b) to (g) should ordinarily be made only through the Treasury. Repayments of deposits in favour of Wards' estates will be made at the Treasury only, and not in cash, but by transfer to the credit of the personal ledger account of the estate concerned. (*See* notes to rules 36 and 42.) Under head (i) payments will ordinarily be made in cash by the Cashier on his own responsibility. No refunds should be made on account of head (h)

13. Except in the case of Courts at out-stations the whole cash balance must be remitted to the Treasury* as provided by rule 54 below, at the close of each day.

*Or to a Branch Bank—*vide* note to Rule 58.

At out-stations the entire cash balance must be so remitted on the last day of the month, and from time to time on such other days in the course of the month as may be convenient. Should, however, the cash balance at any out-station be less than Rs. 25 at the end of any month, the officer concerned may send a special report of the circumstances to the Collector of the district and keep the balance in hand

Rule No. 16 of 27th
November 1891.
Amended 1910.

for remittance during the following month. Under no circumstances shall the balance of cash in hand be allowed to exceed Rs. 500 unless the special permission of the Court has been secured to accumulate the same up to a higher limit.

NOTE.—In the case of the following Munsifs of masonry construction, which are provided with safes of English manufacture, the balance of cash in hand may be allowed to accumulate up to a limit of Rs. 1,000, viz. —

Rules Nos. 2 of 28th May 1896; 8 of 19th September 1898; 5 of 1909; 4 of 1915; 4 and 6 of 1917; and 8 of 1918.

Between 2 and 3 P.M. the accounts shall be made up, and no transaction shall take place in Court. Heads (a) to (e) and (h) of rule 5.

Chalans required.

18. Payment of sums falling under heads (a) to (e) and (h) of rule 5 cannot be accepted either in Court or at the Treasury unless the money be tendered with a chalan, in triplicate, signed by the chief ministerial officer of the Court under whose decree or order the money is tendered and also by the Accountant of the Court, or group of Courts.

19. Any person desirous of paying money into Court or, in the case of collections made by any officer of the Court, the officer who has realized the money shall be furnished, free of cost, with three forms of chalan [form No. (M) 1], in each of which he must enter in the Vernacular or English the particulars required from him. One of the chalans, herein called the original chalan, shall bear the Court-free stamp (if any) required by law.

Amended by rule No. 13 of 15th September 1890. Further amended in 1908.

¹ For Supplementary rules as to receipts under heads (b) to (h) see rules 89 to 106.

NOTE 1.—In the case of deposit chalang care must be taken to enter fully the nature of the deposit, the number of the suit or execution case (if any), the name of the person on whose behalf the money is paid in and of the person to whom it is to be paid over, etc.

S. O. No. 10 of
2th May 1877.

NOTE 2.—No stamp is required for a tender of money which a party is bound to pay into Court in the progress of a suit or to complete a purchase as the Court cannot refuse the tender.

In cases where the payment is voluntary, such as deposits made on account of rent, or by a mortgager and the like, a stamp should be required; but, if the application or petition be duly stamped, a second fee should not be exacted for the chalan.

Rule No. 14 of
23rd September
1890.
Rule No. 1 of 21st
February 1896.

NOTE 3.—In the case of sums deposited under section 14 (1) of the Succession Certificate Act, 1889, the deposit chalang must show that the amount is deposited to the credit of the Judge.

NOTE 4.—(a) All payments into Court for deposit under the Land Acquisition Act, 1894, shall be made by means of cheques drawn by the Land Acquisition Officer in favour of the presiding officer of the Court to credit of Civil Court deposits. The transactions will be passed through the Court's accounts in the same way as a deposit in cash.

(b) The cheques of the Land Acquisition Officer shall be accompanied by receipts, in triplicate, in form No. (M) 2, duly filled up, of which one will be retained by the Court for record, and the other two returned, duly signed, to the Collector. Payments of the amounts deposited shall be made under the rules for the payment of Civil Court deposits.

[N.B.—These receipts should be regarded as chalang and dealt with in the matter of numbering and registration in the same manner as chalang tendered with other Civil deposits. It is not intended that there should be a separate register for them, the register of chalang being sufficient for the purpose.]

(c) When a Court awards any compensation in excess of the Land Acquisition Officer's award the further payment due shall also be made into the Court by means of a cheque and the procedure described in the preceding paragraph shall be followed; form No. (M) 2 being used with the necessary changes in order to give full particulars of the order of the Court.

(d) Investments under sections 32 and 33 of the Act, of money deposited in Court, shall be arranged for, in the case of Government securities, in communication between the Court and the Civil Accountant-General concerned, and purchases of land should be effected under the Court's orders through the Collector or other Revenue authority of the district. The Accountant-General will inform the Court what sum should be remitted in order to enable him to make the investment, and this amount will be paid from the deposits in Court.

20. The person desirous of paying in the money, having filled up the forms of chalan, shall present them to the chief ministerial officer of the Court mentioned in rule 18. The latter shall then ascertain that the amount tendered is correct, and is due, from the person on whose account it is tendered to the person to whom it is stated to be payable and, after correcting the forms of chalan, if necessary, shall sign part I, and pass the forms on to the Accountant of the Court, or set of Courts, who, having filled up part II; shall number and register them in a Register of Chalang [form No. (M) 16]. In column 3 he shall enter the name of the person actually tendering the money, and of the person on whose behalf it is tendered. In column 4 he shall enter the name of the person (if any) to whom the money is payable, and all the other particulars stated in the chalan and necessary for subsequently posting up the Register of Deposit Receipts.

Registry of chalang. Entries to be approved by Judge in charge.

21. A separate index number shall be given to each chalan. The numbers in a consecutive series shall be entered both in the chalan and in the register. The Accountant shall be careful to enter in the chalan the particular heading under rule 5 to which the receipt belongs.

Amended by rule
No. 13 of 16th
September 1890.

22. The register and the chalang shall then be laid before the Judge in charge, and he shall initial each entry as he passes the chalang. The three chalang shall then be returned to the party tendering the money, and shall be his authority to pay the same into the Court or into the Treasury.

Amplified 1917.

NOTE.—At sub-divisions and out-stations the Judge in charge may, with the previous sanction of the District Judge, delegate to the chief ministerial officer of his Court the duty of passing chalang.

23. No person is required to take out a chalan till he is actually ready to pay in the money for which he takes it, but a chalan, once having been taken out, must be presented without delay. The order to the Treasury Officer must, therefore, be limited in its operation to the day upon which the chalan is made over to the applicant or, if the transaction occurs after the accounts are closed (rule 15), to the next open day. This is distinctly provided for in the form of order. In case of failure to tender the money at the Treasury within the time limited the tenderer must obtain, by written application, an order from the Court extending the time.

NOTE.—When a chalan is issued on the Treasury it may be acted upon till 3 p.m. of the day following that on which it is issued, if so ordered by the Court. But, when the chalan is for the receipt of money at the Court, it should be restricted in its operation to the day of issue.—(vide Accountant-General's No. 452, dated 19th August 1882).

24. In the case of out-stations the order to the Treasury Officer shall be so dated as to allow sufficient time to the payee to reach the Treasury, but not more time than is necessary for this purpose shall be granted.

Heads (f), (g), and (i) of rule 5.

25. Receipts under heads (f) and (g) of rule 5 (searching, copying, or comparing fees, sale-proceeds of forms, and other receipts), when payable in cash, shall be tendered in the first place to the Accountant, and noted by him in a special register [form No. (M) 17]. The Accountant shall enter the name of the tenderer, the amount to be paid, and the number and date in the foil and counterfoil of the register, shall then detach the right-hand portion, and make it over to the tenderer for presentation, with the money, to the Cashier. Amended in 1908.

26. Peremptory receipts under head (i) of rule 5 shall be tendered to the Cashier direct without the intervention of the Accountant. A chalan is not required for such payments.

Receipt of money by Cashier.

27. The Cashier, on receiving a chalan in triplicate addressed to him under rule 20, or a payment slip issued by the Accountant under rule 25, or a tender of money under rule 26, shall accept the money, and at once enter the amount as a receipt in the appropriate cash-book (rules 32 and 33). Amended by rule No. 13 of 15th September 1890.

28 (a) When chalans have been so passed he shall keep two copies and return the third copy, with his receipt enfaced upon it. This receipt shall be produced in Court by the person paying the money when it is necessary for him to have satisfaction entered upon the record of the case to which he is a party, or when it is necessary to have a sale confirmed or notices issued upon the landlord in cases of rent deposits, or upon the creditor in cases of debt due to a mortgage creditor, and the like. Of the two copies of the chalan retained by the Cashier one shall be filed with the record of the case to which the person paying the money is a party. Rule No. 10 of 26th November 1901.

(b) In the same way, on presentation of the chalan (in triplicate) at the Treasury, as prescribed in rule 23, and on payment of the money, the payer shall receive, as an acknowledgment, one of the three chalans signed; by the Treasury Officer, if the amount be Rs. 500 or more—by the Accountant and Treasurer, if less than that sum. Of the two copies of the chalan retained by the Treasury Officer one copy shall be forwarded to the Judge in charge, together with the Advice Lists referred to in rule 61, in order that it may be filed with the record of the case in connection with which the deposit was made.

29. (a) When, under clauses (a) and (b) of rule 9 above a tender is made of money which must, by law, be received, the payment shall be made direct into Court in cash, but only under the express order of the presiding officer, who shall himself sign the chalans and see that the money is duly entered in the accounts in the manner prescribed in rule 15. C. O. No. 6 of 9th May 1890.

(b) The Sale Account Register [form No. (M) 32] shall be filled up in every case by the Nazir or other officer holding the sale, and shall be presented by him at the close of the day to the presiding officer of the Court under the orders of which the sale has been held.

NOTE.—The provisions of the Code of Civil Procedure render it necessary that cash should sometimes be received by the Nazir, even where sales are held at headquarters, where there is a Treasury. It is, therefore, very important that all Judges should see that the cash so received is duly forwarded to the Treasury and credited in account, and it is the object of the Sale Account Register to bring to the notice of the Judges all such cash transactions that they may satisfy themselves as to the regular and immediate disposal of the proceeds.

30. In the case of payment slips the Cashier shall countersign the slip, which the applicant is to retain as a voucher, and, when a copy has been applied for, his authority to take delivery of the same when ready.

31. When money is tendered under rule 26 the Cashier shall enter the amount in the foil and counterfoil of a bound book [form No. (M) 28] of receipts numbered in serial order. He shall then tear off the counterfoil, sign it, and give it to the payer as his voucher.

Peremptory Cash-books.

Amended in 1917.

32. To exhibit the peremptory receipts and payments [head (i) of rule 5], for which the Cashier is responsible, and of which the Accountant keeps no record, the Cashier shall maintain two registers in forms No. (M) 29 (i) and (M) 29 (ii), in which each class of such receipts and payments shall be separately exhibited—those relating to witnesses' expenses in register (M) 29 (i) and those relating to other items in the appropriate columns of register (M) 29 (ii). A balance of both registers shall be struck at the close of each day, and the totals shall be written both in words and figures.

NOTE.—Money received for payment of postage should be shown along with other peremptory receipts in the Cashier's Peremptory Cash-book. (*Accountant-General's No. 101A., dated the 26th April 1881.*) As regards postage stamps received see note to rule 35.

General Cash-book.

Amended in 1917

33. The Cashier's general cash-book shall be maintained in form No. (M) 30, and shall exhibit in detail all receipts and repayments under heads (a) to (h). Receipts and payments under head (i) shall not be carried to the General Cash-book in gross, but the balances of the Peremptory Cash-books shall be exhibited therein, in words as well as figures, as directed below.

NOTE 1.—Being restricted to transactions in actual cash the General Abstract Cash-book is not to show receipts in the form of Court-fee labels, or refunds of the value of these, which, under rule 47, are ordinarily payable only at the Treasury.

NOTE 2.—But if any refunds are made on account of the value of these stamps out of the cash in the Court [and this is allowable if the amount does not exceed Rs. 5 (*see rule 47*)], they should be included in the cash-book like other payments in cash. (*Accountant-General's No. 43T.M., dated the 28th April 1882.*)

Accountant's check on Petty Receipts.

Amended in 1903

34. At the close of each day the Cashier shall submit to the Accountant his General Cash-book, and the Accountant shall check the entries of receipts under heads (f) and (g) of rule 5 with those on the counterfoil of his register. The Accountant shall then prepare a chalan in form No. (M) 1 of the whole amount received by the Cashier, distinguishing each kind of receipt separately, and shall enter it in the Register of Chalans [Form No. (M) 16] as an amount received in Court. The amount in the Register of Chalans must tally with the Cashier's receipts under heads (a) to (h).

Amended in 1903

NOTE 1.—The "whole amount received by the Cashier" refers to the whole of petty receipts for which no chalan is required to be prepared until the close of the day. After they are checked by the Accountant with the entries on the counterfoil of the Special Register in form No. (M) 17 they must be distinguished in the chalan, one from the other, as "searching fees", "copying fees", "comparing fees", etc. [*vide rule 5 (f) and (g)*], and entered in the Register of Chalans [form No. (M) 16] in the column headed "Amount received in Court". The total in this column must include the Cashier's receipts under all the heads (a) to (h) shown in his General Cash-book (*vide rule 33*). (*Accountant-General's No. 764, dated the 29th November 1881.*)

NOTE 2.—The chalan referred to above should be signed by the Cashier. (*Accountant-General's No. T.M. 503, dated the 9th October 1903.*)

Daily Balance.

Amended in 1917

35. The Cashier shall then strike a balance in his General Cash-book (to be entered in words, as well as figures) and enter below it, in separate entries, the balances struck in the Peremptory Cash-book. It is advisable, for purposes of record, that he should be required also to enter here a note of the money held by him upon any other account, such as for contingent expenditure, or for salaries of establishment. These form no substantive part of the judicial accounts, but the Judge ought to have in a single view a statement of all the money in the Cashier's possession. This statement may be made as follows:—

Balance of General Cash-book, as above—

	Rs.	A.	P.
General balance	...	0	0
Peremptory balance { Register (i)	...	0	0
Register (ii)	...	0	0
Balance of permanent advance, as per Contingent Register	...	0	0
Establishment pay undistributed	...	0	0
Other amounts (which should be explained)	...	0	0
TOTAL MONEY IN CASHIER'S POSSESSION	...	0	0

NOTE.—Postage stamps received by way of remittance should not be mixed up with cash receipts. An account should be kept separately in the form of a *plus* and *minus* memo., the stamps being added as they are received, and deducted when they are sold or otherwise disposed of, and the balance in hand should be entered daily, as directed above, in the General Cash-book.

Application for payment.

36. (a) Persons desiring to draw money deposited in Court and payable to them shall submit to the chief ministerial officer of the Court under whose decree or order the money was tendered an application in form No. (M) 4 or, in the case of a rent deposit, in form No. (M) 5. One copy of such form shall be supplied free of charge. In this form the applicant shall enter all particulars necessary for the identification of the credit. Any number of deposits made in the same case may be withdrawn on a single application, but the number or date and amount of each deposit must be separately and clearly stated. A separate application must be made for deposits in separate cases.

Rule No. 4 of 15th March 1898

NOTE 1.—If the party entitled to the money does not appear in person the applicant must satisfy the Court that he is duly authorized by an instrument in writing to draw the money for the person so entitled.

NOTE 2.—The applicant must comply strictly with the terms of the order under which the money is claimed. Thus, one of a number of joint decree-holders cannot be allowed to take out what he calls his share in the decretal amount; they must all join in the application unless there has been an order for distribution.

This note is not intended to prohibit the payment of the entire amount of deposit to one of a number of joint decree-holders, or to one of joint landholders on the certificate of the Court under whose orders the money was received, that the amount is payable to him for himself and for all the others, whose names should be mentioned. What is intended to be barred is the payment of this amount in instalments to the several decree-holders separately unless there has been an order for distribution.—(*Accountant-General's No. 45 T.M., dated the 28th April 1892.*)

NOTE 3.—In the case of an application for payment of a deposit in favour of a wards estate, which will be paid not in cash, but by transfer at the Treasury to the personal ledger account of the estate concerned (*see note to rule 42*), the manager of the estate, or his duly authorized agent, in making his application, should insert the words "by transfer" in column 6 of part I of the form (M) 4. If the personal ledger account of the estate is maintained at a Treasury other than that at which the repayment of the deposit is to be made a money-order form, duly filled in in favour of the Treasury Officer who maintains the account, should accompany the application in order that the amount may be remitted, less money-order commission.

Inserted 1917.

(b) In cases in which Court-fee stamps are purchased by the Nazir from deposits the final order for the payment of such deposits must contain a direction to the Treasury Officer to pay the amount in stamps to the Nazir of the Judge to whose credit it was deposited and to transfer the amount of deposit to stamp revenue.

Rule No. 11 of 31st March 1892.

NOTE 1.—A duplicate of the application need not be filed with the record. All that is necessary is that, before passing on the application to the Accountant, the chief ministerial officer shall note the order for the payment on the records of the case so that a second claim for the amount may not be passed — (*Accountant-General's No. 93, dated the 3rd July 1883.*)

NOTE 2.—This rule should not be held to apply to outlying Munsifs at places where there is no Treasury. In such cases the Munsifs should purchase stamps from local stamp-vendors, for cash, out of the deposit money in their hands.—(*H. C. Progs., June 1892, Nos. 466, 467.*)

Audit of application.

37. The chief ministerial officer shall compare the application with the record of the case, and carefully test the validity of the claim. If he finds that the name of the payee has been correctly given, and that there is no objection to the payment of the money on the ground of attachment or otherwise, he shall make enquiry as to the identity of the applicant and, if satisfied of such identity, shall sign the certificate at the foot of part I of the application and, after obtaining the signature of the presiding officer to it, pass on the application so signed to the Accountant of the Court, or group of Courts. Such Accountant shall compare the contents of the application

Rule No. 4 of 15th March 1898.
(Substituting rules 37 to 39.)

with the Register of Deposit Receipts, and shall satisfy himself that the amount as shown has been received and is still unpaid, that the name of the claimant corresponds with the name of the payee entered in the register, and that no order for the attachment of the money is in force. If the deposit has been transferred to the Clearance Register (rules 87 and 88) such Clearance Register shall be deemed to be the Register of Deposit Receipts within the meaning of this rule and rules 41 to 44.

NOTE.—The chief ministerial officer will enter in the order sheet of the record of the case a note that a payment order has been issued so that a second claim for the amount may not be passed. This note should be signed by that officer, and also by the presiding officer.

38. If the record of the case has been despatched to the record-room of the District Judge under the orders of the High Court relating to the

* See chapter III, rules 41 and 42.

periodical despatch of records by subordinate judicial officers* the presiding officer of the Court to which the application is made shall forward it to the District Judge, whose record-keeper will certify, under countersignature of that officer, that a specified sum of money is due to the applicant. On receipt of such certificate the chief ministerial officer of the subordinate Court shall make enquiry as to the identity of the applicant and, if satisfied of such identity, shall sign the certificate at the foot of part I of the application and further deal with it in the manner prescribed by rule 37.

Rule No. 4 of 1898
Amended in 1917.

NOTE 1.—The record-keeper will enter in the order sheet of the record of the case a note that a payment order has been issued so that a second claim for the amount may not be passed. This note should be signed by that officer, and also by the District Judge or by such judicial officer at headquarters as the District Judge may appoint for the performance of this duty.

NOTE 2.—See rule 2, chapter VI, regarding the postage for such documents.

C. O. No. 7 of 1917.

NOTE 3.—If the amount certified by the District Judge's record-keeper does not agree with the amount stated in the application the chief ministerial officer of the subordinate Court should require the applicant, if satisfied with his identity, to submit an amended application on which the payment order may be issued.

39. Whenever, after despatch of the record of a case to the district record-room, any subordinate Court passes an order for the attachment of money in deposit in the case intimation thereof shall be forthwith sent to the District Judge. The District Judge shall thereupon cause such information to be noted in the order sheet of the case under the signature of the record-keeper and under his countersignature.

40. If the application for payment is found to be incorrect or defective the Accountant shall note the error or defect, and return it to the applicant for correction by him, or for reference by the applicant to the Court.

Payment Orders and Registry.

41. If the application is found to be correct, and the deposit has not lapsed, the Accountant shall fill up the second part of the application form, post the transaction in the Register of Payment Orders [Form No. (M) 18], number it with its proper index number, and make the requisite entry in the Register of Deposit Receipts. Finally, the application, with the Register of Payment Orders and the Register of Deposit Receipts, shall be laid before the Judge in charge.

Approval by Judge in charge.

42. Before passing the application for payment the Judge in charge shall satisfy himself, in the first instance, that the requirements of rule 37 have been complied with. He shall further satisfy himself, by personal inspection of his Register of Deposits, that the balance at credit of the particular deposit is sufficient to meet the payment, and that no order for the attachment of the money has been noted. If the result of the scrutiny is satisfactory he may sign the order for the payment of the amount, either from the local Treasury or from his Court, as prescribed in rules 9 to 12, and shall attest with his initials the note of the order of payment made in the Register of Deposit Receipts. He shall also initial the entries in the Register of Payment Orders [Form No. (M) 18]. The payment order shall then be made over to the applicant for presentation to the Cashier if the money is to be paid in Court, or to the Treasury Officer if it is to be paid by such officer.

NOTE.—Deposits in favour of an estate under the management of the Court of Wards should be paid not in cash from the Court, but at the Treasury by transfer to the credit of the personal ledger account maintained there for the estate concerned. The payment order should, therefore, be addressed to the Treasury Officer and should authorize him to "pay as above by transfer credit to the personal ledger account of Wards estate" or (if the personal ledger account of the estate is maintained at a Treasury other than that from which the repayment of the deposit is made, in which case a money-order form, duly filled in in favour of the Treasury Officer who keeps the account for the amount, less money-order commission, must accompany the application) to "pay as above by transfer credit to Post Office in order that the amount may be remitted, less money-order commission, to the Treasury Officer, for credit to the personal ledger account of Wards estate."

Inserted 1917.

43. When the money sought to be withdrawn is in deposit, not in the Court to which the application is made, but in another Court—as for example, where two or more Courts at one station are combined for the purposes of accounts—in every such case the duty of the Court to which the application is made shall be merely to receive such application and forward it to the Court of the Judge in charge, with a certificate, made after examination of the record, as provided in rule 37, that the applicant is the proper party to receive payment of the amount claimed. In any case in which the amount has been transferred from the credit of the original payee to that of the claimant this fact should be stated. This certificate shall be compared with the Deposit Register in the office of the Judge in charge. Such register, if the sum is shown therein to be in deposit, will inform the Judge whether there is any bar to payment. If there is no such bar the payment order may be issued by the Judge in charge, and the fact of its issue shall be communicated to the Court upon whose certificate the application was passed in order to enable it to enter satisfaction for the amount upon the record of the case.

Rule No. 4 of 16th March 1898.

NOTE 1.—The certificate should be given on the payment order, that is to say, in the tripartite form No. (M) 4, vol. II. at foot of part I, in the place intended for it; and in recording the payments in the Register of Repayments particulars may be entered as to the Court under whose orders the payments have been made.—(Accountant-General's No 331 T.B., dated the 5th September 1881, read with his No 42 T.M., dated the 8th April 1882.)

NOTE 2.—When money realized under the decree of one Court is attached at the instance of another Court the application for payment should be made to the Court attaching the money. Such Court, after receiving the application, should forward it to the Court under whose decree the money is realized and, if there be no objection to the payment of the money to the applicant, the latter Court should deal with it under this rule, or, if the record of the case has been despatched to the district record-room, under rule 38. The Court so dealing with the application should also report to the attaching Court or, if the application has been dealt with under rule 38, also to the District Court that the amount claimed has been transferred from the credit of the original payee to that of the claimant.

Lapse of Order.

44. (a) An order for payment from the local Treasury is valid for ten days only, and may not be cashed after the expiry of ten clear days subsequent to the date thereof. An order which has not been paid within ten days as aforesaid may be presented to the Court which issued it, and such Court may re-enface thereupon a new payment order, which shall remain valid for ten clear days immediately after the date thereof. When the last day of any such period of ten days is a day on which the Treasury is closed the order may be cashed on the day on which such Treasury reopens.

NOTE.—An order for payment of money at the Court should be restricted in its operation to the day of issue. And, when money is to be paid immediately, the order of payment should be issued on the Cashier of the Court.—(Accountant-General's No. 452, dated the 9th August 1882.)

(b) When such order as aforesaid is for a sum exceeding Rs. 100 it should be included in a "Daily Advice List", in form No. (M) 10, to be issued by the Court making the order to the local Treasury where the cheque is to be paid.

Rule No. 8 of 23rd February 1896.

(c) When the Treasury accounts are closed on the 31st day of March in each year every order for payment issued on or before that date shall lapse absolutely; and Treasury Officers are forbidden to cash after the 31st March orders issued on or before that date. An order which has lapsed under this clause cannot be renewed, but a new order may be obtained upon delivering up the old order and making a fresh application under rule 36.

NOTE.—Judges should warn persons who apply for orders at the end of March of the effect of this rule, and tell them to wait till April 1st unless they mean to cash immediately any order that they may obtain.

(d) Immediately after the 31st day of March in each year the Judge in Charge shall ascertain what payment orders issued on or before that date are still uncashed and shall mark them off under his initial in the registers (1) of Payment Orders, and (2) of Deposit Receipts as "cancelled under rule 44.(c)."

Lapsed Deposits.

45. When an application is made to draw money at credit under a deposit which has lapsed under rule 94, but the payment of which is otherwise unobjectionable, the Accountant shall prepare a special form of application [Form No. (M) 6] which, when passed by the Judge in charge after the examination prescribed by rule 42, shall be dealt with under rule 97.

Refunds under heads (b) to (h) of rule 5.

Amended in 1908.

46. When an application is made for the refund of a fine or a miscellaneous receipt [heads (b) to (g) of rule 5] the payment order shall be prepared by the Accountant in form No. (M) 7 after checking the application by a reference to the Fine Register or Miscellaneous Receipt Register (rule 99); and the Judge in charge, at the time of passing the refund order, shall note the repayment against the entry of the receipt in such register. The payment order shall also be noted in the Register of Payment Orders [Form No. (M) 18] and initialled by the Judge in charge. No refund should be made from the receipts under head (h) of rule 5.

NOTE 1.—As regards stamp duty and penalties see rule 101. While they may be realized in Court it will be observed that, under section 39 of the Stamp Act, they can be refunded only by the Collector. Form No. (M) 7 should be used for certificates for refund. For refunds of the value of Court-fee stamps see following rule.

NOTE 2.—Refunds under heads (d) to (g) of rule 5 can be made only through the Treasury.

47. Application for the refund of the value of Court-fee stamps is to be made to the chief ministerial officer, who shall compare the application with the record, and if he finds that a refund is due, shall draft and sign an order on the back of the paper to which the Court-fee stamps are affixed. The papers must then be passed on to the Accountant, who shall prepare a payment order in form No. (M) 8 or No. (M) 9, as the case may require, and shall enter the particulars in the Register of Payment Orders [form No. (M) 18]. The application, with the other papers and the register, shall then be laid before the judicial officer who, if satisfied that the proceedings are in order, may sign the order of refund on the back of the stamped paper and the payment order and initial the entry in the register. The payment order shall then be made over to the applicant for presentation at the Treasury or, if the amount do not exceed Rs. 5, to the Cashier of the Court.

NOTE 1.—Petty refunds of the value of Court-fee stamps may be paid out of cash in the Court on vouchers in form No. (M) 9 and charged in the Cash-book.—(See notes to rule 33.)

NOTE 2.—Court-fees realized in stamps may, under certain circumstances, be refunded by order of the Court.

NOTE 3.—No general rule can be laid down respecting the refund of the value of Court-fee stamps in cases where the fees have been paid into Court for the issue of processes and such processes have not issued. Each case must be left to the discretion of the Court, and decided on its merits. Where the amount is large it may well be refunded.—(H. C. Progs., June 1882, Nos. 496 and 497.)

NOTE 4.—In any exceptional case in which the paper to which the Court-fee stamps are affixed has been destroyed under the Rules for the Destruction of Records (see chapter III, rule 68) of the Court authorising the payment should satisfy itself that the amount claimed is due, and record the order for refund on the application, which may be filed. In cases of this nature, it is objectionable to record a copy of the refund order in form No. (M) 9 for it is an order upon the Treasury, and there is risk of its being presented for payment.—(Accountant-General's No. 561, dated the 21st August 1881.)

NOTE 5.—The procedure laid down in this rule is for the refund of Court-fee stamps when application for such refund is made to a Court which keeps its own accounts (see rule 43).—(Accountant-General's No. 324, dated the 16th June 1881.)

NOTE 6.—Where there are two or more Civil Courts at one station, the Judge in charge, i.e., the officer in whose Court the combined accounts of all the Courts at the station are kept, should sign the refund order (Accountant-General's No. 145A, dated the 10th April 1881), and initial the Register of Payment Orders.

NOTE 7.—After receipt of the Treasury Advice List the Judge in charge should register the payment in the Register of the Refund of the Value of Court-fee Stamps [Form No. (M) 26].—(Accountant-General's No. 327, dated the 17th June 1881.)

48. In so far as concerns the accounts system it is invariably necessary to trace each item of payment under the Court's orders back to its corresponding item of receipt; in other words, to connect each item of a Court's debit in the Treasury with the corresponding item of credit, however far in time the two may be separated from each other. Accordingly the Court must take care to furnish itself and the Treasury with the necessary particulars for this purpose.

Payments by Cashier.

49. In the case of payment orders directed to the Cashier the payment must be entered by the Cashier in the General Cash-book, the payment order being retained by the Cashier as his voucher.

NOTE.—The Cashier should cancel the vouchers, as soon as he pays them, by writing on the face "Paid" with his initials. A "Paid" stamp should not be used as that indicates the subsequent discharge at the Treasury.

Courts near Treasuries. *

50. In Courts situated within daily reach of a Treasury the Accountant shall, after the close of business each day, make the proper entries in the Treasury Pass-book [Form No. (M) 19], showing in detail the sums received from and paid to the public in cash. The receipts shall be entered on the right-hand side, and are to consist of the sums entered in column 5 of the Register of Chalang [Form No. (M) 16] headed "Amount received in Court". The payments shall be entered on the left-hand side, and are to consist of the sums shown in column 5 of the Register of Payment Orders [Form No. (M) 18] headed "Amount cashed in Court".

NOTE.—The remittances to the Treasury at the close of each day, as well as the particulars of each payment to the public, must be entered in column 3 of the form of Pass-book No. (M) 19. To facilitate the calculation of the amount to be remitted to the Treasury at the close of each day's business two lines are provided in the form, one to show the total of receipts and payments at the Court, and the other the total for the day according to the receipt and payment sides. The receipts and payments at the Court being first entered and added up the difference between the total of receipts and that of payments will, if the receipts exceed the payments, be entered on the left side as remittance to the Treasury, or if the payments exceed the receipts on the right side as remittance from the Treasury. The total for the day will then be made up for both sides, which will agree together. The number of the chalan or payment order, on the back of which the amount to be remitted to, or received from, the Treasury is noted, may be shown against the entry made below the total of payments or receipts, but the head of account need not be noted in the Pass-book against the entries, nor need the entries be initialled by the Treasury Officer.

Rule No. 8 of 20th July 1884.

51. Every chalan and payment order for money received or paid at Court under heads (a) to (h) shall be shown in detail in the Pass-book, and the head of account shall be noted against each, so as to enable the Treasury Officer to bring the transactions in detail upon his books and classify them correctly. Amended in 1908.

NOTE.—It is necessary to show in the Pass-book the totals only of each chalan and payment order. Each chalan may contain any number of items provided they belong to the same head of account.

Examination by Judge in Charge.

52. The Judge in charge shall examine the accounts by comparing (1) the Registers of Chalang and Payment Orders (amounts received and paid in Court), with the Cashier's General Cash-book; (2) the Treasury Pass-book, with both; and (3) the balances shown in the Peremptory Cash-books with those shown in the General Abstract Cash-book.

Daily remittances.

53. The balances of the Cashier's accounts in respect of diet-money and other peremptory receipts should be observed every day in passing the General Cash-book. To prevent excessive accumulations under this head the Judge in charge shall fix amounts which the balances in the hands of the Cashier on account of (i) witnesses' expenses, and (ii) other items of peremptory receipts, respectively, shall not be permitted to exceed. When over the balance shown in either Peremptory Cash-book exceeds the maximum so fixed the Judge in charge shall cause the excess to be transferred to civil deposit. Amounts so transferred shall be treated in the same manner as money received in Court, and shall be entered in detail in the Cashier's General Cash-book, both on the credit and debit sides, and also on the credit side of the Peremptory Cash Register to which they belong. A single chalan, in form No. (M) 1, shall be prepared under rule 34 by the Accountant and signed by the Cashier for the sum so transferred, but this chalan need not specify in detail the individual receipts of which the sum transferred is composed. Columns 1, 2, and 3 of part I of the chalan will be left blank, in column 4 will be entered "witnesses' expenses" or "peremptory cash", as the case may be, and in column 6 will be entered "items Nos. in Peremptory Cash-book". Similar entries will be made in columns 3 and 4 of Register No. (M) 16—Chalan Register—and in columns 4 and 5 of Register No. (M) 20 (i) or 20 (ii), as the case may be. Should the money be subsequently required it shall be withdrawn from deposits in the manner described above and credited in the appropriate Peremptory Cash-book. If such sums remain in deposit for three years they must be carried to credit of Government under rule 94, relating to "Lapsed Deposits".

NOTE.—The oldest item or items not likely to be soon repaid should be transferred to deposits when transfers are effected under this rule.

54. (a) Having intialled the accounts of the day and signed the Cash-book the Judge in charge shall send the Pass-book to the Treasury*, together with the net amount in cash and all the chalans and payment Orders. This remittance must be entered in the Cash-book as a payment of the day upon which it is made.

(b) It is important that this be done before the business of the new day commences, and the Cashier should have in hand, after each such remittance, only the balance of the peremptory cash transactions and the other balances referred to in rule 35.

NOTE.—The total of chalans of the day for money received in cash by the Court, minus the total of payment orders cashed at the Court, will represent the balance of cash to be remitted to the Treasury. The amount so remitted will be noted on the back of the last chalan entered in the Pass-book [Form No. (M) 19] in order to avoid the separate chalan which otherwise would be required by the Treasury Officer.

Courts not near treasuries.

55. At out-stations the Cash-book shall be balanced as prescribed above, and the balances, both that of the receipts and payments under heads (a) to (h) and that of peremptory transactions, shall be carried forward to the next day's account. The accounts shall be balanced, compared, and signed every day in the manner prescribed in rule 52 save that, instead of comparing the Treasury Pass-book with the accounts, the Judge in charge shall see that the Court balances are brought forward and shall, at least once a week, ascertain that the money is actually in possession of the cashier.

Periodical remittances.

56. On the last day of the month, and from time to time, as occasion may arise (see rule 13), the Treasury Pass-book shall be made up, showing all receipts and payments at the Court since the last remittance to the Treasury.† Its accuracy having been tested it shall be forwarded to the Treasury with all chalans and payment orders. If the receipts have exceeded the payments the cash excess shall be sent to the Treasury unless such excess does not amount to Rs. 25, in which case it may be remitted in the following month; if the contrary, the cash deficit shall be received from the Treasury; in either case the cashier will have, after the completion of the transaction, in addition to the balance of peremptory cash transactions, only the permanent advance allowed to the Court for carrying on its payments at a distance from the Treasury.

ended in 1903.

†Or to a Branch Bank, vide note to rule 58.

Adjustment with Treasury.

57. The last day for remittance in each month must be so fixed that the final receipt of money at the Treasury may come within the month. The receipt at the Treasury or Sub-treasury (see rule 18) or otherwise the receipt of the Judge in charge and those of the Treasury will not be valid. Any transactions at the Court after this remittance is made, although entered under their proper dates, should be treated as if they belonged to the succeeding month's accounts registers and returns.

Notes regarding Remittances.

58. It is the duty of the Judge in charge to see that money remitted from the Court actually reaches the Treasury and is acknowledged by the Treasury in the pass-book.

59. When the Court remits to a Branch Bank direct the Agent of the Branch Bank should acknowledge the receipt of the remittance in the pass-book. (*H. C. Progs., February 1893, No. 243*)

60. In making such remittances the police rules as to sending an escort with the money must be duly observed.

61. In the case of Munsifs which are at the headquarters of districts or subdivisions the Civil Court Officer should be employed to take charge of remittances to the local Treasury. In the case of Munsifs situated in the interior of districts and subdivisions remittances should be made under Police custody. During the absence of the Subdivisional Officer remittances to the District Treasury (vide rule 23) should also be made under Police custody. Rule No. 2 of 28st May 1896.

62. During the absence on tour of Subdivisional Officers, and the consequent closing of their Treasuries, Munsifs must be guided by the preceding rules applicable to officers at stations where there are no Treasuries, and must make remittances of surplus cash, if necessary, to the District Treasury. They will take advantage of the periodical return of Subdivisional Officers to headquarters to reduce the cash balances in their hands as much as possible, due regard being had to their probable requirements.

Treasury Advice List.

63. At the close of business each day the Treasury Officer, whether Sadar or Subdivisional, shall prepare Advice Lists, in Form No. (M) 11, of all such chakans and payment orders of each Judge in charge as have been brought upon the Treasury accounts in the course of the day, and shall forward them to such Judges in charge, respectively, together, with the Chakans referred to in clause (b) of rule 23. In these lists shall be entered in detail such chakans and payment orders as have been received or paid at the Treasury or Sub-treasury in cash, while those brought into the Treasury account from the pass-book (rule 54) shall be included in a single total on each side with the description "as per your pass-book dated—".

Amended by rule No. 10 of 26th November 1901.

64. If the Court is close to the Treasury, so that the Judge's registers referred to in rule 42 can be sent daily to be compared and initialed by the Treasury Officer, this procedure may be adopted in lieu of the Daily Advice List if found more convenient.

65. The list prepared at the Sadar Treasury for the District Judge shall include besides the moneys received and paid on account of the Judge's own Court, those transactions also which belong to his subordinate Courts. These amounts, however, need not be entered in detail, but may be included in a single total of receipts and of payments for each Court, including pass-book transactions brought into account.

Comparison by Judge.

66. At the close of this Advice List, the Judge in charge shall send the particulars of the chakans and payment orders shown in it to be compared with the entries entered in his registers of chakans and payment orders. He shall then sign and forward to the Treasury Officer the Advice List, and the Treasury Officer shall forward it to the Judge in charge for his signature.

Separation of petty deposits.

65. Two registers of Deposit Receipts shall be kept in form No. (M) 20, and two of Deposit Repayments in form No. (M) 21. One of these shall be termed the Register of A Deposits, and there shall be entered therein all deposits originally exceeding Rs. 5. The other shall be termed the Register of B Deposits, and there shall be entered therein all deposits not originally exceeding Rs. 5. Both registers shall be kept in the same form, and shall be posted in the same manner, but with separate series of numbers (*see next rule*), distinguished by the initial letters A and B, respectively.

Posting.

66. As soon as the Treasury Advice List is received (*rule 61*) the Deposit Register will be posted in the following manner for the date to which it refers. In the first place, all cash transactions in Court on that date shall be posted, the receipts being copied from the Register of Chalang (column 5), and the payments from the Register of Payment Orders (column 5). Transactions at the Treasury shall then be written up from the Advice List, the entries in this list being compared with those in registers No. (M) 16 and No. (M) 18.

G. L. No. 3 of 5th
May 1888.

NOTE.—The date of granting the payment order should be entered in the repayment columns in the Registers of Deposit Receipts, and the date of actual payment in column 4 of the Registers of Deposits Repaid.

Registers of Receipts.

67. All items of deposit in these registers must, as directed above, be numbered in an annual consecutive series of numbers commencing on the 1st April and ending with the last day of March in each official year. Only the first eight columns shall be filled in at first, the other columns being intended for the record of subsequent repayments.

Notes of claims, etc.

68. As it is important that the Deposit Registers in the Accountant's department should set forth in respect of each item all information necessary in order to deal at once with applications to draw money all attachment, processes, and transfer orders relating to decrees, and all orders as to the substitution of parties which affect decretal and other moneys in deposit, shall be noted at the time in the Deposit Register. The Sarishtadar, or some other specified subordinate under his supervision, shall be made responsible for this duty.

NOTE.—Whether the Sarishtadar's responsibility is, or is not, to end with the communication to the Accountant or Accountant's muharrir is a matter left to the discretion of each Court, but some specific order should be recorded.

Registers of Repayments.

69. The Registers of Deposit Repayments [form No. (M) 21] shall be posted from the Treasury Advice List and the Payment Order Registers, as directed above.

Closing for the month.

70. (a) The Registers of Deposit Receipts and Deposit Repayments in Courts at a sadar station shall be totalled and closed on the last day of each month upon which the Sadar Treasury remains open, and in sub-divisional stations on the day on which the accounts of the Sub-divisional Treasury are finally closed for the month, in such a way that the period and the transactions included in the Court's books and returns may correspond exactly with those included in the Treasury books and returns.

(b) Care must be taken to make the final remittance to the Treasury in such time that it may be entered in the accounts of the Treasury for the month to which it belongs.

(c) In each of the Registers of Deposit Receipts prescribed by rule 65 a *plus* and *minus* memorandum must be drawn up at the end of the month's entries in the following form:—

Balance of deposits from last month
Received during the month, as per register
		Total	...

Responsibility.

71. Every Judge is responsible for all payments of deposits made on his certificate or under his orders. In the case of receipts and payments of petty or B deposits no detailed check is exercised over his proceedings, the accounts which he is required to render of these showing totals only. In the case of A deposits, however, all sums received, and not paid out during the month in which they have been received, and the balance of such of these deposits as have been partly paid out, must be reported to the District Judge and must be included in the officer's accounts, and in his return to the Accountant-General.

NOTE.—If the District Judge thinks it absolutely necessary he may delegate the duty of passing chaldans to the chief ministerial officer of his Court, and place any of the officers subordinate to him in charge of accounts, in the same way as a Deputy Collector is placed in charge of a Treasury, but on the distinct understanding that the District Judge will not be relieved of the responsibility for the due accounting of all money received and paid. All returns will be signed by the District Judge.—(Accountant-General's No. 11 A., dated the 26th April 1881.)

Daily returns of subordinate Courts.

72. Every day, after the Treasury Advice has been received and the deposit and other registers have been written up and checked with it, two statements showing the transactions of the date to which it refers shall be prepared by the Judge in charge and forwarded to the District Judge. The first of these statements [form No. (M) 12] shall show the total amount of the entries in the Deposit Registers and the totals of all other transactions brought on the Registers (see Rule 105). The second shall be an extract from Part I of the Register of Deposits Repaid [Form No. (M) 21], giving the particulars of repayments on account of deposit received during previous months. At the foot of the first statement the Judge in charge shall certify that his Registers of B Deposits are written up to date and are in order.

NOTE 1.—It will be observed that these returns are intended to exhibit actual receipts and payments, and that they are, therefore, to be compiled from the Deposit Register, and not from the Registers of Chaldans and Payment Orders.

NOTE 2.—The Subordinate Courts referred to in rules 71 and 72 are those which keep their own accounts and the accounts of other Courts as well—vide rule 43.—(Accountant-General's No. 141A., dated the 26th April 1881.)

NOTE 3.—The entries of the payments of deposits appertaining to the Subordinate Courts at the order station should be issued from the District Judge's Court.—(Accountant-General's No. 141A., dated the 26th April 1881.)

NOTE 4.—The certificate referred to in this rule is not required from Small Cause Court Judges as they are not subordinate to District Judge in the matter of accounts.—(Accountant-General's No. 141A., dated the 26th April 1881.)

73. At out-stations some delay in submitting the daily returns is unavoidable, but this delay should not exceed the time necessary for the Treasury Advice List to reach the Court. The date on which the returns are actually signed should be noted on them by the Judge in charge.

Verification by Judge in charge.

74. At the time of signing the returns the Judge in charge should have before him the Registers of Receipts of Chalaus and Payment Orders, the Registers of Receipts and payments of Deposits, and the Treasury Advice List; and, after comparison, he should attest the entries in column 8 of Registers No. (M) 16 and No. (M) 18 by placing his initials in column 9, and the entries in the Registers of Deposit Receipts and payments by placing his initials in columns 7 and 14, respectively.

Examination by District Judge.

75. The statements furnished by the Subordinate Court shall, when received in the District Judge's office, be compared with the corresponding Advice List supplied to him by the Treasury Officers, under rule 62. In the case of out-stations the totals for the whole month supplied by the Judge in charge must agree with the totals for the whole month supplied by the Treasury Officer if the rules regarding periodical remittances have been correctly followed. In the course of the month the former totals will ordinarily exceed the latter, and the difference must be taken to represent cash transactions advised by the Court, but not yet brought on the Treasury books. In the case of Courts near Treasuries no such discrepancies should occur if the rules are properly observed. When any such are noticed immediate steps must be taken, under the District Judge's orders, to reconcile them.

Judge's Register of Totals.

76. After examination the totals of deposits received and paid shall be posted into a register to be kept by the District Judge in Form No. (M) 23. This Register contains two sets of columns, one set relating to A Deposits and the other to B Deposits. Separate portions of the Register for the month must be allotted to each Subordinate Court, that is, for each Subordinate Court a number of pages, according to the probable work, must be assigned in the leaves devoted to that particular month. The entries in respect of each Subordinate Court will thus come continuously and in order of date and they must be totalled at the end of the month.

77. In the portion of the Register which relates to B Deposits a column has been provided for a daily balance which must be struck by adding together the preceding day's balance and receipts and deducting the payments. The object of the daily balance is to afford the District Judge a ready means of controlling Subordinate Courts in the receipt and payment of small deposits, as any excess of payments over receipts will be at once detected.

Posting Repayments of A Deposits.

78. (a) Taking up next the detailed Daily Register of Deposits Repaid [Form No. (M) 21], the repayments must be posted against the corresponding entries in the Judge's Daily Register of Deposits received [Form No. (M) 20], and must be initialled by the District Judge or, under his orders, by the chief ministerial officer of his Court, in the same manner as repayments authorized by himself. They must also, at the same time, be copied into his Register of Deposit Repayments [Form No. (M) 21].

(b) As each payment is noted in the Judge's Register the district number (rule 82) against which the payment is charged must be noted in the Subordinate Court's return.

NOTE.—In noting the repayments care should be taken to see that the amounts thus reported as repaid are actually repayable, and that amounts which should be credited to Government are not repaid to individuals.

Monthly Return.

79. (a) At the end of the month there shall be furnished by the Subordinate Courts to the District Judge a statement of all A Deposits received, but not wholly repaid, during the month. This statement will be an extract from the Register of Deposit Receipts [Form No. (M) 20], omitting

the items which have been wholly repaid during the same month. Of deposits received and partially repaid in the same month the unpaid balance only is to be shown in this statement. The dates of despatch from the subordinate Court and of receipt by the District Court shall be noted on this statement.

Explanation.—An A deposit, the balance of which has been reduced below Rs. 5 by a payment made in the same month, is to be included among the A, and not among the B, deposit.

(b) On the 31st March of each year the subordinate Courts shall, in addition, submit to the District Court a certificate that all uncashed orders to be cancelled under rule 44 (c) have been marked off in their registers.

Plus and Minus Memorandum.

80. There shall be appended to the monthly statement of deposit receipts a *plus* and *minus* memorandum in the following form:—

	Rs.	A.	P.

Certified that, on a comparison of Treasury Advices with postings therefrom in the Registers of Chajans, of Payment Orders, of Deposit Receipts, and of Repayments the amounts entered above as received and paid are correct.

NOTE 1.—The repayments of B deposits received in the year of account, and in the year next preceding, should be shown separately.

NOTE 2.—This certificate is not required from Small Cause Court Judges who are not subordinate to District Judges in matters of account.

Examination by District Judge.

81. On receipt of the monthly statement and the *plus* and *minus* memorandum the register [form No. (M) 33] shall be compared therewith. First, as regards A deposits the total of the column headed "Repaid on account of current month" should agree with the amount shown in the *plus* and *minus* memorandum; and, when this amount is deducted from the total of the column headed "Total amount received", the balance ought to agree exactly with the total of the Statement of Outstanding A Deposits repaid.

from the Court to which the figures relate. Second, as regards B deposits the balance itself can be tested in detail only once a year, when the yearly statement under rule 91 is received; but every month the difference between the opening and the closing balance should be equal to the difference between the receipts and payments reported in the *plus* and *minus* memorandum.

Posting receipts of A deposits.

Rule No. 12 of 1st June 1885.

82. The subordinate Courts' monthly detailed Statement of A Deposits Received shall be attached by the District Judge to his own Register of Deposits Received after he has closed the accounts of the Civil Courts at the sadar station. The District Judge will also number the deposits in the subordinate Courts' return in continuation of his own series.

NOTE.—The Judge should examine the receipts, so as to see that no item has been improperly held in deposit and, if he finds amounts so held which should be credited to Government, he should direct the subordinate Court accordingly.

83. The District Judge's Registers of Deposits exceeding Rs. 5 received and repaid thus include each month not only those of his own Court, but also of all subordinate Courts, excepting only the sums received and repaid in such Courts during the same month.

Returns of deposits received.

Amended by rule No. 2 of 24th January 1902.

84. On the 12th of each month an Extract Register of Deposit Receipts exceeding Rs. 5 shall be prepared by the District Judge in form No. (M) 15, and forwarded to the Treasury Officer for transmission, after a comparison with his cash accounts, to the Accountant-General. This extract register will be a copy of the entries made during the month in his register [form No. (M) 20], and will contain all such items of more than Rs. 5 each as were deposited in his own Court and in Courts subordinate to him, omitting all those which were wholly repaid during the month, and showing, in the case of those partially repaid during the month, the unpaid balance only. The Sadar Court entries should appear first; then—after a line or break—the entries of each subordinate Court, separately headed by the name of the subordinate Court. At the foot of this register deposits received and repaid during the month, and deposits received for sums of Rs. 5 each and less, are to be shown in separate totals for each Court, without details. This extract register should be despatched punctually on the 12th of the month unless in the case of the larger districts a later date is fixed. The whole of the entries for each Court should be consecutive and separated from those of the other Courts by a space and heading.

Returns of deposits repaid.

Amended by rules No. 2 of 11th August 1898, and No. 1 of 24th January 1902.

85. A monthly extract from his Register of Deposit Payments [form No. (M) 21] of sums above Rs. 5 shall be forwarded in the same form by the Judge to the Treasury Officer for transmission, after comparison with his lists of payments, to the Accountant-General. The District Judge shall include in this extract (1) the details of repayments on account of deposits of previous months whether made in his own Court or entered by him from the statements of subordinate Courts (rule 78); (2) a single total for each Court of the repayments of the current month's deposits whether made at the District or subordinate Courts, which must agree with the total of receipts on the same account; and (3) the totals for each Court of the repayments on account of deposits of Rs. 5 and less received during the year of account and

Like the Extract Register of Receipts this return will keep each Court's entries in separate series. The extract will be prepared on the same printed form as the register, and should be posted as shown below:—

Plus and Minus memorandum.

86. (a) A *plus* and *minus* memorandum in the form prescribed in rule 80, but including the figures of the subordinate Courts, as well as those of the District Judge's own Court, shall be appended to the Statement of Deposit Receipts
- (b) This *plus* and *minus* memorandum is to show as repayments the actual repayments at the Treasury, and is further to show the Treasury balance outstanding.
- NOTE.—It will be found convenient to keep in a separate register a copy of this *plus* and *minus* memorandum, with further memoranda of the details from which the figures have been arrived at. It is important that there should be no difficulty at any time in reconciling the figures of the Court with those of the Treasury.

Section VIII.—Annual Clearance Register of Deposits.

(Rules 87 to 93.)

RULES.			RULES.		
Clearance Register	...	87, 88	District Judge	...	90
Subordinate Courts	...	89	Verification of Petty Deposit Balances	...	91-93

Clearance Register.

87. (a) At the end of each year the Registers of A Deposits received in the next preceding year shall be closed by transcribing into the last column, headed "Transferred to Clearance Register," every balance which exceeds Rs. 5. An annual Clearance Register shall then be drawn up in form No. (M) 22 showing all these balances against their original numbers—showing, in other words, all the unpaid balances of A Deposits of the preceding account year next but one. For example, the Clearance Register of April 1923 will show all unpaid balances of A Deposits received in 1921-22.
- (b) Of balances which do not exceed Rs. 5 a separate list shall be made out under rule 94 below.
88. The items in this account having been carefully compared with the corresponding balances in the original Register of Deposits Received [form No. (M) 20] the last named document shall be laid aside, and future repayments recorded only in the Clearance Register.
- NOTE.—If against any of the items transferred to the Clearance Register a repayment order has been issued and cancelled under rule 84 (a) a note to that effect must be made in the Clearance Register so that, if application for repayment is again made, an order may not be issued without cancelling the original cancelled one.

¹ The words "Clearance Register" wherever they occur in these rules, were substituted for the original words "Account Particulars" by H. C. Prosser, February 1899, No. 457.

Return by Subordinate Courts.

89. A copy of the clearance register shall be sent by the subordinate Courts to the District Judge, and by him carefully compared with the entries in his Register of Receipts. Any discrepancies found must be investigated and corrected.

Return by District Judge.

90. The clearance register of the District Judge necessarily includes the items in the several clearance registers of the subordinate Courts, and a copy of it shall be sent to the Accountant-General. The date for its despatch shall be the 30th April, by which time the District Judge should have received and compared the clearance registers of his subordinate Courts.

Verification of petty deposit balances.

91. In order to verify the balance of B deposits each Court shall make a list of the unpaid balances of receipts of the past twelve months, and by actual summation of these balances, find the total amount outstanding on account of the past year's deposits. Each Court is required to submit, along with the Clearance Register of A Deposits, a certificate that the balance of B Deposits of the past year has been found by actual summation to be Rs.—.

92. The balance found under the last rule, together with the total of the list prepared under rule 91 (2), must equal the total balance of petty deposits on March 31st, and must be so verified—

- (1) by each Court with the forward balance in the plus and minus memorandum; and
- (2) by the District Judge, with the balances of the subordinate Court brought forward in register No. (M) 23.

93. The District Judge, having verified the balance certificates of the subordinate Courts, shall endorse each with the certificate "Examined and found correct", and shall certify the fact of having done so upon the Statements of Lapsed Deposits sent to the Accountant-General under rule 95.

Section IX.—Lapse of Deposits.

(Rules 94 to 98.)

Rules.			Rules.		
Lapse of deposits	...	94	Correction of balance	...	96
Statements	...	95	Refunds	...	97, 98

Lapse of deposits.

94. On 31st March of each year, the following unpaid balances of deposits lapse to Government, and are to be so written off in the Clearance Register and Registers of Receipts, respectively:—

(1) of A deposits, first, all balances of deposits of the last account year but one which do not exceed Rs. 5 and are, therefore, not carried forward under rule 82 into the clearance register; these balances should be marked "Lapsed" in the Register of Receipts, and secondly, all balances of deposits outstanding over three complete years—that is all balances in the clearance register prepared two years before; these are to be marked off in the last column of the clearance register.

(2) of B deposits, the balances of all deposits outstanding over one complete year—that is, the balances which, in the case of deposits over Rs. 5, are not carried into the clearance register under rule 82; these are to be marked off in the last column of the Register of Receipts.

Example.—The balances which lapse on the 31st March 1920 are—

- (a) all balances not exceeding Rs. 5 of A deposits created in 1920-21;
- (b) all balances of A deposits received in 1918-19; and
- (c) all balances of B deposits received in 1920-21.

Statements of lapsed deposits.

95. (a) Three statements of the balances to be written off shall be prepared in form No. (M) 14, one for each of the three classes (a), (b), and (c), specified in the *Example* under rule 94. These statements shall be submitted along with the clearance register. Those of the subordinate Court must be compared by the District Judge with his own registers, and discrepancies, if found, must be reconciled. Those of the District Judge must include, under the District Judge's numbers, the lapsed balances of A deposits of the subordinate Courts.

(b) As regards B deposits the statements received from the subordinate Courts must be copied into the District Judge's statement, with a separate total for each Court, the originals being filed for future reference.

NOTE.—The note under rule 88 applies to these statements of lapsed deposits also.

Correction of balance.

96. These statements must all be submitted during April, and the totals thereof must be deducted by a separate entry from the *plus* and *minus* memorandum, drawn up at the end of April, so that the *plus* and *minus* memorandum may show only the balance actually outstanding upon the registers of the Court concerned.

Refund of lapsed deposits.

97. When payment of a deposit lapsed under rule 94 is required by a person entitled thereto application shall be made through the District Judge, who shall examine the claim and, if he find it correct, shall forward an application in form No. (M) 6 to the Accountant-General. Several deposit numbers may be included in a single application if they are payable to the same person. The Accountant-General's letter of authority, when received, shall be noted against the items in the clearance register (or original register in the case of a B deposit) so as to prevent a second application. This letter shall then be passed for payment at the Treasury, as prescribed in the form. No other record of these refunds is necessary; and such payments are not to be shown in the *plus* and *minus* memorandum.

98. If the letter of authority received from the Accountant-General is not claimed by the payee within twelve months from the date thereof it shall be returned to the office of origin.

			RULES.				RULES.
Registers	99	Control of Subordinate Courts	105
Credits to Government	100	Monthly Returns	106
Receipts under heads (c) to (h)	101-104	Verification of stock of saleable forms	107

NOTE.—For rules as to refunds under heads (b) to (g) of rule 5. see rules 46 to 48.

Registers.

99. Every Judge in charge shall maintain (1) a Register of Judicial Fines in form No. (M) 24; (2) a Register of Stamp Duty and Penalties in form No. (M) 25; (3) a Register of the Refund of the Value of Court-fee Stamps in form No. (M) 26; and (4) a Register of Miscellaneous Receipts in Form No. (M) 27. In the first, second, and fourth of these registers all receipts are to be posted which do not come under head (a) (Deposits) or head (i) (Peremptory Receipts) of rule 5. The entries shall be made and checked in the same way as the entries in the Register of Deposit Receipts of the Subordinate Courts.

Credits to Government.

100. It is the duty of every Judge to see that sums which are in deposit, but which under any rule or law are forfeited, or become the property of Government (*e.g.*, earnest-money forfeited or intestate property unclaimed), are duly credited to Government. In every such case there

shall be prepared simultaneously (1) a payment order addressed to the Cashier and directing payment of the deposit "by transfer as per chalan No. of this date", and (2) a chalan crediting it to the proper head. Such payment order and chalan shall be registered and dealt with in every way as if cash were paid out of, and received into, Court.

Receipts under heads (a) to (h) of rule 5.

101. (a) With regard to stamp duty and penalties attention should be given to sections 39, 45, and the other sections in chapter IV of the Indian Stamp Act, 1899. The duty and the penalty must always be separately credited.

March 1876;
No. 18 of
1 September
1876; and G. L.
No. 2 of 6th May
1876.

(b) Form No. (M) 3 shall be used for the certificates to be sent to Collectors under section 38 of the Stamp Act on account of duty and penalty levied by Civil Courts on instruments which, though originally unstamped or insufficiently stamped, may be admitted under the provisions of sections 35 and 37 of that Act.

102. With regard to unclaimed property of intestates or others it will be seen from the form that register No. (M) 27 deals only with receipts under this head which have remained in deposit for the prescribed period. A register showing the property in detail must be kept in Civil Courts in form No. (M) 31.

S. No. 11 of
March 1898

NOTE 1.—Any cash belonging to an intestate's estate which may be received in Court, from whatever source derived, must be paid into the Treasury at once, and no such cash must be allowed to remain in the hands of the Nazir.

NOTE 2.—On the receipt of unclaimed property of persons dying intestate the Nazir must make the requisite entries in the register in form No. (M) 31, volume II, and these entries must be compared with the police chalan by the Sarishtadar and the Accountant. If cash forms part of the property, or if part of the property, being perishable, is sold before the expiry of the year prescribed by law, such cash or sale-proceeds must, after entry in the register just mentioned, be put in deposit till the time arrives for paying them over to claimants or crediting them to Government.

NOTE 3.—When any property in the custody of the Court is sold the sale account must invariably be checked with the register by the Sarishtadar and the Accountant, and the Judge must, from time to time, test the work of his subordinates by personally examining the sale accounts in some cases taken at random.

O. No. 128 of
15th May 1851.

NOTE 4.—The Judge should pay the expense of conveying intestate property to the sadar station from his permanent advance, and charge the same in his contingent bill, subject to reimbursement from the eventual proceeds of the sale of the property, or, in cases where a claim to heirship is established, either by payment by the heir before the property is delivered to him, or by the sale of such portion of the property as may cover the expense.

amended in 1903.

103. Under head (e) (Other general fees, fines, and forfeitures) of rule 5 shall be comprised all receipts not falling within any of the other principal heads of receipt, *e.g.*, forfeiture of earnest-money.

104. Receipts under the head of account, mentioned in rule 103, are at once credited at the Treasury to Government. They are not to be retained intermediately in deposit either at the Court or at the Treasury.

Control of Subordinate Courts.

105. The receipts of subordinate Courts under heads (b) to (h) of rule 5 are included in the Daily Statement sent to the District Judge under rule 72, and are also included in the Daily Advice from the Treasury received by the District Judge under rule 62. The Judge must effect a comparison between these two, and see that in each month the total amount advised as paid into the Treasury agrees with the total amount realized by the subordinate Courts.

Monthly Returns.

106. At the close of the month every Judge in charge shall prepare lists, in forms Nos. (M) 24, (M) 25, and (M) 27, of all the receipts, forfeitures, or duty, under heads (b) to (h) of rule 5, paid by him into the Treasury. Subordinate Courts shall forward their lists, in duplicate, to the District Judge, and the District Judge shall add the totals of these lists at the foot of his own list and, appending one of the copies received by him from each subordinate Court, shall forward the whole to the Accountant-General for check against the Treasury accounts.

Verification of stock of saleable forms.

107. The stock¹ of saleable forms in all Civil Courts subordinate to the High Court shall be verified half-yearly, issues being checked from the entries in column 12 of the Register of Miscellaneous Receipts [form No. (M) 27]. A certificate in the form given below, duly signed by the presiding officer of the Court, shall be submitted by subordinate Courts to the District Judge at the close of each half-year; and these returns, when received, should be forwarded by the District Judge, together with the return of his own Court, to the Controller of Printing, Stationery and Stamps, Calcutta.

Accountant and Cashier.

108. In carrying out these rules care must be taken by all judicial officers that, in respect of cash transactions in Court, distinct officers are employed as Accountant and Cashier. In other words, the same officer shall not keep the Registers of Chalcans and Payment Orders, Deposit Registers, etc., and also receive and pay the money.

NOTE.—A Naib Nazir or a clerk may be appointed as Cashier provided (i) that he is expressly so designated, (ii) that his duties and responsibilities are made clear, and (iii) that he gives the necessary security. Such appointments should be made in cases where the Nazir, owing to the pressure of other work, is unable to discharge the duties of Cashier in strict accordance with the instructions contained in the Court's general letter No. 1 of the 29th January 1902.

G. L. No. 3 of 28th

Language of accounts.

109. Every judicial officer shall, save with the express permission of the District Judge, keep his accounts in English; and it must be distinctly recorded by him whether the Sarishtadar is, or is not, responsible for a general control and supervision over the Accountant.

Modified 1910

NOTE.—At headquarters stations the Sarishtadar of the District Judge, and at sub-divisions and out-stations the Sarishadar of the "Judge in charge," should be required to inspect periodically and carefully the Nazir's account books. The discovery of any defects, of a breach of the High Court's account rules, or of the instructions given in the notes to rule 110 and to forms Nos. (M) 28 and (M) 29, should be promptly brought to the notice of the "Judge in charge." In the case of Courts in the interior of the district the fact should, without delay, be brought to the notice of the District Judge.

Forms.

110. The whole of the necessary forms and account books are to be obtained through the Forms Department, and each Court is responsible for maintaining a proper printed stock of all the forms² herein prescribed, and for submitting timely indents according to the rules in force from time to time. Should there be any offices in which the accounts are not kept in English the necessary forms for use therein shall be printed in biglot form, and be provided with headings in English and the Vernacular. Manuscript forms are prohibited.

Daily examination of accounts.

111. The accounts and registers, of which a list is given in appendices I and II annexed to these rules, must be compared daily by the Judge in charge; and this rule is on no account to be neglected as its observance is essential to the integrity of the transactions and the correctness of the books. The notes at the foot of the forms indicate how the verification is to be made.

NOTE 1. Where a person or firm mentioned in the List has more than one address in the country or group of countries under which the name of the person or firm appears *all* dealings in that country, or in any country in the group with such person or firm are prohibited, even in cases where one only of the addresses, or one only of the countries, is specifically mentioned.

NOTE 2. Trading is prohibited under the Trading with the Enemy Proclamations of 25th June, and 10th November 1915 (which were republished by the Government of India as notifications in the Commerce and Industry Department. Nos. 12221-W and 861-W., dated respectively the 24th July and 11th December 1915), with any person or firm of enemy nationality resident or carrying on business in China, Siam, Persia, Morocco, Siberia or Portugal or East Africa. Persons or firms are, therefore, prohibited from trading with any person or firm of enemy nationality in any of those countries, even though such person or firm is not mentioned by name in the above Schedule.

NOTE 3. It is not unusual for firms in Holland and the Netherland East Indies to be registered under names commencing with descriptive terms such as "Handel Maatschappij" (Trading Company) or "Naamlooze Venootschap" (Limited Liability Company). In such cases it has been found more convenient to publish the firm under its proper name followed by the general descriptive term "Handel Maatschappij" or "Naamlooze Venootschap" (N.V.) or in the case of an English company. For instance, Handel Maatschappij van den Berg & Company, and Naamlooze Venootschap de Komeet v.h. Dumonceau Freres will be found under "Berg" and "Komeet" respectively, and not under "Handel" or "Naamlooze."

Consistently with the limitations specified above candidates are at liberty to name any of the foregoing subjects provided that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000. If this maximum is exceeded by a candidate's selection he will be required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction.

Moreover, if a candidate's handwriting is not easily legible a further deduction will, on that account, be made from the total marks otherwise accruing to him.*

6. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be selected candidates for the Indian Civil Service, provided that they appear to be duly qualified in other respects. Should any selected candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created

In Hindustani the candidate will be required to be acquainted with both the Persian and the Nagari character.

A candidate assigned to Bengal or Assam, whose mother tongue is Bengali, must offer for examination Hindustani; a candidate assigned to Bombay, whose mother tongue is Marathi, must offer for examination Hindustani; and a candidate assigned to Madras, whose mother tongue is either of the languages shown against his Province, must offer the other for examination.

8. Selected candidates may in addition offer in the final examination one of the following optional subjects :—

	Marks.

9. In the Final Examination, as in the Open Competition, the merit of the candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The examination will be conducted on paper and *viva voce*, as may be deemed necessary.

If any candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

10. The selected candidates will also be tested during their probation as to their proficiency in riding.

(b) Instructions, showing the extent of the examination, will be issued to selected candidates as soon as possible after the result of the open competition is declared.

The examinations in riding will be held as follows :—

- (1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.
- (2) Again, at the time of the Final Examination. Candidates who may then satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Indian Civil Service will be awarded marks ranging between 101 and 200 according to the degree of proficiency displayed, to be added to their marks in the final examination. Candidates who fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding, will be liable to have his name removed from the list of selected candidates.

11. The selected candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 7, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Indian Civil Service provided they shall comply with the regulations in force, at the time, for that Service.

12. Persons desirous to be admitted as candidates must apply on Forms, which may be obtained from "The Secretary to the Civil Service Commissioners, London," at any time after the 1st December, in the year previous to that in which the Examination is to be held. No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st June (or, if that date should fall on a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the Examination is to be held, an application, in the handwriting of the candidate, on the prescribed form.

APPENDIX.

1. Any person who has joined since the 4th August, 1914, or may join during the present war, the Army or Navy or Royal Marines or the Royal Air Force, or has rendered or may render during the same period actual military service in the Special Reserve or Territorial Force, Royal Naval Reserve or Royal Naval Volunteer Reserve, may, if eligible in point of age under the Regulations as they now stand for admission to the open competitive examination held in 1918, but over age in 1919, deduct from his actual age at the time of the open competitive examination held in 1919 :—

- (a) The actual period of such service, if it has not exceeded three months.
- (b) One year, if the actual period of service has exceeded three months. No candidate will be allowed to deduct more than one year from his actual age.

2. The same concession may also be granted to those who have been employed during the same period in connection with the armed forces of the Crown at home or abroad giving their whole time and under obligation to serve for the duration of the war or until their discharge, or for any period not terminable at their own option, provided that their employment be not on ordinary commercial terms, such as that of Assistant Paymasters, Clerks, Artisans, and the like.

3. The grant of the concession described in paragraph (2) will be at the discretion of the Civil Service Commissioners, whose decision in each case will be final. Candidates who contemplate applying for an age deduction under (2) will do well to apply to the Civil Service Commission for a ruling on their case.

4. Candidates to be eligible for the concessions in (1) or (2) must furnish an official certificate of the period and satisfactory character of their service, and if any doubt arise whether the service of any candidate is of the kind contemplated, the Secretary of State for India in Council reserves to the Civil Service Commissioners the right to decide the case upon its merits.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

(i) *Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *Except in the case of persons continuing to receive Scholarship allowances of equal or greater amounts from the Government of India an allowance amounting to £150 will be given to any candidate who passes his probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews and Aberdeen; the School of Oriental Studies, London Institution, Finsbury Circus; Victoria University, Manchester.*

This allowance will be paid to the selected candidate in four instalments on the following dates respectively:—December 21th, after his selection, March 25th, June 24th, and the date of his signing his covenant on being finally appointed to the Service.

An allowance on account of passage to India will be paid to each newly appointed civilian to the amount of £40, for passage to Calcutta, Madras or Bombay, and £50 for passage to Rangoon. These allowances will only be paid after production of evidence that the Officer has engaged a First Class passage. An Officer who prefers it can have a First Class passage taken for him by the India Office in lieu of receiving a passage allowance. Applications giving proposed dates of sailing should be made to the Secretary, Judicial and Public Department, India Office, London, S. W. 1.

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a Certificate that the candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorized University or College; the fourth and final instalment will be paid as soon as the selected candidate has signed his covenant, and for its payment no certificate from College Authorities will be required.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

(iii) *Each candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety, jointly and severally, to refund all monies he may have received from the Secretary of State for India in the event of—*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(iv) *All candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Indian Civil Service of the candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open*

Competitive and Final Examinations, but may ultimately be affected by appointments made by the Secretary of State under the Temporary Provisions Act, 1915.

(vi) *Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the candidate.*

INDIAN CIVIL SERVICE.

Syllabus of an Open Competitive Examination for the Indian Civil Service to be held in the year 1919, and of any other competition that may be held in combination therewith.

In view of the importance of legible handwriting in the public service, candidates are warned that the provision as to deductions for bad handwriting in these competitions will be strictly enforced.

Candidates are warned that full marks cannot be obtained on any paper unless the whole of it is answered, or, in cases where the number of questions to be answered is specified, unless the full number specified is answered.

English Composition.—An Essay to be written on one of several specified subjects.

Sanskrit Language and Literature.—Translation from Sanskrit; composition in Sanskrit; Sanskrit Literature, including the life, thought, and antiquities of Ancient India, together with such knowledge of history as bears upon the subject; questions on the Sanskrit Language (including questions on Philology).

Composition will be required in Classical Sanskrit alone; elsewhere Vedic Sanskrit is also included.

Candidates are expected to make a special study of the Seventh Mandala of the Rig-veda, but other Vedic hymns may also be set in the examination.

Arabic Language and Literature.—Translation from Arabic; set composition and free composition in Arabic; Arabic Literature, including the life and thought of the Arabs as shown in the literature, together with such knowledge of history as bears upon the subject; questions on the Arabic Language (including questions on Philology).

Greek Literature.—Questions on the Greek Language (including questions on Philology), Literature, and Antiquities.

Latin Literature.—Questions on the Latin Language (including questions on Philology) and on Roman Literature and Antiquities.

English Language and Literature.—The Examination will be in two parts. In the one candidates will be expected to show a general acquaintance with

the course of English Literature, as represented in the chief writers in verse and prose, between the reign of Edward III and the death of Queen Victoria.

A minute and detailed knowledge will not be looked for in this part of the Examination; but its aim will be to test how far the candidates have studied at first hand the chief productions of the greatest English writers, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature.

The other part of the Examination will relate to one of the following periods, which will follow each other year by year in rotation:—

Period I: 1360 to 1600, Chaucer to Spenser.

Period II: 1600 to 1660, The late Elizabethans.

Period III: 1660 to 1744, The age of Dryden and Pope.

Period IV: 1744 to 1800, From the death of Pope to the death of Cowper.

Period V: 1800 to 1832, Nineteenth Century writers to the death of Scott.

Period VI: 1832 to 1892, From the death of Scott to the death of Tennyson.

The Examination in this part will require from the candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners. The names and other indications placed beside the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare and Milton, for example, will be regarded as falling within the period 1600 to 1660; all the works of Wordsworth and Coleridge within the period 1800 to 1832; all the works of Carlyle, Landor, and Macaulay within the period 1832 to 1892.

For the year 1919, Period II (1600-1660) is prescribed, and the following are the specified books:—

There will be a practical test which will necessitate a knowledge of cartographical methods and notations, and for this test drawing instruments may be required.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 1601 L.R.—The 15th February 1919.—The following rules are prescribed for the settlement of waste lands in the 24-Parganas and Khulna. ganas and Khulna portion of the Sundarbans:—

2. **Lands available for lease.**—The “waste lands,” to which these rules apply, include all lands ungranted and unoccupied at the disposal of Government, or those which from any cause or under any circumstances whatsoever revert to Government in the Sundarbans of the district of the 24-Parganas (including Saugor Island) and Khulna and which have not been declared a reserved forest under the Forest Act, VII of 1878.

3. **Right of Government to withhold land from being settled.**—The Government reserves to itself the right of withholding the settlement of any land by special order made at any time before the settlement is finally made.

Rights in the lands which are reserved by Government.

4. **Proprietary rights.**—Government retains its proprietary rights in the lands which may be settled.

5. **Rights to minerals on lands settled.**—The Government reserves to itself the right to all minerals, together with such rights of way and other reasonable facilities as may be requisite for working, gathering and carrying away such minerals.

6. **Rights of fishery.**—The Government reserves all rights of fishery and the control of all channels and streams. It is not the intention of Government that any raiyat of any estate shall be prevented from catching fish for his own use in the enclosed water of any khal within the estate, provided that the raiyat observes such close times and uses only such methods of fishing as the Collector may from time to time approve. No raiyat is permitted to convert his allotment into a fishery nor to take any measures for admitting fish into his allotment from channels and streams outside it without the previous consent of the Collector.

7. **Lands to be subject to rights of way, etc.**—The land shall be subject to all existing rights of way and water and other easements, and to any exceptions and reservations which may be particularized in the lease.

8. **Right reserved to the public.**—A tow-path not less than 25 feet in width on each side of every navigable stream and channel shall ordinarily be reserved by Government for the use of the public.

9. **Common lands.**—The Government reserves to itself the right to regulate the conditions as to the use of any lands which may be reserved for the common use of the villagers.

10. **Liability of land to cesses.**—The land shall be subject to any cesses, such as road and public works cesses or any other which may hereafter be imposed by law in addition to the rent assessed.

Rights of the raiyat.

11. It is the intention of Government that settlement shall be made with cultivating raiyats, and to prevent the intervention of middlemen who will be merely rent-collectors between Government and the actual cultivators. All lands that may be settled with such raiyats shall be heritable.

12. **Transferability of holding.**—No raiyat will have the right to transfer his holding without previous consent in writing from the Collector: hence no right to free transfer is recognized.

In cases, in which a transfer is allowed by the Collector, the transferee will be bound to execute a kabuliyat in the form executed by the transferor, subject to such modifications as may be approved in any special case. The Collector will allow transfer on the following conditions:—

(a) The transferee must be a cultivating raiyat.

(b) The transfer must not result in the transferee holding more than 100 bighas.

No rent receipt will be given in the name of an unrecognized transferee. On the discovery of an unauthorized transfer, proposals for the ejectment of the transferee by a civil suit should be submitted.

13. **Subdivision of the holding.**—A raiyat will be permitted to transfer a part of his holding subject to the consent in writing of the Collector, which consent will ordinarily be given on the same conditions as in the case of transfer of the whole holding (paragraph 12).

14. **Exchange of lands.**—Exchange of lands between the raiyats of the estate will ordinarily be permitted provided that the total area of either holding after the exchange does not exceed 100 bighas and subject to the consent of the Collector in writing.

15. **Subletting.**—The right to sublet the lands of a holding either on produce or cash-rents without the Collector's permission is not granted. The Government reserves to itself the right to resume any lands which may be sublet and to settle them direct to the actual cultivator.

It is not the intention of Government that this condition shall be worked harshly or indiscriminately, *e.g.*, widows or guardians of minors or temporarily incapacitated persons would be permitted to sublet the lands of their holdings. But the creation of a class of raiyats of large holdings with cultivators under them and permanently paying rents to them will not be allowed.

Duties of the raiyat.

16. **To cultivate the lands.**—The raiyat must proceed to reclaim and cultivate his holding with due diligence. The Government reserves the right to resume any lands which are not reclaimed or cultivated within the period allowed by the Collector and to settle them with other raiyats.

17. **Maintenance of boundary marks.**—The position and extent of his allotment will be pointed out to the raiyat, and artificial boundary marks will be erected so far as may be necessary to indicate his holding; these will be erected at the expense of and must be maintained by the raiyat. If they are not maintained, they may be repaired at his expense, and the cost of such repair will be recoverable as a public demand.

18. Maintenance of bunds.—

- (a) All the larger works of improvement which may appear to the Collector to be necessary for each estate, such as the damming of any large khal which is doing harm and the digging of tanks for drinking-water will ordinarily be carried out by Government, unless special arrangements to the contrary are sanctioned. Marginal embankments should on no account be constructed without the permission of Government in the Public Works Department.
- (b) No tenant will be allowed to dig a tank or pit in his holding within 50 feet of an embankment or cross-dam. If any tenant transgresses the rule, the tank or pit may be filled up by Government at the cost recovered from the tenant as a public demand.
- (c) No tenant will have the right to object to the taking of earth from his land when it is required for the repair and proper maintenance of the embankment or dam. If actual damage to crops is caused by the removal of the earth, the tenant may apply to the Collector for compensation and the Collector's decision shall be final.
- (d) No tenant will have the right to dam any existing khal without the previous written permission of the Collector. In the case of any breach of this rule the Collector shall have the right to remove or regulate the dam and to recover the costs of such removal or regulation from the tenant as a public demand, nor shall the tenant be entitled to any compensation for damage caused by such removal or regulation.
- (e) No tenant may cut, or do anything to impair any dam or any embankment constructed by Government without the permission of the Collector or the Colonization Officer. If any tenant transgresses this rule he will be called upon to repair the dam or embankment at his own cost to the satisfaction of the Collector and, if he fails to do so, the Collector may repair the dam or embankment and recover the cost from the tenant as a public demand.

- (f) If there is danger of an imminent breach of any dam or embankment constructed by Government, due to a high tide or to a defect in the dam or embankment or to any other cause, the tenant, whose land adjoins the spot, will be responsible for sending information at once to the nearest Government officer and in the meantime for taking all steps within his power to stop the breach temporarily until help can be obtained.

19. **Responsibility for interior bunds.**—The raiyats are responsible for the erection and maintenance of the interior bunds in proper repair to the satisfaction of the Collector. If they fail to maintain them, they may be repaired by Government and the cost recovered from the raiyats concerned as a public demand.

20. **Payment of rent.**—The raiyat must pay his rent on the due dates. If he fails to do so, the rent will be recoverable as a public demand.

Administration.

21. The settlement will be carried out under the orders and control of the Collector of the district. He will be assisted by such establishments as may be given to him for this purpose. He will be under the control of the Commissioner of the Division.

In carrying out these raiyatwari settlements considerable discretion is allowed to the Collector but the following points will demand his attention.

22. **Estimates for necessary improvements.**—When an estate or a portion of an estate is taken up for settlement, estimates must be prepared for the necessary protective bunds and for a supply of drinking water. Further estimates will be prepared, if necessary, in the light of experience and subsequent developments. The construction of marginal bunds must be in accordance with specifications approved by the Public Works Department.

23. Tanks for drinking water must be constructed in suitable sites.

Tank sites.—When the District Board agrees to construct a tank, the site will be chosen by the Collector and transferred to the District Board without cost.

24. All proposals for settlements must include proposals for adequate fuel, timber and grazing reserves either within the estate or at a convenient distance.

25. **Application for holdings.**—Applications by *bonâ fide* cultivators for raiyatwari holdings shall be in writing and may be on plain paper, and may be presented to the Collector, or to the local officer in charge of the estate who shall forward them to the Collector with his recommendations. The applicant shall give full particulars regarding his circumstances and present residence and should state whether he desires to receive a loan, if so, how much and what security he can give.

26. **Residence.**—Residents on the land or in the near neighbourhood should receive preference in getting settlements.

27. **Limit of area.**—The maximum area for an original grant should be 75 bighas and the minimum 10 bighas. It will be well, however, not to give at first holdings in excess of what the applicant can be reasonably expected to cultivate fully in a few years. Comparatively well-to-do applicants who can afford to pay for hired labour may get larger holdings than those who are poor and may have to go away and labour for their subsistence for a part of the year.

Every care must be taken not to encourage or assist the practice of subletting lands by giving large holdings which the occupant cannot personally reclaim either by himself or by hired labour.

A settlement such as these rules provide for is a matter of continual adjustment and it will be much easier to add to a raiyat's holding than to take away from it. The original area allotted should be, therefore, strictly limited to the applicant's means of cultivation and probable requirement as measured by the number of working members of his family and his ability to employ hired labour.

When settlement is made, the Collector will fix the period within which the land is to be reclaimed; this period may for sufficient cause be extended.

• 28. **Demarcation of allotments.**—Allotments must be sufficiently marked off and demarcated by natural or artificial boundary marks. After demarcation the allotment must be surveyed and plotted on the estate map. The

survey should be sufficiently accurate to afford a record in case of boundary marks being removed and disputes arising. The estate may be divided into block sheets or other convenient sheets, and rough working sheets may first be used to sketch in the allotments proposed and more accurate maps of the holdings as they are effectively occupied and cultivated and finally confirmed may afterwards be prepared.

29. **Rate of assessment.**—No rent shall be charged for land settled under these rules for the first three years of settlement.

The subsequent rent will be decided after consideration of the economic circumstances.

30. A copy of the rules (4) to (20) in vernacular will be given to every settler and will be hung up in the estate cutcherry. They must be carefully explained to every applicant who should be told that he can only obtain lands on these conditions and should be required to execute a kabuliyat agreeing to these terms. The lease to the raiyats should be in the annexed form.

ESTABLISHMENT FOR THE MANAGEMENT.

31. It will be necessary to have an efficient and responsible officer resident on or near the estate to carry out the following amongst other duties :—

- (1) To carry out the works of reclamation and improvements such as embankments, tanks, roads, jungle-clearing, so far as it is done by Government. This may possibly be done by a separate works establishment.
- (2) To demarcate the reserved and public lands, and see that they are not encroached upon.
- (3) To enquire into the history of the applicants who apply to him direct and submit recommendations to the Collector.
- (4) To point out their allotments to the settlers.
- (5) To demarcate the allotments on the ground and survey and plot them on the map of the estate.
- (6) to keep up the record of the allotments made in a register which will show :—

serial number of holding ;
name of settler and father's name ;
name of village and thana from which he has come ;
date of giving possession of allotment ;
block and plot numbers ;
area of each plot ;
date by which the land is to be brought under cultivation ;
and any other details which may from time to time be prescribed.

- (7) To recommend as to loans and pay out the same when they are paid by instalments.
- (8) To watch the progress of clearance and cultivation and the building of homesteads, generally and more particularly in the case of those who have received or are receiving advances.
- (9) To arrange for markets and supplies.
- (10) Generally to see that the wants of the community are supplied as far as possible and to protect their interest.

NOTIFICATION.

No. 394S.R.—The 13th February 1919.—In exercise of the powers conferred by section 9 of the Sea Customs Act, 1878 (VIII of 1878), the Board of Revenue, Bengal, makes the following amendments in the rules published at pages 31-32 of Part I of the *Calcutta Gazette* of the 14th January 1885, as subsequently amended, namely :—

Omit rules 10, 11 and 11A of the said rules and *insert* the following rules as rules 10, 11, 11A and 11B, in order :—

“10. To officers of Customs below the rank of Assistant Collector, or other persons, who are instrumental in detecting and bringing to notice infringements and evasions of the provisions of the Sea Customs Act, 1878, or of the Indian Merchandise Marks Act, 1889, rewards may, when it is considered that they are merited, be given in the following cases in which goods may be confiscated or a penalty or fine imposed :—

- (a) Smuggling or attempted importations of articles contrary to the provisions of section 18 or 19 of the Sea Customs Act, 1878.
- (b) Breaches or attempted breaches of the provisions of the Sea Customs Act, 1878, or of rules made thereunder, when such breaches were probably intended to facilitate the importation or exportation of dutiable goods, or the removal of goods from bond without payment of full duty thereon.
- (c) Breaches of the provisions of the Indian Merchandise Marks Act, 1889.
- (d) False declaration of the contents of packages in regard to sort, quality, quantity, value or other conditions.
- (e) Undervaluation in a bill of entry, or understatement of quantity in a shipping bill, affecting the amount of duty chargeable where such undervaluation or understatement is solely the result of accident or error.

11. (a) In each case the reward shall not exceed one-half of the realised value of the confiscated goods (if any) and of the penalty or fine imposed, and shall be so restricted that the balance shall suffice to cover all outstanding Government dues (if any), and any incidental charges incurred in consequence of the seizure of the goods.

(b) If, however, in any case the value of the confiscated goods, or the penalty or fine imposed, is not realised, or is only realised in part, and if the aggregate sum realised appears to be insufficient for the purpose of rewarding the officer of Customs and other person or persons who have been instrumental in detecting and bringing to light the case, the Chief Customs authority, on the recommendation of the Customs Collector, may grant such reward or rewards not exceeding in the aggregate one-half of the estimated value of the confiscated goods (if any) and of the penalty or fine as he may think reasonable.

11A. The Chief Customs officer may also grant rewards, up to a maximum of Rs. 500 in each case, to officers of the Customs Department or other persons who are instrumental in detecting and bringing to notice cases of unlicensed importation of arms or ammunition, irrespective of the value of the arms or ammunition confiscated or the fine imposed. Further, in cases in which convictions are obtained under Acts other than the Sea Customs Act, 1878, or the Indian Merchandise Marks Act, 1889, but in which the facts proved constitute offences under either of those Acts, the Chief Customs officer may grant rewards, up to half the estimated value of the goods in respect of which such offence may have been committed and of the fine (if any) imposed, to officers of the Customs Department or other persons who are instrumental in detecting and bringing to notice such offences.

11B. The satisfaction of rewards shall in all cases, be made by the Chief Magistrate. No reward shall be paid until three months have elapsed from the date of the confiscation of the goods (if any) or infliction of the penalty with reference to which it is to be paid, or from the date on which a conviction has been obtained in a Court of law. The payment to any person or persons in any case of a reward or rewards under these rules exceeding in the aggregate Rs. 500 shall require the previous sanction of the Local Government.

ESTABLISHMENTS.

Delhi, the 21st February 1919.

No. 1368-C.—The following provisional rules, dated the 7th January 1919, have been passed by His Majesty's Secretary of State for India in Council to come into operation forthwith for the appointment to the Indian Civil Service otherwise than by the annual Open Competition (which will still continue to be held) of British subjects who have during the war served in His Majesty's Navy, Army, or Air Forces. It will rest with the Civil Service Commissioners to determine whether candidates are qualified in respect of nationality, age, character, education, and war service as defined in the following Regulations:—

1. (a) Every candidate must be either a British subject or a ruler or subject of any State in India in respect of whom the Governor-General in Council has made a declaration under section 96 (a) of the Government of India Act, 1915, as amended by section 3 of the Government of India (Amendment) Act, 1916.

(b) If the candidate (being a British subject) or his father or his mother was not born within His Majesty's Dominion and allegiance, the father must at the time of the candidate's birth have been a British subject or the subject of a State in India and still be (or have continued to be until his death) a British subject or a subject of such State.

2. Every candidate for appointment to be made under these Rules must have served in His Majesty's Naval, Military, or Air Forces during the war for at least one year, or, if his service be less than one year, have been retired or discharged on account of wounds or sickness resulting from such service.

3. Every candidate must have been born on or after the 2nd August 1891, and on or before the 1st August 1899.

4. Every candidate must be of good character in civil and military life.

5. Every candidate must have received continuous and systematic education of a high type until at least the age of 18, and must produce satisfactory evidence that if he has not received University education, he would have been justified in proceeding from school to a University with a view to taking high honours.

6. Candidates must submit to the Civil Service Commissioners an application in the form prescribed by them, and pay on application such fee as is appointed by them.

7. Candidates who appear from their forms of application to be *prima facie* eligible for appointment to the Indian Civil Service will be subject to such test as the Civil Service Commission may prescribe in the way of (a) a qualifying examination, written or oral; (b) the production of written evidence including school record, university record (if any), military record, and personal references; (c) interview by selection Board; (d) medical examination.

8. Candidates recommended by the Civil Service Commissioners will be accepted by the Secretary of State for India in Council as Selected Candidates for the Indian Civil Service, subject to any further enquiries that he may find it necessary to institute, and will be required to undergo such period of probation as may be hereafter prescribed. At the end of this period of probation they will be tested by the Civil Service Commissioners, or by an authority in India specially empowered in this behalf, in Indian Law and Languages, and in any other subjects which may be prescribed, and in riding. They will not be appointed to the Civil Service of India until they have been certified to have fulfilled these tests.

9. In pursuance of section 2 of the Rules Publication Act, 1893 (56 and 57 Vict. c. 66) the Secretary of State for India in Council certifies that on account of urgency the foregoing rules are made as provisional rules to come into operation forthwith.

Note.--Candidates are cautioned that applications should not be sent to the Civil Service Commission until forms are available.

The following notice issued by the Civil Service Commission is also published for general information :—

CIVIL SERVICE COMMISSION.

RECONSTRUCTION SCHEME OF SELECTION FOR CLASS I OF THE HOME CIVIL SERVICE, INDIAN CIVIL SERVICE, EASTERN CADETSHIPS, JUNIOR APPOINTMENTS, OFFICERSHIPS OF CUSTOMS AND EXCISE.

The Civil Service Commissioners announce that the holding of competitive examinations for appointments to the higher division (class I); and to certain other classes of the Civil Service will not be resumed for at least two years after the cessation of hostilities, and that vacancies in these classes will be filled in the meantime by a process of selection by a Board, the principle of open competition being maintained so far as practicable.

This decision has been reached by the Government in accordance with the recommendations of Viscount Gladstone's Committee on recruitment for the Civil Service after the war. While it is considered to be essential that the intellectual standard of candidates for class I of the Home Civil Service, to which so much importance was attached by the Royal Commission on the Civil Service, should not be lowered, it is manifest that owing to the general interruption of academic studies during the war there will be comparatively few persons of suitable age during the two or three years following the termination of hostilities who will have received a complete university education. On the other hand it is clearly the duty of the State temporarily to adapt its system of selecting candidates for the public Service so as to give the fullest opportunity of securing appointments to those who have served during the war in the naval, military, or air forces of the Crown. Such candidates would be at a serious disadvantage in any competitive examination approaching the standard required for class I appointments and indeed no examination could be imposed upon them which aimed at more than a qualifying test of their proficiency in such subjects as they ought all to have learned before the war, and ought not to have forgotten.

Class I.

It is estimated that there will be at least 100 vacancies in class I to be filled during the two years following the cessation of hostilities, to cover wastage during the period since the last appointments were made by open competition, viz., in 1914. The filling of these vacancies (otherwise than by promotion from other grades of the service) will be spread as evenly as possible over the two years, in view of the claims of those whose demobilization is deferred. All persons will be eligible to compete for them who satisfy the following conditions :—

The applicant must—

- (i) Have been born on or after the 2nd August 1891;
- (ii) Have attained the age of 22 on the date fixed for his qualifying examination;
- (iii) Have served in His Majesty's naval, military, or air forces during the war, provided that under certain conditions men may be treated as eligible who, having been pronounced unfit on grounds of health for general service, have been temporarily employed in Government Departments during the war;
- (iv) Submit an application in the form prescribed by the Civil Service Commissioners accompanied by a fee stamp of ten shillings;
- (v) Be of good character in civil and military life;
- (vi) Have received continuous and systematic education of a high type until at least the age of 18;

- (vii) Be in a position to produce satisfactory evidence, in the absence of a university record, that but for the war he would have been justified in expecting to attain a first or second class in a University Honours School.

Candidates who appear from their forms of application and the resulting inquiries, including the scrutiny of their school record, university record (if any), military record, and personal references, to be *prima facie* eligible for appointment will be subjected to a qualifying examination in Arithmetic, English (including essay and precis-writing and other tests), and in general knowledge, historical, political, social, economic, scientific and geographical.

Candidates who satisfy the Civil Service Commissioners with regard to the qualifying examination and their age, health, and character, will be admitted to an interview by the Selection Board charged with the duty of selecting men for appointment.

Any candidate will also be permitted to produce evidence of special proficiency in any particular subject or subjects of study, and this will be weighed by the Selection Board with the other factors.

Preference will be given by the Selection Board, *ceteris paribus*, to candidates who are debarred from active employment by some physical impairment arising out of the war, and not likely to interfere with the discharge of ordinary administrative duties.

Any attempt on the part of a candidate to enlist support for his application through Members of Parliament, or other influential persons, will disqualify him for appointment. The Selection Board will disregard spontaneous recommendations from persons who are not personally acquainted with the candidate's work whether at school or university, in the forces, or otherwise.

Separate competitions will be held at intervals during the period while this scheme is in force. Candidates will be divided into three groups:—

- (a) Those who have taken a full university course;
- (b) Those who have spent at least two years at a university, but not taken a full course;
- (c) Those who entered the forces direct from school or spent less than two years at a university;

and so far as practicable a certain proportion of vacancies will be allotted to each group. Candidates who are judged by the Selection Board to be suitable for appointment but are not posted to vacancies as the result of that competition may be allowed to compete on a second occasion without taking the qualifying examination again. Subject to this, no candidate may compete more than once under this scheme. No candidate will be obliged to take the qualifying examination within three months from the date of leaving the forces, as attested by his "dispersal certificate."

Candidates who under this scheme enter the Service at an age above the normal maximum of 24 years will be allowed one increment of salary for each year of their age above 24 at the date of their qualifying examination.

Indian Civil Service and Eastern Cadetships.

From a hundred to two hundred vacancies in the Indian Civil Service will be filled concurrently with vacancies in Class I of the Home Civil Service, and by a similar process,* subject to such conditions as to age, physical fitness, and other qualifications of candidature as may be laid down for that Service.

Eastern cadetships under the Colonial Office will be awarded by a like procedure; the number of vacancies cannot at present be announced.

One fee of ten shillings will cover applications for Class I of the Home Civil Service, Indian Civil Service and Eastern Cadetships. Successful candidates will have their choice of the situations offered for competition according to the order in which they may be placed in the list prepared for each Service by the Selection Board.

* A few vacancies will be filled in each year by means of the usual Open Competitive Examination.

"Junior Appointments" "and Officers of Customs and Excise."

Such vacancies as it may be necessary to fill otherwise than by promotion from other grades of the Service, during a period following the termination of hostilities, which will be defined later, to the various classes of "Junior Appointments," commonly known as Intermediate Posts, will be filled by a similar process of selection from candidates between the ages of 18 and 22 who comply with the conditions (*iii*), (*v*) and (*vi*) laid down with respect to Class I posts, and make application in the form prescribed by the Civil Service Commissioners, accompanied by a fee stamp of seven shillings and six pence. Successful candidates will be allowed one increment of salary for each year of their age above 19 at the date of their qualifying examination. Men who have served in His Majesty's forces during the war and are appointed to one of these posts may subsequently compete for Class I, if they so desire, on attaining the requisite age.

Vacancies in the class of "Officers of Customs and Excise" will be filled in a similar way by selection from candidates who were born on or after the 2nd September, 1893, and have attained the age of 19. The entrance fee for this competition will be five shillings. One increment will be allowed for each year of age above 21.

The qualifying examination, both for "Junior appointments" and for the class of "Officers of Customs and Excise" will be similar in character and scope to that for Class I, but of lower standard.

The Regulations for the several Services are under consideration by the Civil Service Commissioners and the Departments concerned. It is hoped that they will be ready early in the new year, and intending candidates should write after the 15th of January to the Secretary, Civil Service Commission, 6, Burlington Gardens, London, W. 1, for the Regulations and Application Form for the class or classes of appointments for which they desire to compete.

All intending candidates should apply as soon as possible after the date stated in the preceding paragraph. The qualifying examination of those who are at present under age will be fixed for a date when they are of age. Those who wish to postpone their examination for the purpose of university study or other reason will be given an opportunity to apply for sanction for the postponement.

16th December, 1918.

- (a) *Plain Language* is that which offers an intelligible sense in English, or in any foreign language, or in any of the vernacular languages subject to the conditions of rule 17.
- (b) By “*Telegrams in Plain Language*” is understood those of which the text is written entirely in plain language. Nevertheless, the presence of code addresses, exchange quotations, commercial marks, letters representing the signals of the International Code of Signals employed in maritime telegrams, of abbreviated expressions currently used in ordinary or commercial correspondence such as *rsup*, *fob*, *cfi*, *cif*, *caf*, *sup*, *c-o*, *b-1*, *mo*, *vpp*, *am*, *pm*, % or any other analogous expressions, the meaning of which is understood at the office of origin, does not alter the character of a telegram in plain language.
- (c) If in telegrams in which the text is written entirely in plain language, any single word or authorised compound contains more than 15 characters according to the Morse alphabet, the excess is counted separately as one word.
- (d) *Code Language* is that which is composed of words which do not form intelligible phrases in one or more of the languages authorised for telegraphic correspondence in plain language. The words, whether genuine or artificial, must be formed of syllables capable of pronunciation according to the current usage of one of the following languages :—
English, French, German, Italian, Dutch, Spanish, Portuguese or Latin. Artificial words must not contain the accented letters ä, å, æ, é, ñ, ö ü. Genuine vernacular words are also admissible.
- (e) Words in code language must not contain more than 10 characters according to the Morse alphabet (Rule 17), the combinations *ae*, *aa*, *ao*, *oe*, *ue*, being counted as two letters each. The combination “*ch*” is also counted as two letters in artificial words.
- (f) Combinations, which do not fulfil the conditions of clauses (d) and (e), are considered as belonging to letter cipher language [clause (g)] and charged accordingly. Compounds composed of two or more words in plain language, combined contrary to the usage of the language are not admitted. (See also rule 51 *et seq.*)
- (g) Cipher language is that which is composed—

(1) Either of Arabic figures or groups or series of Arabic figures having a secret meaning, or of letters (excluding the accented letters ä, å, æ, é, ñ, ö, ü), groups or series of letters having a secret meaning.

(2) Of words, names, expressions or combinations of letters not fulfilling the conditions of plain language [clauses (a), (b) and (c)] or of code language [clauses (d) and (e)].

- (h) The employment in one group of figures and letters having a secret meaning is not admitted. It is desirable to avoid the use of letter cipher, as far as possible, as it is less easy to transmit than pronounceable groups of letters, and is, therefore, more liable to error. In cases where it is necessary to employ letter cipher it should be arranged in groups of five letters in order to facilitate transmission.
- (i) The groups referred to in clause (b) are not considered as letter cipher, *i.e.*, as letters having a secret meaning.
- (j) Words in plain language inserted in the text of a mixed telegram, *i.e.*, a telegram composed of words in plain language and words in code language, must not contain more than ten characters according to the Morse alphabet, and any excess is counted separately as one word in each case.

- (k) If the mixed telegram contains, in addition, cipher language, the passages in cipher are counted according to the stipulations of rule 55.
- (l) If the mixed telegram is composed only of passages in plain language and of passages in cipher language, the passages in plain language are counted according to the stipulations of clause (c) and the passages in cipher language according to those of rule 55.
- (m) The address or sender's name in telegrams of which the text is written wholly or partly in code language is charged according to the stipulations of rule 53 and clause (c).
- (n) Registered abbreviated addresses are treated as plain language [clause (c)] when occurring in the *address or as the sender's name* in both plain and code language telegrams and also in the *text* as plain language telegrams. When in the *text* of a code language telegram, they are treated according to clause (j).

2. For rule 37 the following rule shall be substituted, namely:—

“37. *Language*.—The text of State telegrams may in all cases be composed of secret language (*i.e.*, code and cipher), but a combination in the same telegram of figures and letters, having a secret meaning, is not admitted.”

DEPARTMENT OF MINES IN INDIA.

Regulations made by the Board of Examiners under Rule 30 of the rules applying to coal-mines made under Section 20 of the Indian Mines Act, 1901, for the conduct of examinations for Colliery Managers' certificates of competency.

(1) No member of the Board of Examiners shall act as a local examiner, except in emergent cases.

(2) When possible one or more members of the Board of Examiners shall attend every examination on at least one of the days.

(3) So far as is practicable, the local examiners shall be:—

(a) An Inspector of Mines, who shall be Secretary to the local examiners.

(b) Two Mining Engineers or Colliery Managers, who must be the holders of first class certificates. Provided that a Mining Professor may be appointed instead of one of the Mining Engineers or Managers.

(4) The remuneration of each local non-official examiner shall be Rs. 150 for each examination, and a capitation fee of Rs. 2 for each first class candidate and Re. 1 for each second class candidate examined, and travelling expenses and halting allowances on the first class scale under the Civil Service Regulations; but an inspector of Mines, acting as a local examiner, shall not be entitled to any fee or remuneration whatsoever, beyond the travelling expenses and halting allowances due to him in his official capacity.

(5) The examinations will be advertised at least four months before the date of the examinations and applications, supported by original certificates as to experience and character and fees, will be received up to a date, duly advertised, not less than one month prior to the examinations. No application which is not supported by the certificates and fees referred to above will be considered by the Board if submitted after the advertised date for receiving such applications and fees.

(6) The subjects for examination shall be—

(a) *Arithmetic and handwriting.*

(b) *Practical and theoretical coal-mining*, including surface and underground arrangements, sinking, timbering, ventilation, gases met with in coal-mines, a knowledge of plans, surveying and levelling, and of the various instruments used in mining. Questions may also be asked upon geology, sanitation, hydraulics, explosives, safety lamps and similar subjects. The candidates may also be required to show how to arrange the ventilation and haulage of a mine on a given plan.

(c) *Practical mechanics*, including steam, steam-engines, steam boilers, pumps and strength of materials; and questions may be asked upon electricity and compressed air as applied to coal-mining.

(d) *The Indian Mines Act, 1901*, and rules made under the Act.

(7) The examinations shall be both written and oral, and the subjects and conditions shall be the same for candidates for both classes of certificates; but the examination questions shall be made suitable for each class of certificate.

The examiners shall have power to eliminate the oral examination in the case of candidates who do not reach a standard in the written examination to be prescribed by the Board of Examiners.

8. The following shall be the maximum number of marks given for each subject:—

Subject.	FIRST CLASS.			SECOND CLASS.		
	Papers.	Viva voce.	Total.	Papers.	Viva voce.	Total.
(a) Arithmetic and handwriting	...	50	...	50	...	50

10. Before each examination each candidate shall declare whether he presents himself for a first or second class certificate. No candidate for a second class certificate shall be eligible at that examination for a first class certificate, but a candidate for a first class certificate, who does not reach the

necessary standard, may, nevertheless, at the discretion of the local examiners, be recommended to the Board of Examiners for a second class certificate, if, in their opinion, he has done sufficiently well to deserve it.

11. The Secretary to the local examiners shall report, by registered post, the result of the examination, giving the number of marks obtained by each candidate in each subject, to the President of the Board of Examiners, within one month of the close of the examination.

12. The questions which the local examiners intend to put in the examination papers shall be submitted in draft to the Board of Examiners, for approval, at least six weeks before the date of the examination. Answers to questions on arithmetic and those involving calculations and all plottings and levellings must be submitted to the Board of Examiners along with the question papers.

13. At least one examination for first class candidates and at least one examination for second class candidates shall be held annually in one of the Bengal or Bihar and Orissa coal-fields; and in other parts of India examinations will be held whenever, in the opinion of the Board of Examiners, the number of candidates in a coal-mining centre justifies the holding of an examination.

14. No candidate will be allowed to take part in the examination until he has produced an authorization from the Board of Examiners.

15. Every candidate before taking his seat must sign a register, in which he will be given a definite number. He must sign his name and write his registered number at the top of every page of the paper on which he writes the answers to the questions.

16. The number of the question must be given in bold figures before the answer to each question.

17. The calculations and work by which a result is obtained must be clearly shown in immediate connection with the answer to each question.

18. Answers must be strictly confined to the questions asked.

19. Sketches may be made to make answers clear.

20. When sketches are asked for, it should be understood that, unless otherwise stated, freehand sketches, with dimensions, are all that is necessary, and candidates should not spend time in making finished drawings.

21. Any candidate speaking to any other candidate during the examination, or using any book, notes or private paper, or acting in any manner which the examiners consider improper will be liable to be disqualified at their discretion. The Board of Examiners may in such a case use their discretion as to allowing the candidate to sit at any future examination.

22. When a candidate has completed the answers to the questions, or when the time allowed for answering the questions has elapsed, or he has been disqualified, he must hand the paper of questions and his answers to the examiners, and at once leave the examination room.

23. A time table will be supplied to each candidate at the commencement of the first day's examination.

24. The oral examination will be held at a subsequent date. Only those candidates who obtain a certain degree of proficiency in the written examination will be examined orally. Due notice of time and place will be sent to each candidate required by the examiners for oral examination.

25. The number of marks given for each question will be shown in brackets at the end of the question.

26. Ink and paper will be provided, and no paper other than the official paper provided may be used. Candidates must bring their own pens and pencils, drawing pens and drawing instruments, including a protractor.

All previous Regulations are hereby cancelled.

It will rest with the Civil Service Commissioners to determine whether candidates are qualified in respect of nationality, age, character, education, and war service as defined in the following Regulations:—

2. Every candidate for appointment to be made under these Rules must have served in His Majesty's Naval, Military, or Air Forces during the war for at least one year, or, if his service be less than one year, have been retired or discharged on account of wounds or sickness resulting from such service.

6. Candidates must submit to the Civil Service Commissioners an application in the form prescribed by them, and pay on application such fee as is appointed by them.

7. Candidates who appear from their forms of application to be *prima facie* eligible for appointment to the Indian Civil Service will be subject to such tests as the Civil Service Commission may prescribe in the way of (a) a qualifying examination, written or oral; (b) the production of written evidence including school record, university record (if any), military record, and personal references; (c) interview by Selection Board; (d) medical examination.

At the end of this period of probation they will be tested by the Civil Service Commissioners, or by an authority in India specially empowered in this behalf, in Indian law and languages, and in any other subjects which may be prescribed, and in riding. They will not be appointed to the Civil Service of India until they have been certified to have fulfilled these tests.

A. H. LEY,

Secretary to the Govt. of India.

The following resolution, issued by the Government of India in the Home Department, published in the *Supplement to the Gazette of India*, dated the 22nd March 1919, is republished for general information.

J. H. KERR,

Chief Secy. to the Govt. of Bengal.

No. 2125-C., dated Delhi, the 21st March 1919.

RESOLUTION—By the Government of India, Home Department (Police).

Resolution re the Administration of the Indian Arms Act.

FOR many years past the administration of the Indian Arms Act has been the subject of adverse criticism, mainly because European and East Indian subjects of His Majesty are exempted from the obligation to take out licenses for the possession of firearms, while Indians, outside certain privileged classes, have to apply for licenses, and even if successful in their applications, can in most cases obtain them only after enquiries as to their status and character. The Government of India have for some time past been anxious to remove this racial discrimination and to minimise the delays and inconvenience which necessarily attend the present system of administering the law, and they have had prolonged correspondence with local Governments on the details of this intricate and difficult subject.

2. Some critics of the existing system demand the repeal of the Act, or in the alternative its administration on a purely fiscal basis, whereby any one desiring a license could secure it without question, on payment of the prescribed fee. The Government of India doubt whether the serious objections to so simple a solution of the problem have been fully realised by those who advocate it. In their responsibility for the maintenance of order and tranquillity the Government of India are bound to take into account the effect which an unrestricted dissemination of firearms throughout the country-side might have upon serious crime. They cannot overlook the likelihood of such weapons being freely used in the dacoities, faction fights, and agrarian and religious riots which figure so frequently in the records of our criminal courts. In more than one province firearms illicitly obtained have during recent years played an appreciable part in serious crime, and the Government of India cannot contemplate with equanimity the similar use of such weapons in other provinces. They apprehend that if there were no restrictions on the possession of firearms by lawless characters, such an increase in crimes of violence might ensue as would endanger the security of the country, and that it would be necessary largely to increase the number of armed police and to improve their equipment.

3. The Government of India have decided, therefore, that the question cannot be dealt with on these lines. They have considered the possibility of abolishing all exemptions and requiring every one from the highest authorities downwards to take out a license for the possession of firearms. Enquiries showed the objections to this course. There is every reason to believe that a general cancellation of exemptions would be regarded as withdrawing a valued privilege, if not as a mark of mistrust.

4. After repeated examination of the question the Government of India decided that the best chance of solving the problem lay first in rigidly restricting the number of exempted persons and secondly in arranging that persons of recognised status and character should, without distinction of race, ordinarily be entitled to obtain licenses for the possession of firearms without enquiry or delay. While details were still under discussion the following resolution was moved in the Imperial Legislative Council and accepted by Government on the 19th September 1918 :—

“This Council recommends to the Governor General in Council that a Committee of official and non-official members of this Council be appointed to consider and report to the Governor General in Council to what extent the Indian Arms Act and the rules thereunder can be amended”.

The whole question was then laid before a Committee composed partly of official and partly of non-official members of the Council, and the Government of India are now in a position to formulate the conclusions reached after examination of the report of this Committee. These are as follows :—

- (1) All arms other than firearms and also firearms of an obsolete character possessing a purely antiquarian value will be exempted from all the prohibitions and directions contained in the Arms Act, except in Burma, the Punjab and the North-West Frontier Province, provided that any local Government may retain the existing restrictions for particular weapons or in particular areas where such a course is necessary in the interests of law and order.
- (2) All distinctions of a racial character will be abolished, but a restricted schedule of exempted persons as appended hereto will still be retained, the privilege being subject to the same restrictions in respect of the number and description of weapons as at present.
- (3) Exempted persons will not be required to register their weapons, but power will be reserved to the Government of India and the local Governments and Administrations to require the registration of rifles, revolvers and pistols in the possession of such persons when necessary.
- (4) The great land-holders included in entry (6) of the schedule appended, who at present enjoy exemption in respect of weapons in the possession of their retainers, will in future be allowed exemption in respect of a fixed number of retainers whose weapons will be registered annually as retainers' weapons, their number and description only being specified.

(5) To persons of approved character and status licenses for the possession of rifles (other than those prohibited weapons) and smooth bores will ordinarily be issued on application and without previous enquiry. It will be for local Governments to prescribe for each province the qualifications entitling any person to this privilege, but subject to any such orders the Government of India consider that the following qualifications should be sufficient:—

- (i) Membership of any order established by the Crown, or the possession of a title conferred or recognised by the Government of India or of the Kaiser-i-Hind Medal or a certificate of honour.
 - (ii) Membership, past or present, of the Indian or a Provincial Legislative Council or inclusion in the list of Provincial Darbaris.
 - (iii) Payment of not less than Rs. 1,000 per annum land revenue or Rs. 250 in road and public works cesses.
 - (iv) Payment of income-tax on an income of not less than Rs. 3,000 for a period of three years.
 - (v) Being a Government officer in receipt of not less than Rs. 250 per month.
 - (vi) Being a commissioned or gazetted officer of His Majesty's Military or Naval Forces or His Majesty's Indian Marine Service or a commissioned Indian officer of the Imperial Service Troops in active service.
 - (vii) Being a pensioned officer who before retirement was by virtue of his official position included in any of the classes described in (v) or (vi) above.
- (6) Persons who have hitherto enjoyed exemption but are not included in the new schedule of persons exempted will be required to take out licenses, but it will be open to the local Government to treat them as entitled to the privilege described in clause (5) above, provided that there is no race discrimination.

(7) The following changes will be made in the rules regulating the issue of licenses:—

- (i) Licenses for revolvers and pistols will be issued only in cases of real necessity and to persons of approved character, the fee being fixed at an enhanced rate of Rs. 10 except in the North-West Frontier Province where no change will be made.
- (ii) For a license in Form XVI the fee will be raised to Rs. 5 for each breech-loading weapon but will remain unchanged for muzzle-loaders.
- (iii) Licenses will be granted, if so desired, for an extended period of three years on a compounded fee subject to the existing conditions regarding the report of loss and transfer of the weapon, and subject further to the proviso that the local authorities shall have the right to enquire whether the weapon for which a license has been granted is still in the possession of the license-holder.
- (iv) Special instructions will be issued to the authorities to grant licenses to persons engaged in the protection of crops or cattle and to persons engaged in the act without good cause.

-
- (v) Licenses, other than those for the protection of crops or cattle, when issued at the license holder's place of permanent residence, will be valid throughout British India, except Burma, Assam and the North-West Frontier Province, subject to any restrictions that may be necessary in regard to any particular province.
- (vi) Licenses will not only be issued by District Magistrates but also by such Subdivisional Officers as the local Government may specially empower in this behalf. For the purposes of enquiry preliminary to the issue of a license, other agencies will, where possible, be employed in addition to or in substitution for the police.

The necessary modification of the rules and schedules in order to give effect to these decisions is now being undertaken, but in order to give persons, who are exempted at present but will not be exempted in future, time to adjust themselves to the new conditions, the changes in the list of exempted persons and the enhancement of fees will not take effect until 1st January 1920.

ORDER.—Ordered that a copy be forwarded to all the local Governments and Administrations and to all Departments of the Government of India.

ORDERED further that the Resolution be published in the Supplement to the *Gazette of India*.

No. 549, dated Simla, the 14th April 1919.

RESOLUTION—By the Government of India, Home Department.

THE present situation arising out of the agitation against the Anarchical and Revolutionary Crimes Act (commonly called the Rowlatt Act) renders it imperative on the Governor-General in Council to define the attitude of Government on the subject of that agitation and the serious disorders which have resulted therefrom, and to indicate the nature of the concerted action which it is now necessary to take for the preservation of law and order.

When the Bill was under discussion, its opponents publicly stated that if it passed into law, a campaign of agitation against it, on a scale hitherto unattempted, would be organized throughout India, and a section of them indicated that they would support that campaign by resort to what is known as "passive resistance". No one cognizant of the conditions of India could have been ignorant at the time of the danger of initiating a widespread movement of this nature; they were clearly pointed out by many public

men of moderate views; and the representatives of Government did not fail, during the debates on the Bill, to emphasize the serious consequences to the public peace which would follow from an agitation such as was then threatened.

These warnings were unheeded, and to the agitation which has succeeded the passing of the Act, must be directly attributed the open breaches of the public peace, the defiance of authority, and the criminal attacks on life and property which have lately been witnessed in certain parts of India. The agitation has followed a double line of action, namely, direct criticism of the Act by means of public speeches and publications, and the initiation of the threatened movement of "passive resistance". The latter movement was ushered in by a demonstration consisting of the observance of a day of fasting, and the closing of shops and places of business. Such a demonstration was not in itself illegal; but there is ample evidence to prove that in more than one place those locally responsible for its organization overstepped the limits of lawful persuasion, and resorted to direct interference with the business of many who were not interested in the movement, and to forcible obstruction of the traffic in the public streets. But the indirect consequences of this aspect of the agitation have been far more mischievous, in that it promoted a sense of unrest and of excitement which was bound to react, and has reacted, on the more ignorant and inflammable sections of the population. The campaign of criticism has involved in many quarters the use of most flagrant misrepresentations regarding the character of the Act. It is clear that large numbers of ignorant people have been deliberately led to believe that the new law gives the police unfettered authority to interfere with public meetings not only of a political, but of a religious and social nature, and to arrest summarily persons engaged in political work, and that it empowers the executive authorities to imprison without trial any person criticising the action of Government.

The Governor-General in Council thinks it necessary to reiterate here the following salient facts concerning this Act. It is specifically directed against revolutionary and anarchical crime, and can only be brought into force in any locality when it has been proved to the satisfaction of the Governor-General in Council that such crime, or movements tending to such crime exist. It has not so far been brought into operation in any part of India. Its first part merely provides for the speedy trial of certain grave offences; in the second and third parts provision is made for preventive action (similar to, but much more restricted in scope than that now provided by the rules under the Defence of India Act) against persons suspected of revolutionary or anarchical crime. Action cannot, however, be taken against any individual without the previous order of the local Government. There is nothing therefore which can justify the widespread rumours, for which the promoters of the agitation must be held responsible, that unusual, or even extended powers have been given to the police; nor is there anything which need cause fear or apprehension to any person other than the revolutionary or the anarchist. Not only do the terms of the Act definitely exclude its use in any case not falling within the definition of anarchical or revolutionary conspiracy; but Government has given the most categorical pledge (which the Governor-General in Council takes this opportunity to reiterate) that the tenor and intention of the Act will be scrupulously safeguarded should occasion arise to put it into operation.

The Governor-General in Council considers it unnecessary to detail here the deplorable occurrences resulting from the agitation against this Act. The offences which have occurred at Delhi, Calcutta, Bombay and Lahore have one common feature, the unprovoked attempt of violent and unruly mobs to hamper or obstruct those charged with the duty of maintaining order in public places. At Amritsar and Ahmedabad they have taken a far graver form, a murderous attack on defenceless individuals, and a wholesale and wanton destruction of private and public property. The Governor-General in Council thinks it right to state that at Amritsar the loss of life might have been greater but for the protection afforded by unofficial Indians to those who were threatened by the mob, and he takes this opportunity of expressing the gratitude of Government for this conspicuous example of loyalty and humane feeling.

It remains for the Governor-General in Council to assert in the clearest manner the intention of Government to prevent by all means, however drastic, any recurrence of these excesses. He will not hesitate to employ the ample military resources at his disposal to suppress organized

outrage, rioting or concerted opposition to the maintenance of law and order; and has already sanctioned the application of the State Offences Regulation, 1804, in a modified form, to certain districts of the Punjab. He will further use all preventive measures provided by the Statutes to check disorder at its source, and in Regulation III of 1818, and the corresponding regulations applicable to Bombay and Madras, and in the rules under the Defence of India Act, he has powers which will enable him to deal effectively with those who promote disorder. He has sanctioned the extension of the provisions of the Seditious Meetings Act to the districts of Lahore and Amritsar in the Punjab, and will authorize a similar extension to other areas in which local Governments see reason to require it. The Police Act of 1861 enables a local Government to quarter additional police on any locality which is guilty of organized offences against the public peace, at the charge of the inhabitants, and to levy from the latter compensation for those who have suffered from injury to their property. The Governor-General in Council will advise local Governments to make a free use of these provisions where necessary.

The Governor-General in Council feels that many of those who inaugurated this agitation must regret the lamentable consequences which have ensued, the loss of life and property, and the damage to the reputation of India. He now appeals to all loyal subjects of the Crown, and to all those who have an interest in the maintenance of law and the protection of property, both to dissociate themselves publicly from the movement, and to exert themselves in quieting unrest and preventing disorder. To all those who render such assistance to the cause of the public and the State, and to those servants of Government who are charged with the onerous responsibility of suppressing excesses against public peace and tranquillity, the Governor-General in Council extends the fullest assurance of countenance and support.

ORDER—Ordered that the Resolution be published in the *Gazette of India* and communicated to all local Governments and Administrations and all Departments of the Government of India.

Orders and Notifications by the Government of India.

The following notifications issued by the Government of India in the Home Department, published in the *Gazette of India*, dated the 19th April 1919, are republished for general information.

J. H. KERR,

Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 16th April 1919.

No. 282.—In continuation of the Home Department Notification No. 1697-C., dated the 6th March 1919, the following notice regarding the Reconstruction Scheme for the recruitment of the Home Civil Service (Class I), Indian Civil Service and Colonial Service (Eastern Cadetships), which has just reached India, is published for general information, as it may be of use to candidates desiring to appear in examinations subsequent to that to be held in the month of April.

Notice about Reconstruction Schemes.

1. The first qualifying examination under the Reconstruction Scheme for the recruitment of the Home Civil Service (Class I), Indian Civil Service, and Colonial Service (Eastern Cadetships), will begin on Tuesday, the 15th of April 1919, and will take place in London. Candidates who are required to attend for examination will be duly informed of the hour and centre at which to attend and will receive a copy of the Time Table of the examination.

2. The first qualifying examination under the Reconstruction Scheme for Junior Appointments (or Intermediate Grade) will begin on Wednesday, the 7th of May 1919, and will be held in London, Edinburgh and Dublin. Candidates required to attend will in due course receive the necessary instructions, including a copy of the Time Table of the examination.

3. In each case the Selection Board will sit, about a month after the examination and will sit in London only. The "Competition" consists in the selection by the Board of the candidates judged to be most suitable on the evidence afforded by the interview and the records. Candidates required to attend will be duly instructed.

4. Candidates may, with the consent of their Commanding Officer, take the qualifying examination before demobilisation, or, if they prefer, they may wait till they are demobilised. Their desire should be stated on the Application Form.

An officer who holds a permanent commission can only become a candidate with the sanction of his Commanding Officer.

5. These examinations being qualifying and not competitive, no candidate can be credited with "service marks" such as are allowed to civil servants in certain competitive examinations. The weight to be attached to service in a Government Department is a matter for the Selection Board.

6. Candidates who, being medically unfit, have served in a Government Department instead of with the Forces, must be recommended by their Department. This recommendation should not accompany the Application Form but should wait until the Civil Service Commissioners ask for it.

7. The Commissioners cannot advise candidates as to methods of preparation for these examinations; in fact the examinations are intended to be of a nature that does not require special preparation. Some indication of the nature of the examination may be obtained from the Reprint of the Question Papers used on 4th February 1919 for the examination of candidates for the Foreign Office and Diplomatic Service, which will shortly be published by His Majesty's Stationery Office at Imperial House, Kingsway, London, W. C., and other addresses.

8. The Commissioners cannot pay the fares of candidates or other expenses incurred in connection with an examination or interview.

9. As regards the suggestion that places should be found for all ex-soldiers in the Civil Service it is necessary to point out that there are about 5,000,000 ex-soldiers and the number of appointments made in a year to the Civil Service is about 10,000, including women.

10. The second qualifying examination under each of the above schemes will probably take place in the autumn of 1919. The home centres will be the same as for the first examinations, and there may also be oversea centres. The Selection Board will sit about a month later and will interview such candidates as are then ready. Other candidates will be interviewed later.

11. The Reconstruction Schemes will remain in force sufficiently long (at least two years from the declaration of peace) to allow of the candidature of persons in the most distant parts of the world. These, no less than persons nearer home, must fill up the Application Form with their own hands. The filling of vacancies will be spread over the period during which the Reconstruction Schemes are in force so that the candidates who are demobilised last shall have as good a chance of entering the service as those who are demobilised in the earlier stages.

12. *Permanent Civil Servants.*—While in the exceptional circumstances of the Reconstruction period it is impracticable to preserve all pre-war privileges such as that of the permanent civil servant to enter for open competitive examinations for higher posts at an age above the normal and without question of the nature of their education, compensating advantages are provided in—

(1) more extensive special promotion within a Department in accordance with the recommendation of the Third Interim Report of Viscount Gladstone's Committee on Recruitment for the Civil Service after the War, and

(2) in special promotion from one Department to another in accordance with Treasury Circular No. 4155 of 29th January 1919.

As further open competitive examinations for the Second Division are unlikely, the Assistant Clerks have the further advantage that any appointments to the Second Division in the future will most probably be made from their ranks.

CIVIL SERVICE COMMISSION,

25th February 1919.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 12T.M.—The 21st April 1919.—In pursuance of section 37F of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), it is hereby notified for general information that the scheme submitted by the Commissioners of the Mymensingh Municipality for the improvement of water-supply in that Municipality has been approved by the Governor in Council, and that the particulars of the scheme are as follows:—

(a) The improvement scheme is designed to increase the supply to 2,50,000 gallons per day at a maximum rate of 50,000 gallons per hour. The filtered water will be pumped through a new rising main, 8" in diameter, to an elevated reservoir holding 60,000 gallons, from which the water will be supplied through the existing distribution pipes by gravitation. The works included in the scheme consist of two additional settling tanks, 2 slow sand filters, a new jetty at the headworks, and an elevated reservoir near the junction of Ram Babu's Road and Shakhari-patty Road. In the distribution system, the 3" and 6" mains along the Ram Babu's Road will be replaced by 6" and 8" mains, respectively. The new 8" rising main will be laid along Shakhari-patty Road. GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

The 22nd April 1919.

MANY rumours are afloat regarding the contents of the Act recently passed by the Government of India known as the Rowlatt Bill. People have vague ideas and think that the police and executive officers will be free to arrest them on mere suspicion and keep them under confinement without any trial.

The Act is intended only to cope with anarchical and revolutionary crime. Peaceful and law-abiding citizens will have nothing to fear from it. An important feature which has been frequently overlooked is that the provisions of the Act will not be applied in any part of India until the Government is satisfied that it is required in the public interest on account of the prevalence of anarchical or revolutionary movements leading to the

commission of serious offences. Even when such conditions prevail three different parts of the Act will be separately brought into force in three successive stages according to the seriousness of the situation.

When the first part is enforced the Government is merely provided with power of securing trial of grave offences in a more expeditious manner than under the ordinary law. That is to say, certain offences instead of being enquired into by a Magistrate and then tried by the Sessions Judge with a right of appeal to the High Court shall be decided once for all by a Special Court.

This Special Court will consist of three Judges of the High Court: the impartiality and ability of the Tribunal cannot therefore be questioned. Provision is made in the law for securing a full and impartial hearing.

The second part of the Act can be introduced only when the Government is satisfied that anarchical and revolutionary movements are widely prevalent. Before taking action against any person Government is bound to take the opinion of a senior Judge and cannot act upon a mere police report. If on the advice of the Judge Government is satisfied that a person is actively concerned in a revolutionary movement he may be ordered to give security for good behaviour or to remain in a specified area, or he may be asked merely to notify his residence or change of residence. This order will remain in force for one month only and meanwhile the case will be submitted to two Judges and one non-official, who after considering all the evidence and hearing the explanation and evidence of the person concerned will report to Government. Government may then discharge the suspected person, or if the case against him is proved, it may continue the restrictions already referred to for a period of one year only.

The third part of the Act can only be applied when revolutionary movements are prevalent to the extent of endangering the public safety. Under those circumstances only Government will have the additional power of arresting without warrant persons believed to be actively concerned in revolutionary movements and of keeping them under confinement. The cases of such persons will also be enquired into by two Judges and one non-official.

NO REASON FOR FEAR.

This will show that peaceful citizens will have nothing to fear from the Act. No part of this Act would be brought into force except for the purpose of coping with revolutionary movements, and even if the whole Act were enforced the powers of the Government will be less than the powers which Government has possessed under the Defence of India Act for over four years. If the people maintain their loyalty to the King Emperor there is no reason why the enforcement of any part of the Act should be apprehended.

Chief Secy. to the Govt. of Bengal.

Burdwan Water Supply Improvement Scheme.

IN addition to the details required on the reverse, clear information should be given below under the following heads:—

- (a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the Municipality has taken, or has agreed to take in order to make good the deficiency.
- (a) Column 20 shows a deficit of Rs. 3,401. A revision of the valuation of holdings is in progress and from present information it appears that the revaluation will result in an increase of 15 per cent. on the annual value, which will give the following additional income:—

	Rs.
Tax on houses and lands	6,447
Water rate	... 4,332
Latrine fees	... 2,697

In addition the scale of latrine fees has been revised and the new scale is expected to result in an increased income of Rs. 5,000 in 1919-20 apart from the enhancement of latrine fees due to revaluation.

- (b) The reserve of taxation or other possible means of increase in the revenues of the Municipality.
- (b) The tax on houses and lands is now imposed at the highest legal rate.

The water rate is levied at the highest legal rate in the case of holdings with house connections but holdings which lie within the water-supply area but have no house connections are charged at 6 per cent. on the annual valuation; there is thus a reserve of taxation in case of the water rate.

The latrine fees are susceptible of increase and are at a lower rate than those imposed in several municipalities.

- (c) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly, the amount, the annual charges involved, and the amount still payable.)

(c) Nil.

- (d) Any explanations in regard to receipts and expenditure to show the true financial position of the Municipality when such position is otherwise than the ordinary surplus would indicate.

- (d) The average deficit of Rs. 3,401 shown in column 20 would disappear if a sum of Rs. 11,000 paid in repayment of loan in 1916-17 was excluded.

No. 1277M.—The 29th April 1919.—Under rule 7 of the Local Authorities Loans Rules, 1915, it is hereby notified, for general information, that the Governor in Council intends to sanction the following application from the Magistrate of Burdwan and Mr. D. The income of this Special Endowment shall be applied in payment of scholarships for male British subjects of pure European blood ordinarily resident in Bengal, or coming to Bengal, for the purpose of residing there, or otherwise definitely connected with Bengal, including the children of persons, resident in or connected with Bengal though such children may not for the time being be in Bengal. Preference shall be given in cases of equal merit to candidates from or connected with Calcutta.

5. The Administrator shall consider all applications and any information which he may receive as to suitable recipients, and may offer a scholarship to any person without formal application by or on behalf of such person.

6. Recipients shall be selected with reference to the following considerations. Selection shall be restricted to those who appear to the Administrator to be likely by age, ability, physical qualifications, and social circumstances to justify the opportunity provided; and preference shall be given, other things being equal, to a candidate whose parents or relatives are prepared to contribute reasonably to his education in the United Kingdom. The scholarships shall be tenable at a university or medical school or Inn of Court or technical institute, or some other suitable institution in the British Isles. As far as possible selection shall be restricted to candidates whose age will be about the normal age of entry to the course or institution proposed.

7. The scholarships may vary in amount and length of tenure according to the course proposed to be taken by the recipient and having regard to the support or contribution offered by the recipient's relatives and any scholarship may vary in amount from year to year, but a scholarship shall not be less than £150 or more than £240 in any one year, plus passage money to the United Kingdom and on return to India on satisfactory completion of the course, and (if necessary) a contribution towards initial expenses, and shall be tenable in ordinary cases for four years, but this period may be reduced or extended for special reasons in any case. The Administrator shall be further empowered to make advances on loan to selected scholars towards initial expenses or unforeseen expenses at any stage of their course on such terms as regards security and repayment as he may think fit, having regard to the circumstances and prospects of the recipient. Provided always that the Administrator may forego the repayment of any such advance or any part thereof if satisfied that the recipient is unable to repay the amount or that it has become impracticable to recover the same.

8. The Administrator shall be satisfied as to the European origin of the candidates and may call for such evidence as he considers reasonably necessary in each case and his decision shall be final.

9. The amounts awarded for scholarships shall be paid out as far as possible in like manner to that adopted by Government for Government scholarships.

10. Scholarships shall be held subject to good behaviour and to the recipient remaining a British subject, and so long only as the recipient shall continue the course for the purposes of which the scholarship was granted.

11. The Administrator shall not be bound to award any scholarships in the absence of suitable candidates.

B.—Scholarships for European girls.

1. The foregoing rules of Special Endowment A shall *mutatis mutandis* apply for scholarships for female British Europeans, provided that in normal cases the age of the recipient on selection should not exceed 23 years, but this limit may be relaxed in special circumstances if the Administrator thinks fit.

sources of income will be available for such upkeep and maintenance. Any land or premises purchased for the school shall be taken in the name of the Treasurer.

3. If at any time and from time to time it shall appear desirable for any reason to remove the school to other premises the Administrator may contract for the sale of the school premises for the time being, and thereupon the Treasurer in pursuance of such contract as bare Trustee thereof shall convey the said premises to the purchaser thereof as the Administrator shall direct, and the sale proceeds, after payment of all costs and expenses in connection with the sale, shall be received by the Treasurer and the capital money of this special endowment so received with any other part of the said capital money may again be expended in acquisition of premises, building and equipment as aforesaid.

4. The Administrator may, instead of purchasing any premises, take on lease any suitable land or premises (with or without buildings), such lease to be taken in the name or names of such person or persons on behalf of the school as the Administrator may select who are willing to act, and in any such case the Administrator shall pay the rent, rates, taxes and any other outgoings for which the lessee or lessees would be liable out of the income of this special endowment, and shall out of such income keep such lessee or lessees indemnified from and against any such outgoings and any costs and expenses in connection with such lease. Any such lease may be sold, transferred, surrendered or cancelled by direction of the Administrator and another or other lease or leases taken in lieu thereof. The terms of any lease shall be settled by the Administrator. The proceeds of sale or surrender of any such leasehold shall be treated in like manner to the sale proceeds mentioned in paragraph 3 of these special rules.

5. In the event of any premises being taken on lease as aforesaid, if without buildings, the Administrator may expend such capital sums for buildings and equipment of the school as he shall think fit, and if with buildings he may expend such capital sums in alterations, repairs and fittings and equipment as he shall think fit, and may subsequently expend further capital sums in like manner as aforesaid. The Administrator may also expend such capital sum or sums as he may think fit by way of premium or *salami* for any lease or as consideration for surrender thereof.

6. The said school shall be managed and controlled by such authority and in such manner as the Administrator after consultation with the Corporation of Calcutta shall decide, but shall be conducted as and for a primary day school in accordance with the rules and regulations of the Education Department of the Government of Bengal for the time being in force.

7. The appointment and dismissal of the teaching staff and of all servants, caretakers and other employees shall be made by the school authorities, subject at all times to the control of the Administrator if he shall think it necessary to interfere therein.

The income of such sinking fund may be applied in increasing the Fund or towards the general expenses of the school as the Administrator may think fit. As and when occasion shall arise the said sinking fund shall be expended by the Administrator in the replacement of any buildings or equipment which shall have been destroyed or become unserviceable or worn out.

It is intended that about Rs 15,000 shall be used for capital expenditure, but this sum may be exceeded or reduced as the Administrator shall think fit according to the anticipated income available from all sources.

5. The schools of this special endowment may be for either boys or girls or for both.

6. The Administrator may frame such rules as in his opinion will ensure the reservation of these schools for the classes for whom they are intended. Provided that such rules may permit the admission of a small percentage of children of other castes or classes.

PUBLIC WORKS DEPARTMENT.**NOTIFICATION.****ESTABLISHMENT.***Calcutta, the 9th May 1919.*

No. 49.—The following Regulations issued by the Secretary of State for India regarding the appointment of Assistant Engineers in the Indian Public Works Department and State Railways in 1919 are republished for general information.

C. P. WALSH,
Secy. to the Govt. of Bengal.

**INDIAN PUBLIC WORKS DEPARTMENT AND INDIAN
 STATE RAILWAYS.**

**REGULATIONS AS TO APPOINTMENT OF ASSISTANT
 ENGINEERS IN 1919.**

[The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future.]

1. Until further notice the Secretary of State for India in Council will, during each year, make a number of appointments of Assistant Engineers in the Public Works and State Railway Departments of the Government of India.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the Engineering profession.

In 1919 it is intended that 75 appointments of Europeans and 3 of Indians should be made.*

The Selection Committee will hold three sittings in April or May, July or August, and October or November, respectively. The Committee will fix a maximum of appointments to be filled up at each sitting; they may allow a candidate who has failed at the first or second sitting to appear at a later sitting if they consider it necessary or advisable.

2. Applications must be made on a printed form, which may be obtained from the Secretary, Public Works Department, India Office, Whitehall, S. W. 1, or, in the case of officers in India and Mesopotamia, from the Secretary to the Government of India, Public Works Department, Delhi. Applications to the India Office must be received not later than 31st March, 30th June, and 30th September for the three sittings, respectively, of the Selection Committee. Applications to the Government of India must be received not later than 31st July.

Application from natives of India must be received at the India Office not later than 30th June, and Indian candidates will be examined by the Selection Committee only at their meeting in July or August.

3. An Indian candidate must have attained the age of 21 and not attained the age of 24 years on the first day of July of the year in which he offers himself for appointment.

Every European candidate must have been born on or after the 2nd August 1891 and on or before the 1st August 1897.

[N. B.—Natives of India must obtain a certificate of age and nationality in the form explained in Appendix II. As the production of this certificate is a necessary condition of appointment, intending candidates are advised to procure it without delay. The certificate should be forwarded to the India Office together with the candidate's form of application or at the earliest subsequent opportunity.]

* It has been a standing rule that natives of India shall be selected to the extent of 10 per cent. of the total number of Assistant Engineers recruited by the Secretary of State, if otherwise duly qualified. Since 1914 only six Europeans have been recruited (all in the year 1916). During the same period 11 natives of India have been recruited. In 1919 it is proposed to recruit 75 Europeans and three Indians, making a total since 1914 of 81 Europeans and 14 Indians.

4. Every European candidate in 1919, subject to the exception stated below, must have served in His Majesty's Naval, Military or Air Forces during the war for at least one year, or if his service be less than one year, have been discharged on account of wounds or sickness resulting from such service.

In the case of Europeans who have been prevented on adequate grounds from joining His Majesty's Forces, applications to be exceptionally admitted as candidates may be made to the India Office for consideration.

5. Every European candidate must be a British subject and, except as provided in Regulation 6, if he or his father or his mother was not born within His Majesty's Dominions and allegiance, the father must at the time of the candidate's birth have been a British subject and still be (or have continued to be until his death) a British subject. The decision of the Secretary of State in Council whether a candidate satisfies these conditions shall be final. A candidate must also be of good moral character and sound bodily health and, in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department or State Railway Department.

6. Natives of India are eligible for the three appointments open to Indians provided that they are British subjects or that the Governor-General in Council has made a declaration under section 96A of the Government of India Act, 1915, as amended by section 3 of the Government of India (Amendment) Act, 1916, that they are to be considered eligible.

7. Applications sent in to the Government of India will, in the first instance, be examined by an Advisory Committee in India, who will, in the case of applicants whom they think fit for appointment, submit their names with the necessary papers to the Secretary to State to be laid before the Selection Committee. Facilities will, if possible, be offered to the candidates whose names are so submitted to appear in person, if they so desire, before the Selection Committee in England.

8. Indian candidates must produce evidence that they have either (1) obtained one of the University degrees mentioned in Appendix I; or (2) passed Sections A and B of the A. M. I. C. C. examination; or (3) obtained such other diploma or distinction in Engineering as the Secretary of State may decide to accept in any particular case. It is preferred that candidates should have taken a college course and obtained one of the degrees mentioned in Appendix I. It is advisable that in addition they should have had at least one full year's practical experience of Civil Engineering under a qualified Civil Engineer at the time when they appear before the Selection Committee. Those whose qualifying diploma has been obtained without a college course should have had a full three years of such practical experience.

9. European applicants eligible under Rule 4 who can produce evidence of the above qualifications will be admitted as candidates; others not holding one of the recognised degrees or diplomas must produce evidence—

- (a) of having received a general education high enough to fit them to receive proper professional training and to become members of the Engineering profession;
- (b) of such technical education (University or otherwise) in Engineering as they have received; and
- (c) of their practical training and experience in Engineering as civilians and in military or quasi-military service.

An applicant, if serving at the time of his application, must produce, if possible, a report by his Commanding Officer on his character, administrative capacity and powers of organisation, and aptitude, natural bent, and Engineering experience.

10. In the event of any candidate being selected who has not, in the opinion of the Selection Committee, had sufficient practical experience, he may be required to undergo, after arrival in India, such period of probation in charge of works as may be decided upon, and his final appointment will be made dependent upon the result of such probation.

11. Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee. Applicants to the Government of India (see Rule 7 above) must be prepared to attend before the Local Advisory Committee authorised by the Government of India to investigate their candidature.

12. Candidates will further be required, before final appointment by the Secretary of State in Council, to appear, at their own expense, before the Medical Board at the India Office for examination as to their physical fitness for service in India, or in case of applicants selected without attendance at the India Office, before such Medical Board as the Government of India may appoint.

The Regulations governing the physical examination of candidates for the Public Works and State Railway Departments of the Government of India are given in Appendix V.

*13. Selected candidates will also be required to satisfy the Secretary of State of their ability to ride.

14. They will on appointment be provided with a free first-class passage to India and they will be expected to proceed thither about the end of September or later in the year in which they are appointed.

Their pay will begin from the date of their landing in India, and, if they so desire, they will be able to obtain an advance of two months' pay, recoverable by monthly instalments of one-third of salary. Of this advance a portion, not exceeding one-half, may be drawn in England. The pay of candidates appointed in India will begin from the date of reporting for duty as they may be directed.

15. If less than 24 years of age on 1st August 1919, European candidates will enter the service as Assistant Engineers on a salary of Rs. 4,560 a year. If above 24 years, they will be credited with service as though they had been appointed in their 24th year. The years of service so credited will subsequently count for purposes of pay and promotion, but not for leave or pension.

16. The instruments required by Assistant Engineers are supplied to them in India.

17. Particulars as to pay, pension, etc., are contained in Appendices III and IV.

India Office,
January 1919.

NOTE FOR THE INFORMATION AND GUIDANCE OF CANDIDATES.

The Selection Committee of 1906 drew attention to the subjects which were held to be of most importance for the Public Works Service, viz.—

Pure Mathematics, including a knowledge of the differential and integral calculus.

Applied Mathematics.

Geometrical and Engineering Drawing.

Surveying and Geodesy.

Strength of Materials and Theory of Structures.

Hydraulics.

Heat Engines.

Materials used in Construction.

Building Construction.—Wood and metal work, limes and cements, and building with stone, brick, and concrete.

Knowledge of the principles of road-making, waterworks, sanitary and railway engineering. (Important.)

The Selection Committee were further of opinion that all candidates should have had some workshop training.

* Selected candidates will be examined by the Civil Service Commissioners as to their ability to ride, and will be required to obtain either—

(a) a certificate from the Civil Service Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Indian Public Works and State Railway Departments; or

(b) a certificate from the Civil Service Commissioners of minimum proficiency in riding.

In the latter case they will be subjected, on their arrival in India, to such further tests in riding as may be prescribed by their Government.

Candidates are warned that the certificate of minimum proficiency in riding, without which they will not be allowed to proceed to India, is only granted to those who can qualify in a series of tests, which includes jumping.

The chief tests will be saddling and bridling; mounting and dismounting; trotting and cantering; riding at a trot without stirrups; riding at a trot with stirrups but without reins; jumping a hedge hurdle about 3 feet in height.

Although the examination will, in the main, be confined to these points, the examiner will not be debarred from applying any other tests which may appear desirable.

APPENDIX IV.

PARTICULARS RELATING TO PENSIONS, PROVIDENT FUND, AND LEAVE.

[N.B.—This Appendix is compiled from the regulations for the time being, and is subject to alterations from time to time. The full leave and pension rules are contained in the Civil Service Regulations published by the Government of India.]

1. The following is a summary of the principal pension rules applicable to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

An officer is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the Service through ill-health not occasioned by irregular or intemperate habits, becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows:—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years an invalid pension not exceeding the following amounts:—

Years of Completed Service.	Maximum Limit of Pension.
10	Rs. 1,000 a year.
11	„ 1,400 „
12	„ 1,800 „
13	„ 2,200 „
14	„ 2,600 „
15	„ 3,000 „
16	
17	
18	
19	

After a service of not less than 20 years, a retiring pension not exceeding the following amounts:—

Years of Completed Service	Maximum Limit of Pension.
	Rs.
20 to 24	4,000 a year.
25 and above	5,000 „

Officers who have shown special energy and efficiency during an effective service of three years in certain appointments may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year, subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 28 years.

Subject to certain prescribed conditions, rupee pensions are now issued at the rate of exchange of 1s. 9d. the rupee to pensioners residing in countries in which the Indian Government rupee is not legal tender.

2. A general provident fund to which all Civil Engineers entering the Public Works Department in the future will subscribe has been established for all Civil Engineers of the Department on the following basis:—

(1) The contribution is compulsory up to 6½ per cent., on salaries, with not more than a further 9½ per cent. voluntary contributions. Subscriptions on leave of any kind are optional.

(2) Compound interest on such payment is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him unconditionally on quitting the Service; or in the event of his death before retirement, to such person or persons as, under the rules of the Fund for the time being in force, may be entitled thereto.

(4) Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (1).

LEAVE.

3. The following is a summary of the principal regulations relating to the leave admissible to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

(a) *Short Leave.*

4. Privilege leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' duty. During privilege leave the officer retains a lien on his appointment, and receives an allowance equal to the salary which he would receive if he were on duty in the appointment on which he has a lien. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave cannot be granted for a shorter period than six months, nor, except on medical certificate, may it be extended beyond two years.

5. Extraordinary leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

6. Subsidiary leave in India for a minimum of ten days, usually with half average salary, may be granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end, and not at the beginning, of combined leave.

7. Short leave is also granted to enable officers to appear at examinations, etc.

(b) *Long Leave.*

8. Furlough and special leave with allowances (*see* paragraph 10) are admissible to an aggregate maximum amount of six years during an officer's service. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

Furlough on medical certificate may be granted (a) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years, and (b) to an officer who has not rendered three years' continuous service, up to one year in any case, and up to such longer period, if any (but not exceeding two years), as the officer may have furlough "due" to him.

9. The allowances admissible during furlough are:—

- (1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due,"—half average salary, subject to certain maximum and minimum limits.
- (2) After the expiration of the period for which the foregoing allowances are admissible,—one-quarter of average salary, subject to certain maximum and minimum limits.

10. Special leave may be granted at any time for not more than six months, with intervals of six years service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments.

General Rules.

11. Leave of absence, whether on furlough or on privilege leave, can never be claimed as of right, and is given or refused at the discretion of Government.

12. After five years' continuous absence from India, an officer is considered to be out of the employment of Government.

13. When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and India Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1s. 6d. to the rupee.

APPENDIX V.

REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE PUBLIC WORKS DEPARTMENT OF THE GOVERNMENT OF INDIA.

Note.—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.

It is not the practice to communicate to candidates who may be reported as physically unfit for service in India the reasons for the Medical Board's opinion.

General Physical Requirements.

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth:—

Age.	Height without Shoes.	CHEST.	
		Girth when expanded.	Range of Expansion.
	Inches.	Inches.	Inches.
21 and upwards ...	62½ and under 65 ...	35	2
	65 " 68 ...	35½	2
	68 " 70 ...	36	2
	70 " 72 ...	36½	2½
	72 and upwards ...	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. In the Indian Police Force a minimum height of 5 feet 4 inches is required, but in other Departments no fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.
6. The speech without impediment.
7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.
8. The chest must be well formed, the lungs and heart sound.
9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.
10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.
11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.
12. A candidate must not be the subject of chronic skin disease.
13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.
14. The Regulations as to the standard of vision required are shown separately for each department. In all cases of "colour blindness" a note of the same will be made on the candidate's papers.

Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(a) Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desires to obtain.

(b) Candidates must pay their travelling expenses.

(c) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, or to their appointment.

(d) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final Medical Examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION.

1. If myopia in one or both eyes exists, a candidate may be passed provided the ametropia does not exceed 3.5D, and if, with correcting glasses not exceeding 3.5D, the acuteness of vision in one eye equals $\frac{5}{6}$ and in the other $\frac{5}{6}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate, provided the lens, or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3.5D; the acuteness of vision in one eye, when corrected, being equal to $\frac{5}{6}$, and in the other $\frac{5}{6}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4D is not disqualified, provided the sight in one eye when under the influence of atropine equals $\frac{5}{6}$, and in the other eye equals $\frac{5}{6}$, with + 4 D glasses, or any lower power.

4. Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{5}{6}$, and the other $\frac{5}{6}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{1}{2}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. Any imperfection of the colour sense is a disqualification for appointment to the engineering branch of the Railway Department. In other cases the existence of imperfection of colour sense will be noted on the candidate's papers.

Orders and Notifications by the Government of India.

JAILS.

No. 63.

Simla, the 28th April 1919.

RESOLUTION—By the Government of India, Home Department.

During the Session of the Imperial Legislative Council at Delhi in the cold weather of 1913-14, a resolution was adopted recommending that a joint Commission of officials and non-officials be appointed to investigate the whole subject of jail administration and to suggest improvements in the light of the experience of the West. Such a course is consistent with the manner in which prison management has developed in this country. Four general enquiries have already been held, in the years 1838, 1864, 1877 and 1888-89, respectively, into the whole question of the administration of jails. There have, of course, been numerous independent discussions and declarations of policy on special points, either of a general character or in relation particularly to individual provinces, but the main lines of advance followed have been the result of the reports then submitted. This, therefore, is the first reason for advocating such a procedure now, namely, that it has yielded beneficial results in the past and that a considerable period of time has elapsed since resort was last had to a general enquiry.

But an even stronger ground than this exists. Without in any way desiring to understate the valuable results which have accrued from the reports of these different committees, and while fully cognisant of the advances which have been made in jail management, thanks to the persistent efforts of local Governments, the Governor General in Council considers that, as a general statement, it is not unfair to say that attention has mainly been directed hitherto to the improvement of prison administration on lines and standards which in recent times have undergone considerable modification, at any rate in the West. This was, indeed, inevitably the case, when an enquiry was first made in 1838 to deal with the subject

comprehensively and thoroughly, the foundations of an efficient system had practically still to be laid. Diversity of practice in different provinces was the rule rather than the exception, and this complaint recurs even in connection with the latest enquiry of 1888-89. The Prisons Act of 1894 (Act IX of 1894) was the first recognition by the Legislature that in certain respects uniformity must be insisted upon, and its enactment was the result of Surgeon-Major Lethbridge's recommendations, as subsequently re-examined in 1891-92 by a departmental committee. In appointing the committee of 1888-89, the Government of India (*vide* their resolution nos. 458-464, dated the 9th October 1888) expressly stated that they had no wish to reconsider the principles laid down by the three preceding investigations, and so great has been the leeway to be made up in what may be termed the essentials of any prison system, *e.g.*, an efficient jail service, proper buildings and diet scales, suitable forms of labour, and the classification of prison offences and punishments, etc., etc., that progress in these directions has absorbed much of the attention of the capable officers to whom the control of the Department is now entrusted. In all these directions a great advance has been achieved, but a review of the development of prison administration in the various provinces, in order to see what has been accomplished and what still remains to be done, would naturally form part of any further enquiry now held.

3. But, over and above this, something more is required. Ideas on the subject of the treatment of prisoners have advanced rapidly in recent years, largely under the stimulus of the quinquennial International Conferences, of which the first was held in London in 1872 and the latest in America in 1910, and the deliberations of these bodies point to the importance of reformation as a main end to be sought for in a large number of cases. The Probation of Offenders Act, 1907, the Prevention of Crimes Act, 1908, and the Children's Act of the latter year are all instances of modern English legislation on the subject, of which the Borstal system (with the after care Borstal Association) and the encouragement given to Discharged Prisoners Aid Societies are conspicuous results. The Government of India are well aware of the differences in prison practice in England and India, and they do not desire in any way to imply that all the latest experiments of the West are necessarily suitable for introduction in the East, but they are of opinion that the subject well merits detailed expert examination if the prevalent system in this country is to be saved from the reproach that it is failing to keep pace with modern ideas. It is true that in various provinces experiments with the Borstal system and with preventive methods as applied to criminal tribes are being made, but action is being taken by provinces individually, and the scrutiny and co-ordination of the results attained are likely to ensure that lines of future policy are defined and mistakes avoided in the early stages. Exact uniformity of procedure in all provinces is no doubt impossible, and possibly undesirable, but, with adaptation in degree and detail to varying local conditions, there is no reason why the general principles governing the treatment of criminals should not be the same throughout the country.

4. There remains the very important subject of transportation, about which much has been written in the past and into a discussion of the merits of which it is not proposed to enter, but recent enquiries and events have led the Government of India to doubt whether the administration of the Andamans as a penal settlement is not unsceptible, with advantage, of material change, or whether in fact the continuance of the Settlement in its present shape is in itself expedient. An enquiry in this direction may be expected to yield results of special value.

5. Subsequent to the discussion in the Legislative Council referred to above, the Government of India consulted all Local Governments regarding the proposed enquiry into prison administration in India and found that opinion was unanimously in favour of such an undertaking. They then secured the consent of His Majesty's Secretary of State to the appointment of a Committee of Enquiry and the steps for the constitution of the Committee were in progress on the date of the outbreak of war. That event rendered the conduct of the proposed enquiries outside India impossible and the project for appointing a Committee had to be for the time abandoned. Experience of the past 5 years has emphasized the necessity for this enquiry and the Government of India have now resolved, with the concurrence of the Right Hon'ble the Secretary of State, to take up the matter again. Accordingly it has been decided now to appoint a Committee to investigate the whole system of prison administration in India with special reference to

recent legislation and experience in Western countries. The constitution of the Committee will be as follows :—

Chairman.

THE HON'BLE SIR ALEXANDER CARDEW, K.C.S.I.,

Member of Executive Council, Madras.

Members.

THE HON'BLE SIR JAMES DUBOULAY, K.C.I.E., C.S.I.,

Secretary to the Government of India, Home Department.

LIEUTENANT-COLONEL J. JACKSON, C.I.E., I.M.S.,

Inspector-General of Prisons, Bombay.

LIEUTENANT-COLONEL SIR WALTER J. BUCHANAN, K.C.I.E., I.M.S.,

Inspector-General of Prisons, Bengal.

KHAN BAHADUR HAMID HUSSAIN,

Delhi.

MR. D. M. DURAJ RAJA, B.A. B.L.,

Madras.

MR. N. G. MITCHELL-INNES,

Inspector of Prisons, Home Office, London.

Secretary.

MR. D. JOHNSTONE, I.C.S.

This Committee will assemble at an early date in London, and after examining the working of the prison system of Great Britain, and possibly of other countries including the United States of America, will return to India and, in the course of the next cold weather, visit the various provinces of India and the Andamans. The Committee's inquiries will have particular reference to the following subjects, namely :—

- (i) the efficacy and appropriateness of the existing systems of prison administration and restraint on liberty in India, including the Andamans and any settlements constituted under the Criminal Tribes Act, 1911;
- (ii) the possibility of strengthening the reformatory influence of prison administration and discriminating in regard to the treatment of criminals of different classes and ages; and
- (iii) the best means of assisting prisoners after release to regain a position in society.

The Governor General in Council does not propose to attempt an enumeration of the different points which, under these main heads, should occupy the attention of the Committee but, generally, it will be its duty to consider how far the methods which have been shown by recent experience in other countries to be beneficial in the treatment of prisoners, can usefully be applied to Indian conditions; how far the existing Indian prison system is susceptible of improvement; and what steps should be taken to render it both more deterrent to crime and more reformatory in its influence.

ORDER.—Ordered that the Resolution be published in the Gazette of India and that a copy be forwarded to local Governments and Administrations, the Departments of the Government of India, and the Superintendent, Port Blair, for information.

GOODS ON THE EXPORT FREE LIST.

With reference to the notice appearing on page 391 of the "Board of Trade Journal" of the 20th instant in which it was stated that guarantees against re-export would not be required in respect of certain goods, it is to be noted that the guarantees referred to are those usually required for exports to neutral countries in Europe in connection with the blockade of the Central Empires, viz., Netherlands Oversea Trust certificates, Danish Merchants' Guild guarantees, and so forth.

This concession does not affect any special guarantee unconnected with the blockade which may be required as a condition of the export of certain goods, such as opium and opium alkaloids.

It should be noted that the heading on the free list "Iron and Steel Manufactures" does not cover manufactures containing more than 10 per cent. in weight of metals other than iron or steel.

The heading "Machinery, etc.," which covers machinery made of any material provided it does not contain more than 50 per cent. copper or brass, remains unaltered.

The 16th May 1919.

No. 3.—Notification.—The following draft of an amendment, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864, (Bengal Act V of 1864), the Governor in Council intends to make in the schedule of tolls in force on the Calcutta canals and Tolly's Nala and in the

rules for the management of navigation thereon, published in notification No. 7, dated the 11th May 1915 (at pages 903-05 of Part I of the *Calcutta Gazette* of the 12th *idem*), is hereby published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 2nd July 1919, and any objection or suggestion received by the undersigned before that date will be duly considered.

Draft amendment.

Delete items 13 and 15 and read item 14 as item 13.

Add as item 14.

14. (1) During the period of closure of the Tolly's Nala at Samookpota, boats laden with firewood will be allowed to proceed to or from the river Bidyadhari or the Bhangore khal through the Circular or Kristopur Canal and the Tolly's Nala *via* Kidderpore on payment of two rupees per hundred maunds of measured maundage for passage through these canals. All other cargo boats will pay a rate of one rupee and twelve annas per hundred maunds of measured maundage.

(2) Boats plying under this concession will not be allowed either to load or to unload their cargo along the Circular Canal the Kristopur Canal, or the river Hooghly. Infringement of this rule will render such boats liable to the ordinary tolls in force for the Circular Canal.

(3) (a) Boats laden with cargo other than firewood may pick up extra cargo, either in the Kristopur Canal, the Circular Canal or the river Hooghly. The toll collectors at Chitpur, Kristopur and Dhappa, respectively, will, in that case, assess and collect the extra toll due on the cargo at twelve annas per hundred maunds, provided the maundage of the boat does not exceed that when it originally entered at Dhappa or Kristopur.

(b) If there is an excess at the time of leaving Tolly's Nala a rate of two rupees and eight annas per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass beyond Dhappa or Kristopur without any further payment.

(c) If cargo is picked up either in the Hooghly or in the Circular or Kristopur Canal the extra toll on the extra amount will be charged at the rate of one rupee and twelve annas per hundred maunds.

(4) For the purposes of reckoning demurrage charges under item 11 of this schedule on the boats herein defined two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

Draft amendment.

Delete items 13 and 15 and *read* item 14 as item 13.

Add as item 14.

14. (1) During the period of closure of the Tolly's Nala at Samookpota, boats laden with firewood will be allowed to proceed to or from the river Bidyadhari or the Bhangore khal through the Circular or Kristopur Canal and the Tolly's Nala *via* Kidderpore on payment of two rupees per hundred maunds of measured maundage for passage through these canals. All other cargo boats will pay a rate of one rupee and twelve annas per hundred maunds of measured maundage.

(2) Boats plying under this concession will not be allowed either to load or to unload their cargo along the Circular Canal the Kristopur Canal, or the river Hooghly. Infringement of this rule will render such boats liable to the ordinary tolls in force for the Circular Canal.

(3) (a) Boats laden with cargo other than firewood may pick up extra cargo, either in the Kristopur Canal, the Circular Canal or the river Hooghly. The toll collectors at Chitpur, Kristopur and Dhappa, respectively, will, in that case, assess and collect the extra toll due on the cargo at twelve annas per hundred maunds, provided the maundage of the boat does not exceed that when it originally entered at Dhappa or Kristopur.

(b) If there is an excess at the time of leaving Tolly's Nala a rate of two rupees and eight annas per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass beyond Dhappa or Kristopur without any further payment.

(c) If cargo is picked up either in the Hooghly or in the Circular or Kristopur Canal the extra toll on the extra amount will be charged at the rate of one rupee and twelve annas per hundred maunds.

(4) For the purposes of reckoning demurrage charges under item 11 of this schedule on the boats herein defined two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

DEPARTMENT OF COMMERCE AND INDUSTRY.

EMIGRATION.

RESOLUTION.

Simla, the 9th May 1919.

The following papers regarding reciprocity in matters of immigration between India and the Dominions are published for the information of those interested in the subject :—

Extract from a letter from the Colonial Office to the India Office, No. 35892, dated London the 7th August 1918, and annexures.

From Colonial Office to India Office.

No. 35892.

SIR,

Downing Street,
7th August 1918.

I am directed by Mr. Secretary Long to transmit to you, to be laid before Mr. Secretary Montagu, copies of an extract from the Fifteenth Day's

Proceedings at the Imperial Conference, together with copies of the memorandum prepared by Sir S. P. Sinha.

I am, &c.,

The Under Secretary of State
for India.

HENRY LAMBERT.

ANNEX. I:—Memorandum by Sir S. P. Sinha.

The views and recommendations of the Indian representatives on the position of Indians in the self-governing Dominions were placed before the War Conference last year in the form of a memorandum, which appears as an annexure to the printed report of the Conference. The subject was discussed on Friday the 27th April 1917, and the "Conference unanimously accepted the "principle of reciprocity of treatment between India and the Dominions, and "recommended the memorandum to the favourable consideration of the "Governments concerned". It is mainly with a view to eliciting information as to whether any action has been actually taken, and, if not, how soon it is likely to be taken, by the Governments concerned to give effect to our suggestions that a few of the outstanding questions are mentioned in the present note.

2. The Indian grievances dealt with in the last memorandum fall conveniently under the following three groups:—

- (1) Treatment of Indians who are already settled and resident in the self-governing Dominions.
- (2) The difficulties and disadvantages of Indians intending to visit the Dominions not with the object of settlement but for purpose of travel, education, or business.
- (3) The question of future immigration to the Dominions.

3. As regards the difficulties of resident Indians, the disability imposed on the Sikh settlers in Canada, numbering about 1,000 men, of not being allowed to bring their wives and minor children to live with them is a very real and serious hardship and, as was pointed out in last year's note, has caused acute dissatisfaction amongst perhaps the most prominent martial race in India, and those who have flocked with the greatest alacrity to the Indian Army for the defence of the Empire. This unfair and unnatural prohibition is the more galling because the Indians resident in South Africa have, since the passing of the Indians Relief Act of 1914, the privilege of introducing into the Colony one wife, as well as her minor children. The Japanese have the right of taking not only their wives, but also their domestic servants. No further time should be lost in removing the prohibition, which appears to be in force in Australia also.

4. Of the Indians settled in the self-governing Dominions, by far the largest number is domiciled in South Africa. Cape Colony has an Indian population of 6,606, Transvaal of 10,048, Orange Free State of 106, and Natal of 133,031 souls. The Indians Relief Act of 1914 has removed many disabilities, but from reliable materials placed before us it appears that there are still many substantial grievances and disabilities which are not merely of an administrative character, as General Smuts seemed to be under the impression last year, but are based upon already existing or impending statutory enactments.

The following would appear to be some of the principal grievances of South African Indians:—

- (1) **Trading Licences.**—It is necessary to obtain a licence in order to be able to carry on any trade or business in South Africa. Each Province has its own trading licence legislation, and the tendency recently has been in every Province to transfer the control of licences from the Government to municipalities. Although there is a system of appeals from the decisions of the municipalities, e.g., in Natal to Town Councils or to Licensing Appeal Boards, the right of appeal to the Courts is extremely limited. Thus, in Natal, against refusals of application for new licences there is

a right of appeal in matters of procedure, but not of facts, to the Provincial Division of the Supreme Court, whereas in cases of refusal to renew licences there is a right of appeal on facts also. It is generally contended that the municipalities arbitrarily refuse to grant licences to Indians with the improper and indirect object of destroying Indian trade, and the Indian newspapers are full of such instances. The trading rights of Indians in South Africa are a vital issue. If the Indian community remains at the mercy of their European rivals in respect of the right of their members to earn an honest livelihood by trade it is only a question of time for the whole community to become impoverished and be reduced to industrial helotry. The remedy seems to be to give the fullest right of appeal in all cases of refusal of licences to the Provincial Division of the Supreme Court—on questions of fact as well as of procedure.

(2) *Parliamentary and Municipal Franchise.*—As observed in last year's note, there are stronger and more obvious grounds for extending the municipal franchise to the Indians resident in South Africa than the Parliamentary franchise. It might be pointed out, however, that we are nearer to the introduction of representative institutions in India this year than we were last year, and therefore the argument for depriving the African Indians of the franchise on the ground of their coming from a country where representative institutions do not exist will carry still less weight now, and there is a strong case for granting the franchise, at least to the richer Indian merchants. Their claim to the extension of the municipal franchise in all the States seems to be much stronger, as this right is enjoyed in Natal and Cape Colony, where some Indians are reported to be discharging municipal functions to their credit. The special necessity for the grant of the municipal franchise will appear from what has already been stated with regard to trade licences.

(3) *The Ownership of Land.*—Unlike their compatriots in Natal and the Cape, Transvaal Indians, under the old Republican Law, 30 of 1885, remain under the disability that they are denied the right to own fixed property, i.e., from having the legal ownership registered in their own names. The system of indirect ownership in other words nominal European ownership, originally suggested by the Republican Government themselves, prevailed until quite recently, and is still occasionally adopted. The process is round about, cumbrous and expensive, but the facts are notorious, and the circumstances are legally recognised by the Courts.

Since about the year 1914, the practice has grown up of forming and registering, under the Transvaal Companies Act 1909, small private companies, with limited liability, whose members are all Indians (frequently an Indian and his wife) and possessing an independent legal *persona*, for the purpose amongst other things, of acquiring fixed property. All these transactions have recently received judicial recognition. It is said that attempts are now being made by interested parties to deprive Indians of this right of indirect ownership of fixed property. Recently a question was put on the subject in Parliament, and the Government spokesman replied that it was intended to examine into the question when the new companies law was under consideration. Advantage has frequently been taken by Indians of these indirect, but quite legal methods to open business in townships whose private regulations prohibit the sale of stands to Indians, which, in themselves, are intended indirectly to compel Indians to reside and trade in special locations, which, again, would mean financial ruin to most of them and against which attempt the Indian community has fought since long before the Boer War.

On the contrary, the prohibition against Indian ownership of fixed or landed property should be repealed by Parliament.

on the grounds that it tends to foster insincerity on all sides, to deprive Indians of some of the elementary rights and responsibilities of citizenship, which are not denied even to the aboriginal natives and other non-Asiatic coloured peoples of the Province, and which are possessed by their compatriots in the coast Provinces, and especially in Natal, where the bulk of the Indian population of the Union is to be found. Transvaal Indians ought not to be compelled to regard themselves as possessing an inferior status, in this respect, to their compatriots resident in the coast Provinces, and such a statute as Law 8 of 1885 is an anachronism and opposed to the spirit of modern legislation.

- (4) *Railway Regulations*.—In the Transvaal, for a number of years past, the policy of racial segregation has been enforced on the railways. Special legislation to that end was sought in 1910, but was strenuously opposed by the Indian community, with the result that certain regulations were eventually agreed to, embodied in the papers published in Blue Book [Cd. 5363] of 1910 (pages 102-5 and 114), at a time when the Indian community was in a relatively weak position, having its energies fully engaged in the passive resistance struggle, which was then at its height, and which left the community powerless effectively to resist further encroachments upon its liberties. But the arrangements therein referred to were of purely local application, and were not intended in any way to affect the position or diminish the rights of Indians in the other Provinces. Recently, however, regulations applicable throughout the Union have been published, some of which have already been withdrawn in deference to strong Indian opposition, whilst others remain, in spite of that opposition, not only embodying provisions contained in the old Transvaal arrangement, but going much farther and extending to other Provinces of the Union a racial discrimination not hitherto known there. The Indian community for a long period of years has consistently fought against statutory discrimination based upon racial distinction. Segregation in travelling would only be tolerable if designed by statute where exactly equal opportunities and facilities were provided for the different races affected. This is impossible for financial reasons, no such remedy is available. Apart from this the situation in the Transvaal, and in South Africa generally, is very different from what it was in 1910, and less than ever are Indians disposed to depart from the principle of equality under the law, which they regard as fundamental in the British Constitution, and for which they have suffered enormously in the past, and are prepared to suffer for again. Not only ought the position of Indians elsewhere in the Union not be reduced to the level of that in the Transvaal, but the latter should be raised to the highest level anywhere in the Union.

The settlement of those and other outstanding difficulties should receive the earnest attention of the Provincial Governments and the Union Government. It should not be forgotten that the bulk of the Indian settlement in South Africa is the result of the action of the South Africans themselves, and Natal, where the majority are domiciled, owes much of its prosperity to Indian labour. "The whole of Durban was absolutely built up by the Indian population," said Sir Leigo Hewlett, ex-Prime Minister of Natal, in 1903. In his farewell speech at Pretoria in November 1912, Mr. Gokhale appealed to the European community in the following words: "You have all the power, and yours, therefore, is the responsibility for the manner in which the affairs of this land are administered. You owe it to your good name, you owe it to your civilization, you owe it to the Empire of which you are a part and whose flag stands for opportunities, for progress for all who live under its protection, that your administration should be such that you can justify it in the eyes of the civilized world." This noble exhortation points to an angle of vision which is much nearer reality to-day than it was in Mr. Gokhale's time, and after the promise of "peaceful and statesman-like" solution made by General Smuts last year there should really be no difficulty now. In order to

enable the Union Government to deal with Indian problems impartially and promptly, the provision of a convenient agency by which Indian grievances can be brought to the notice of the local Government authorities would be a first step. The appointment of a local agent of the Indian Government at Pretoria should be an advantage both to the Indians in South Africa and the South African Government which has to deal with them.

5. For the group of questions relating to facilities for travel, education or business, it is clear that it should be easy to arrive at a liberal and satisfactory solution almost immediately.

The present position is that the Dominion laws allow persons with good credentials to enter on temporary visits, in Canada as "tourists" and elsewhere by special permits, which presumably are granted in the Dominion concerned. For instance, Australian Circular No. 31 of August 1904 lays down "that any persons *bona fide* merchants, students and tourist travellers provided they are in possession of passports may be admitted. On arrival in the Commonwealth the education test in their cases will not be imposed, and such persons are to be permitted to land without restriction, but, in the event of their wishing to stay longer than twelve months, an application for a certificate of exemption should be made before the expiry of the term stating "reason for extended stay."

In the case of *bona fide* students intending to study at any of the Australian Universities, the above requirement of special certificate of exemption appears to be quite unnecessary. The question of the Indian student problem in Australasia has assumed special importance, because at the present moment most of the western world is practically almost shut out from Indian students, and will be for some time after the war, on account of the great rise of the cost of living and other causes. Australian Universities are out of the war zone and comparatively cheap, and the Indian student is poor, and the West Australian University is only about nine-and-a-half days from Colombo.

6. Finally, as regards the question of future emigration of Indians to the Colonies for purposes of settlement, there is no change from the position which was taken up last year, that in this matter the Indian British subjects have a right to expect that they should not receive a less favourable treatment than other Asiatic people who are not subjects of the British Empire. But this question is not of any immediate urgency for India, and might well wait future discussion.

On our side we are being pressed to give practical effect to the resolution of last year's Conference.

7. It is only necessary, in conclusion, to emphasize the necessity of definite action and a forward advance in these matters without any more delay. "I do not lose a due sense of proportion," says the Aga Khan in his recent book, "India in Transition," "when I say that one of the deeper causes "if not of discontent or disaffection, at any rate of the distrust of England and "Englishmen that appeared on the surface in India of recent years was the "strained relationship between Indians and their white fellow-subjects in East "Africa. A rankling sense of injustice was aroused by the reservation of the "best lands for Europeans, and by a succession of ordinances and regulations "based on an assumption of race inferiority. It must be remembered that "such a state of injured feeling evokes a subconscious spirit, which, in a few "decades, may lead to results out of all proportion in importance to the "original causes." If the Indian representatives did not press this aspect of the question last year it is not because they did not realise their force or importance, but because they felt that the sympathetic attitude of the overseas Ministers made it unnecessary for any special emphasis to be laid on the racial aspect of these questions. A most excellent start was made last year and the impression created in India was most favourable. It would be a thousand pities if steps were not now taken to give effect and tangible shape to the good understanding and mutual comprehension attained last year. It is also obvious that these important questions should be settled not in any petty buckstering spirit of reciprocity only, far less of militant animosity and retaliation, but on those broad principles of justice and equality which are now more than ever the guiding principles of the British Empire, and which must be the foundations of the mighty Empire round

the shores of the Pacific and the Indian Ocean which are slowly but surely rising before one's eyes.

ANNEX 2:—Extract from Proceedings at Imperial War Conference, 24th July 1918.

CHAIRMAN: Mr. Hughes cannot come this morning, and Sir Robert Borden is away. The first subject on the agenda is Reciprocity of Treatment between India and the Dominions, on which there is a Memorandum by Sir Satyendra Sinha, which has been circulated, and also a draft Resolution, which I understand is the result of a meeting at the India Office. Shall I read the draft Resolution as the basis of discussion?

SIR S. P. SINHA: As you please, Sir.

CHAIRMAN: The Resolution is as follows:—

“The Imperial War Conference is of opinion that effect should now be given to the principle of reciprocity approved by Resolution 22 of the Imperial War Conference, 1917. In pursuance of that Resolution it is agreed that:—

“1. It is an inherent function of the Governments of the several communities of the British Commonwealth including India that each should enjoy complete control of the composition of its own population by means of restriction on immigration from any of the other communities.

“2. British citizens domiciled in any British country, including India, should be admitted into any other British country for visits, for the purpose of pleasure or commerce, including temporary residence for the purpose of education. The conditions of such visits should be regulated on the principle of reciprocity, as follows:—

“(a) The right of the Government of India is recognized to enact laws which shall have the effect of subjecting British citizens domiciled in any other British country to the same conditions in visiting India as those imposed on Indians desiring to visit such country.

“(b) Such right of visit or temporary residence shall, in each individual case, be embodied in a passport or written permit issued by the country of domicile and subject to *visé* there by an officer appointed by and acting on behalf of the country to be visited, if such country so desires.

“(c) Such right shall not extend to a visit or temporary residence for labour purposes or to permanent settlement.

“3. Indians already permanently domiciled in the other British countries should be allowed to bring in their wives and minor children on condition (a) that not more than one wife and her children shall be admitted for each such Indian, and (b) that each individual so admitted shall be certified by the Government of India as being the lawful wife or child of such Indian.

“4. The Conference recommends the other questions covered by the memoranda presented this year and last year to the Conference by the representatives of India in so far as not dealt with in the foregoing paragraphs of this Resolution, to the various Governments concerned with a view to early consideration.”

SIR S. P. SINHA: Mr. Long, I am deputed by my colleague, the Maharajah of Patiala, who is unfortunately prevented from being present to-day, to express his entire concurrence in what I am going to say to the Conference. I also regret exceedingly the absence of Sir Robert Borden, because I wanted to express in his presence my deep feeling of gratitude for the generous and sympathetic spirit in which he has treated the whole question, both last year

and this year. I desire to express my gratitude to him for the very great assistance he has rendered, to which I think the satisfactory solution which has been reached is very largely due—that is, if the Conference accepts the Resolution which I have the honour to propose.

Sir, the position of Indian immigrants in the Colonies has been the cause of great difficulties, both in the Dominions themselves and particularly in my own country, India. As long ago as 1897, the late Mr. Joseph Chamberlain, in addressing the Conference of Colonial Premiers, made a stirring appeal on behalf of the Indians who had emigrated to the Dominions. The same appeal was made in 1907 by Mr. Asquith, and in 1911. During all this time India was not represented at the Conference, and it is only due to the India Office here to say that they did all they could to assist us. In 1911, the Marquess of Crewe, as Secretary of State for India, presented a memorandum to the Conference, which is printed in the proceedings for that year, and I cannot do better than just read one of the passages from that memorandum, which shows the nature of the difficulties which had arisen and the solutions which had been proposed on behalf of the Secretary of State. The memorandum presented by the Secretary of State says this:—

“It does not appear to have been thoroughly considered that each Dominion owes responsibility to the rest of the Empire for ensuring that its domestic policy shall not unnecessarily create embarrassment in the administration of India.

“It is difficult for statesmen who have seen Indians represented only by manual labourers and petty traders to realise the importance to the Empire as a whole of a country with some three hundred million inhabitants, possessing ancient civilisations of a very high order, which has furnished and furnishes some of the finest military material in the world to the Imperial forces, and which offers the fullest opportunities to financial and commercial enterprise. It is difficult to convey to those who do not know India the intense and natural resentment felt by veterans of the Indian Army, who have seen active service and won medals under the British flag, and who have been treated by their British officers with the consideration and courtesy to which their character entitles them, when (as has actually happened) they find themselves described as ‘coolies,’ and treated with contemptuous severity in parts of the British Empire. Matters like this are, of course, very largely beyond the power of any Government to control, but popular misunderstandings are such a fruitful source of mischief that it seems worth while to put on record the grave fact that a radically false conception of the real position of India is undoubtedly rife in many parts of the Empire.

“The immigration difficulty, however, has, on the whole, been met by a series of statutes which succeed in preventing Asiatic influx without the use of differential or insulting language. It is accepted that the Dominions shall not admit as permanent residents people whose mode of life is inconsistent with their own political and social ideals.

“But the admission of temporary visitors, to which this objection does not apply, has not yet been satisfactorily settled. If the question were not so grave, it would be seen to be ludicrous that regulations framed with an eye to coolies should affect ruling princes who are in subordinate alliance with His Majesty, and have placed their troops at his disposal, members of the Privy Council of the Empire or gentlemen who have the honour to be His Majesty's own Aides-de-Camp. It is, of course, true that no person of such distinguished position would, in fact, be turned back if he visited one of the Dominions. But these Indian gentlemen are known to entertain very strongly the feeling that while they can move freely in the best society of any European capital, they could not set foot in some of the Dominions without undergoing vexatious catechisms from petty officials. At the same time, the highest posts in the Imperial service in India are open to subjects of His Majesty from the Dominions.

"The efforts of the British Government to create and foster a sense of citizenship in India have, within the last few years, undoubtedly been hampered by the feeling of soreness caused by the general attitude of the Dominions towards the peoples of India. The loyalty of the great mass of Indians to the Throne is a very conspicuous fact, and it is noteworthy that this feeling is sincerely entertained by many Indian critics of the details of British administration. The recent constitutional changes have given the people of the country increased association with the Government, and have at the same time afforded Indians greater opportunities of bringing to the direct notice of Government their views on the wider question of the place of India in the Empire. The gravity of the friction between Indians and the Dominions lies in this, that on the Colonial question, and on that alone, are united the seditious agitators, and the absolutely loyal representatives of moderate Indian opinion."

"This, Sir, was in 1911, three years before the war; and if the position was correctly described then, you will conceive with how much greater strength the same observations apply to the present position as between India and the Dominions. Of course, since 1911, so far as South Africa is concerned, many practical grievances which then existed have, I gratefully acknowledge, been removed, but there are still many others outstanding. Those are referred to in the memorandum which has been circulated to the Conference, and I trust my friends Mr. Burton and General Smuts, to whose statesmanship South Africa, including all its inhabitants, owes so much, will be able, on their return to their own country, in process of time to remove all, or at any rate some, of the grievances to which I refer. I recognise that it is a matter of time. I recognise their desire to remove those grievances, in so far as they are grievances, and I appreciate the difficulties of getting any legislation through their own Parliaments for that purpose; but at the same time I hope the matter will not be lost sight of, and that an early consideration will be given to matters which have not been the subject of agreement between us on this occasion.

But, Sir, so far as the outstanding difficulty of India is concerned, I am happy to think that the Resolution which I now propose before the Conference, if accepted, will get rid of that which has caused the greatest amount of trouble both in Canada and in India. There are now about 4,000 or 5,000—I think nearer 4,000 than 5,000—Indians in the Dominion of Canada, mostly in British Columbia, I think, in fact, all in British Columbia; and the great difficulty of their position—a difficulty which is appreciated in India—is that these men are not allowed to take their wives and children with them. Now the Resolution, in paragraph 3, removed this difficulty—that is to say, if it is accepted and given effect to—and I consider that that will cause the greatest satisfaction to my countrymen, and particularly to that great community of Sikhs who have furnished the largest number of soldiers during the war, and to whom these 4,000 men in Canada belong.

The principle of reciprocity, which was accepted by the Conference on the last occasion, is again referred to with approval and effect is to be given to it immediately as regards some of the most urgent matters concerned.

I have read from Lord Crewe's memorandum, Sir, the ludicrous position which now exists with regard to Indians of position visiting the Dominions. That position will be altogether altered if the Conference accepts the second part of the Resolution which I propose—namely, that "British citizens domiciled in any British country, including India, should be admitted into any other British country for visits," and that the system of passports now in existence be continued, which would prevent any influx of undesirable labour population.

I think that, as the whole matter has been before the Conference so long it would not be right for me to take up the time of the Conference further. I venture to think that if this Resolution is accepted, it will solve many of the most acute difficulties which have arisen between the Dominions and India; and, speaking for India, I can assure you that it will cause the greatest satisfaction, and will help us to allay the agitation which, particularly at a

time like this, is a source of grave embarrassment. That is all I have to say, Sir

MR. ROWELL: There are just one or two observations I would like to make, Mr. Chairman. May I say how sincerely Sir Robert Borden regrets that he could not be here this morning, when this question was coming up before the Conference for consideration. He has personally taken a very keen interest in the question, and I am sure he will appreciate the very kind references which the representatives of India have made to his attitude in endeavouring to find a solution of the difficulties which have existed for many years between India and the Dominions in connection with this very important problem.

The Resolution as submitted is accepted by Canada. We have had several Conferences in reference to the various matters raised, and the terms of the Resolution represent an understanding arrived at by India and the Dominions in connection with the important matters dealt with in the Resolution. We look upon it as a matter of importance that the principle implied in the first paragraph of the Resolution should be frankly recognized by all the communities within the British Empire. We recognize that there are distinctions in racial characteristics, and in other matters, which make it necessary that, while we fully recognize the principle of reciprocity, each should exercise full control over its own population. The other paragraphs of the Resolution give effect to the proposals which have been discussed before the Committee, and give effect in such a way as I am sure we all hope will meet the general approval of the citizens of the Dominions and of India, as well as of the other portions of the Empire. We are glad to be able to remove the grounds of objection which India has felt, particularly with reference to the liberty of the Indians resident in Canada to bring their wives and minor children to Canada; but it was felt that this matter could not be dealt with except as part of the whole problem and it is in connection with the solution of the whole problem that this forms an important part.

I think the number of Sikhs in Canada is not quite so large as Sir Satyendra has mentioned. While there was this number at one time, I think a number have returned to India, and the number is not now as large. I am sure we all appreciate the splendid qualities which the Sikhs have shown in this war, and the magnificent contribution which that portion of India particularly has given to the fighting forces of the Empire, and I am sure it would have been a matter of gratification to us all if Sir Robert Borden could have been here when this important matter was being dealt with by the Conference. I am sure the effect of the passing of this Resolution will be to draw together the Dominions and India into closer bonds of sympathy, and to help to cement the bonds that bind our whole Empire together as a unit for great national purposes—for those great, humane and Imperial purposes for which our Empire exists.

CHAIRMAN: Mr. Cook, do you desire to say anything on this? . . .

MR. COOK: No, I think not, Sir.

MR. MASSEY: I am very glad that this solution of the difficulty is arrived at. So far as New Zealand is concerned, there is no serious difficulty. We have very, very few Indians in New Zealand, and so far as I know the people of India have never shown any tendency to emigrate to New Zealand. I simply state the fact—I am not able to explain the reason. The objections, I understand, have come mostly from Canada and South Africa and I am very glad indeed from what has been said to learn that those objections have been removed. Of course, we shall have the administration of the law in so far as it does apply to New Zealand, but I do not anticipate any difficulty there, and I think what has been done to-day not only removes the present difficulties, such as they are, but will prevent serious difficulty occurring in the future. I value the Resolution on that account really more than on any other. Though New Zealand, as I have said, is not seriously interested in this matter—I have no doubt if Indians had come to New Zealand, and in considerable numbers, objections would have been raised, and it would have been the duty of the Government to take the matter in hand. That, however, has not taken place.

I should like to learn from Sir Satyendra Sinha whether this will affect Fiji in any way. Fiji is a neighbour of ours, and most of our sugar is produced there. It is not refined there, but is sent to Australia for refining purposes. I understand a very large number—I am not going into details, but I believe about 60,000 Indians are employed in Fiji at the present time in the production of sugar. I simply ask the question because the point is likely to be raised as to whether it will affect them.

SIR S. P. SINHA: In no way.

MR. MASSEY: I am very glad to hear it. I hope as far as Fiji labour is concerned that even in Fiji some satisfactory solution of the difficulty will be arrived at in connection with that dependency of the Empire. I know there is a little friction—not serious, but a little—but as far as I can understand the position—I do not profess to know the whole details—the difficulties are not insurmountable.

SIR S. P. SINHA: The difficulties are of a different nature. I hope they have been practically solved.

MR. MASSEY: That is all I wish to say, Sir.

MR. BURTON: The matters which were raised by Sir Satyendra Sinha and the Maharajah in connection with this question present, I suppose, some of the most difficult and delicate problems which we have had to deal with, and which it is our duty as statesmen to attempt to solve satisfactorily if the British Empire is to remain a healthy organization. I am sure we all feel, as far as we are concerned—I have told Sir Satyendra myself that my own attitude has been, and I am sure it is the attitude of my colleagues—sympathetic towards the Indian position generally. There are, of course, difficulties, and it would be idle to disguise the fact that many of these difficulties are of substantial importance, which have to be faced in dealing with this matter. But I do not despair of satisfactory solutions being arrived at.

Sir Satyendra Sinha has been good enough to refer to the attitude adopted by Canada and ourselves in discussing this matter in Committee, and I think it is only right from our point of view to add that the possibility of our arriving at a satisfactory solution on this occasion has been due very largely indeed to the reasonable and moderate attitude which the Indian representatives themselves have adopted. But for that, of course, the difficulties would have been ever so much greater. As far as we are concerned, it is only fair to say—and it is the truth—that we have found that the Indians in our midst in South Africa, who form in some parts a very substantial portion of the population, are good, law-abiding, quiet citizens, and it is our duty to see, as he himself expressed it, that they are treated as human-beings, with feelings like our own, and in a proper manner.

As to the details I need not go into all of them. Paragraph No. 3 embodies, as a matter of fact, the present law of the Union of South Africa. That is our position there, so that our agreement as to that is no concession. I pointed out to Sir Satyendra when we were in Committee that in some of these points which he brought up as affecting South Africa I thought in all probability, if he were in a position to investigate some of them himself, he would find that perhaps the complaints had been somewhat exaggerated. I cannot help feeling that that is the case, but I will not go into these matters now. As far as we are concerned in South Africa, we are in agreement with this Resolution, and also with the proposal referring the Memorandum to the consideration of our Government, and we will give it the most sympathetic consideration that we can, certainly.

MR. LLOYD: This is not a matter which directly affects Newfoundland, but I should like to express my satisfaction that some solution has been found, and also to express the feelings which have already been given utterance to by South Africa with regard to the reasonable and moderate attitude of India.

SIR JOSEPH WARD: Mr. Long, this is a development in connection with the Empire that I regard as one of the very greatest importance. At the last Conference we made a move in the direction of meeting the wishes of India and this Resolution now, embodying the results arrived at by the Committee which has been inquiring into this matter, carries the matter, I think rightly

so, a good deal further. And I think it is a move in the right direction. The underlying recognition of the right of the overseas communities to control their own populations within their own territories is one as to which no recommendation from this Conference, if it were made in the opposite direction, could have the least effect within any portion of the British Empire, and in that respect it is laying down a foundation upon which I regard the whole of these proposals as being based.

I think the important factor in connection with it is this: All our countries, at all events New Zealand, have in the past, from causes or reasons one need not specially refer to, viewed with some alarm the possibility, as they thought, of large numbers of Indians coming to them and becoming factors in making calls that would disturb, interfere with, or change the course of employment for instance, and, I think, that that first proposal is one that would be met by every reasonable person in our country with strongest approval.

I want to take the opportunity of saying that sub-clause (c) of the second paragraph of this draft Resolution—"Such right shall not extend to a visit or temporary residence for labour purposes or to permanent settlement"—completely meets the position that a good many people have had difficulties about, and I assume the Indian representatives are just as familiar with them as we are.

Upon the question of the introduction—although I have nothing to do with it as a representative here—of the wives of these men who have been admitted into Canada, that is, in my opinion, not only a wise thing to do, but on the highest grounds possible, and moral grounds among other things, it seems to be a legitimate corollary to what the Canadian Dominion have done with regard to the 4,000 or 5,000 men who are there.

And I want to say with regard to the Memorandum which has been placed before us by the Indian representative on those several matters, that as far as I am concerned I have read the memorandum very carefully this morning, and I shall be glad, at the proper time, to give the matters referred to the fullest consideration in our country.

MR. MONTAGU: Mr. Long, may I just detain the Conference one minute to express, on behalf of the Government of India and my colleagues, our gratitude for the way in which this Resolution has been received at this meeting of the Conference. Sir Joseph Ward has rightly said that this Resolution takes the question a good deal further. I emphasize that by way of caution, and I hope I shall not be charged with ingratitude when I say it would not be fair to the Conference to regard this Resolution as a solution of all outstanding questions. Many of them, can only be cured by time. Many of them, as Mr. Burton has said, require careful study. But I feel sure that the spirit in which the Resolution has been met, and the whole attitude which the representatives of the various Dominions have taken towards it, will prove to India that as matters progress, and as time advances, there is every prospect that Indians throughout the Empire will be treated not only as human-beings, but will have all the rights and privileges of British citizens.

MR. COOK: Mr. Long, may I just say one word, lest my silence should be misunderstood. As my friends know, I attended the Committee meeting yesterday, and concurred in these proposals here, and the reason I do not occupy the time of the Conference is because there is nothing specifically relating to Australia in them. That is to say, many of the things referred to in this Memorandum are concessions which have already been agreed to in Australia very many years ago, even with regard to the bringing of the wives and minor children. I do not think there is any trouble in Australia about that. Whatever the technical difficulties may be, I do not think there is trouble occurring along those lines. At any rate, I am one of those who believe that when we admit a man to our shores we should admit his wife also and his family and if we are not prepared to admit his wife and family, we have no right to admit him. It seems to me that is among the elementary things. I concur entirely with the proposal in that respect, but that being the only outstanding feature of the proposal which can in the remotest degree

affect Australia, I will not take up time in discussing the matter but, agree cordially with what has been suggested and what has been done. I think we owe a great debt of gratitude to India for the attitude she has taken since this war began. That is the feeling in Australia through and through—one of the most profound and cordial appreciation of the attitude of India in regard to this war.

MR. MASSEY : It is the feeling all over the Empire.

CHAIRMAN : Perhaps I may be allowed to say a word in putting the Resolution. It will only be a very brief one. Last year the Conference was specially marked by the addition to our councils of the representatives of India, and I think we all feel that that made the Conference more complete and more real than it ever claimed to be before. This year sees another steady step forward, and I am bound to say that I think, having followed these proceedings very closely—I had the privilege to be present at the meeting which the Prime Minister of Canada was good enough to summon last year, when Sir Satyendra put the general case before us, and I think you will agree that that was a very useful meeting and started us in the direction which has been consistently followed since.—I think this steady advance is due, as has been said, not only to the wise, moderate, and extremely able line taken by Sir Satyendra and his colleagues—last year it was Sir James Meston and the Maharaja of Bikanir who represented India, while this year it is the Maharaja of Patiala—but also to the very statesmanlike view which has been taken of their responsibilities by those who speak on behalf of the great self-governing Dominions of the Empire. And certainly I rejoice more than I can say to see this evidence of the steady progress of the Empire along those lines which have been always followed in the past, and which, I believe, have made the Empire what it is—the recognition of fundamental principles, and a steady refusal to deny to any citizen of the Empire the privileges of Empire simply because of the accident of birth or locality. I regard this as a very important decision. On behalf of the Conference, I may perhaps be allowed to offer my congratulations to those who represent India and the Dominions upon this very considerable step in the development of our Empire. May I put the Resolution?

MR. ROWELL : May I add one word? It is simply that I desire to associate Canada and myself with the remarks which Mr. Burton made with reference to the very reasonable and statesmanlike attitude of the representatives of India in dealing with this matter. The Resolution which embodies the understanding arrived at is, perhaps, the best evidence of our appreciation on the one hand, and of their recognition on the other.

CHAIRMAN : I ought to say that Sir Robert Borden sent me a communication yesterday, expressing a great desire that this should be taken when he was present and we did our best so to arrange matters; but I need not point out to the Conference that unless we are able to take the subjects as they are put down, it is almost impossible to get our business properly forward, or to complete it, within the time at our disposal.

MR. MASSEY : I hope we shall finish this week.

CHAIRMAN : That is what we are working for, of course. May I put this to the Conference?

(The Resolution was carried unanimously.)
